Standard and available equipment may vary by model. Please see back of brochure.

THE 2021 A-CLASS

Would you rather have a flawless diamond, or a giant cubic zirconia? Do you buy the jacket that fits you perfectly, or a larger size because it's the same price? Do you like it when someone listens, responds and remembers, or having to explain yourself over and over? If you chose "A" for all the above, there's a car for you. Innovative and inviting, the '21 A-Class is a smaller Mercedes-Benz—but not a lesser one.

KEY FEATURES

A virtual personal assistant responds to your voice with real action. Turbo power responds likewise to your foot. And how can you resist responding just as eagerly to its smart features, looks and price?

LUXURY 08

- Power tinted glass Panorama roof
- Power front seats, each with 3-position memory
- Heated or heated/ventilated front seats*
- 40/20/40-split folding 3-passenger rear seat
- Dual-zone climate control
- 64-color LED ambient lighting
- Burmester® surround sound*

PERFORMANCE 09

- Inline-4 turbo or AMG-enhanced inline-4 turbo engine
- 17"-19"* (A 220) or 18"-19"* (A 35) alloy wheels¹
- DYNAMIC SELECT drive modes
- Variable-torque 4MATIC® all-wheel drive* (A 220), or AMG Performance 4MATIC (A 35) all-wheel drive
- AMG Sport Suspension, or AMG RIDE CONTROL w/3-stage damping* (A 35)

TECHNOLOGY 10

- Dual 7" or 10.25"* digital instrument cluster and central multimedia touchscreen, steering-wheel Touch Control Buttons, console touchpad
- Apple CarPlay™ and Android Auto
- Mercedes-Benz User Experience (MBUX) w/"Hey, Mercedes" voice assistant; MBUX gesture control*
- Mercedes me connect* featuring smartphone app with Remote Start, 4G LTE WiFi,* and more²

SAFETY 10

- Intelligent Drive* driver assistance suite, including Active Distance Assist DISTRONIC®, Active Steering Assist, Active Brake Assist w/Cross-Traffic Function, Active Lane Change and Speed Limit Assists, PRE-SAFE® PLUS, PRE-SAFE Sound, Route-based Speed Adaptation
- Rearview camera, Blind Spot Assist
- Surround View System and PARKTRONIC w/Active Parking Assist*

*Optional or not available on some models. Please see endnotes at back of brochure.

IT WOULDN'T BE A VALUE WITHOUT THE VALUES

The first thing you might know about the A-Class is that it has the lowest starting price of any new Mercedes-Benz. It's also the first thing you'll forget. Because it's engineered not just to be a good deal, but a great deal more. It's appointed to avoid leaving you disappointed. Its looks are more grand entrance than entry level, with clean lines, sleek LED lighting, and a confident stance. Its cabin delivers high tech with a human touch. And its value is steeped in deep family values, which is why you'll see its industry-advancing safety systems, innovative driver assists, and long list of pioneering luxury, multimedia and connectivity features on its

bigger siblings, too. In fact, the advancement you'll likely enjoy the most—and most often—debuted right here on the A-Class: The Mercedes-Benz User Experience. MBUX is the heart, brain and friendly voice of its modern digital cockpit. You can talk to its virtual assistant like a real person, or use any of three touch interfaces without uttering a word. And while A stands for agility, allure and abundance, its knack for adapting leads the way. From efficient turbo power and available all-wheel drive to a giant glass sunroof and 64-color ambient lighting, it's ready for what's next. More than a wise purchase, the A-Class offers time well-spent.

MODELS

- A 220 SEDAN**
188-hp inline-4 turbo, 7-speed dual-clutch automatic, front-wheel drive
- A 220 4MATIC SEDAN**
188-hp inline-4 turbo, 7-speed dual-clutch automatic, variable-torque 4MATIC® all-wheel drive
- AMG A 35 SEDAN**
AMG-enhanced 302-hp inline-4 turbo, 7-speed AMG SPEEDSHIFT® DCT dual-clutch automatic, AMG Performance 4MATIC all-wheel drive

21

REWARDS WITHIN, AND WITHIN REACH

The sleek twin screens and jet-style air vents might catch your eye even before you settle into one of the power front seats. But as their contours and hand-fitted upholstery cradle you, and you notice each seat has its own 3-position memory, you'll realize you're not settling at all here. Everything feels fully thought-out, because it has been. All four windows

have auto-up/down. The leather-wrapped steering wheel invites your grip, as your thumbs fall naturally to the touch controls on each spoke. LED lighting lets you outline the cabin and fill the vents in any of 64 colors—even in pairs or flowing sequence. And like everything here, the giant power sunroof tempts you to reach for a star. And rewards you for doing it.

LUXURY HIGHLIGHTS

- Power front seats with 3-position memory
- Heated and/or ventilated front seats*
- AMG Performance front seats with multicontour adjustment* (A 35)
- 64-color LED ambient lighting, including the dash vents
- Power tinted-glass Panorama roof

- Multiple touch interfaces on console, steering wheel and central multimedia touchscreen
- Dual-zone climate control with dust, pollen and activated-charcoal odor filters
- Burmester® Surround Sound*
- Heated steering wheel*
- Aluminum or natural-grain wood* cabin trim

*Optional or not available on some models. Please see endnotes at back of brochure.

REVELATION, WITH EVERY REV

If there's one place you want your car's response to earn more than a passing grade, it's passing—on a grade. A twin-scroll turbo helps a compact engine pour out big torque yet sip fuel (up to 25/36 mpg city/highway in EPA estimates³). Direct Injection and multispark ignition can self-tune in milliseconds, as you drive. The transmission has two clutches but no

clutch pedal, which lets it shift automatically faster than a human can. If you want manual control, shift paddles behind the steering wheel are always just a quick squeeze away. And one button lets you change drive modes from Comfort to Sport to customizable Individual. When it comes to performance, you need more than a passing grade. You want to get an A.

PERFORMANCE HIGHLIGHTS

2.0L inline-4 twin-scroll turbo engine: 188 hp (A 220), or AMG-enhanced 302 hp (A 35)

7-speed dual-clutch automatic transmission with shift paddles: 7G-DCT (A 220), or AMG SPEEDSHIFT® DCT (A 35)

Front-wheel drive, or variable-torque 4MATIC® or AMG Performance 4MATIC all-wheel drive*

DYNAMIC SELECT driving modes, including Comfort, Sport and customizable Individual

17" to 19" alloy wheels¹ (A 220), or 18" or 19" AMG® alloy wheels¹ (A 35)

4-wheel independent suspension; AMG Sport Suspension or AMG RIDE CONTROL with 3-stage damping* (A 35)

*Optional or not available on some models. Please see endnotes at back of brochure.

Visionary safety systems, breakthroughs in driver assistance, and innovations in luxury and convenience are the result of Mercedes-Benz engineers investing decades in looking ahead. Sometimes just a few milliseconds ahead.

21

ARTIFICIAL INTELLIGENCE, REAL GENIUS

Voice control raises user-friendliness to a new peak in the digital A-Class cockpit. With MBUX, the Mercedes-Benz User Experience, just say “Hey, Mercedes” and talk naturally, like “I’m cold” to turn up the heat. Say “I need a coffee” and MB Navigation* can search, then show you each turn with live on-screen video, overlaid with guiding graphics. You can even add a built-in dashcam* as well as gesture control for some front cabin features. MBUX is not just easy to learn. Its artificial intelligence can learn your preferences, too. And it’s not all talk: Dual screens, in 7" or 10.25" sizes, offer reconfigurable instruments and a multimedia touchscreen. Three more touchpads on the steering wheel and console let your fingers do the talking.

TECHNOLOGY HIGHLIGHTS

- Mercedes-Benz User Experience (MBUX) with natural voice assistant, touchscreen, console touchpad, and steering-wheel Touch Controls
- Dual 7" or 10.25"* displays: reconfigurable instrument cluster, multimedia touchscreen
- MBUX Interior Assistant (gesture control)*
- Over-the-air software updating²
- MB Navigation* w/augmented video using live imagery of surroundings⁴
- Apple CarPlay™ and Android Auto⁵
- Four USB-C ports⁶; wireless charging*
- Dashcam*; Head-Up Display (A 35)*⁷

EVER WATCHFUL, EXTRA HELPFUL

A network of radar, cameras and other technology can multitask in multiple directions, to keep watch in ways beyond human capability. Every A-Class can scan ahead and into your blind spots to help avoid accidents, and to warn you if it’s not ok to open a door after you’ve parked. Options include hands-free parking assist, a multicamera birdseye view, and a new dashcam. Another package can adapt your cruising speed as the limit changes, let you change lanes by tapping a turn signal, help keep you from turning across oncoming traffic, and trigger your ears’ natural defenses for loud noises before a crash. Virtual eyes look out for your outlook, milliseconds at a time.

SAFETY HIGHLIGHTS

- Radar-based Active Brake Assist frontal collision mitigation⁸; Blind Spot Assist with Exit Warning Assist⁹; rearview camera¹⁰
- PARKTRONIC with Active Parking Assist¹¹ and multicamera Surround View System^{10*}
- Driver Assistance Package,*¹² including Active Distance Assist DISTRONIC® cruise control; Active Steering Assist; Evasive Steering Assist; Route-based Speed Adaptation; Active Brake Assist w/Cross-Traffic Function; PRE-SAFE® PLUS with rear-impact preparation and hearing protection technology¹³; and Active Blind Spot, Emergency Stop, Lane Change, Lane Keeping, and Speed Limit Assists

*Optional or not available on some models. Please see endnotes at back of brochure.

OPTION PACKAGES

Even with its abundant standard features, a menu of options can help you tailor your A-Class to suit your style, and fit the way you live and drive.

STYLING PACKAGES

AMG Line (A 220):
 AMG body styling

A-CLASS SEDAN

Are you someone who anxiously awaits the newest phone, has an eye for the freshest fashion, and can't wait to check out the hot new dining spot? If you're a driver of change, an A 220 might be just the car to take you new places. That's because it wasn't designed to be the most affordable car in its own showroom. It's engineered to be the only Mercedes-Benz in its class. It's so advanced, it premiered innovations that no other car had ever offered. It's styled to turn heads, including your own admiring "just one more look" after you park it. And it's equipped to fit you and your world for years

to come. Its turbo engine is efficient yet exuberant. There's room for five, yet it's agile in corners and crowded cities. It can even evolve over time, from 64-color ambient lighting you can shift with your mood, to vehicle software you can update in your driveway, over the air.² The front seats offer adjustable lumbar and thigh supports, in addition to their 8-way power settings with 3-position memory, to keep you comfy on long trips or after years of daily commutes. So if you're someone who loves having the freshest mobile device in your hands, the A 220 is one that'll really move you.

188-HP 2.0L INLINE-4 TURBO ENGINE. FRONT-WHEEL DRIVE OR VARIABLE-TORQUE 4MATIC® ALL-WHEEL DRIVE. POWER GLASS PANORAMA ROOF. LED HEADLAMPS AND TAILLAMPS. BLIND SPOT ASSIST W/EXIT WARNING. 17" ALLOY WHEELS¹ (OPTIONS TO 19"). DUAL COLOR DIGITAL DISPLAYS, WITH CENTRAL MULTIMEDIA TOUCHSCREEN. MBUX WITH "HEY, MERCEDES" DIGITAL VOICE ASSISTANT. APPLE CARPLAY™ AND ANDROID AUTO⁵

“What’s the hurry?” are three words you don’t want to hear from someone whose car just filled your mirror with its red and blue lights. However, enjoying the track-trained skills of the AMG A35 in a responsible yet enthusiastic manner, you might exclaim the words “What a rush” for yourself. It isn’t hard to feel the racing credentials that establish the A35’s “street cred.” Mercedes-AMG isn’t a place where the racers only race. The champion drivers are directly involved in the development of the production cars. Their teamwork, knowledge and passion permeate the hardware of the A35, from innovations to reduce friction to advancements in the

distribution of power to the pavement. Increasing the boost of the liquid-cooled twin-scroll turbo helps generate 302 hp and 295 lb-ft of torque from a compact 2.0L inline-4, good for a 0–60 sprint of 4.6 seconds.⁵ Integrated with the rev-matching dual-clutch 7-speed to further slash weight, AMG Performance 4MATIC can fully vary the torque split from rear-biased takeoff traction to balanced cornering confidence. And while the A35 is the starting line of the AMG fleet, you can finish it with options like a 3-stage adaptive suspension, an aero package, plus seats and steering wheels that let you feel its racing heart—and your own—at street-legal speeds.

OWNERSHIP & EXPERIENCE

DAILY COMMUTE OR ROADTRIP, THOUGHTFUL TECHNOLOGY HELPS MAKE ANY JOURNEY A JOY.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you.² And all of them collaborate to help keep you on track, on time, and feeling you're on top of your real world.

- You can remote-start your car, locate where it's parked, configure vehicle settings from your phone, and more.
- You can look up destinations on your phone and send them to the available MB Navigation system in your car.
- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

Models with Car-to-X Communication can share info on traffic, road hazards and other conditions with each other, via a central reporting base. So you might find out about a tie-up on your route before you get caught up in it.

The map database for your car's available MB Navigation system can be updated in your driveway, over the air, up to twice a year—with no need to bring it to the dealership.

WHEREVER YOU DRIVE, THERE'S A TEAM OF SUPPORTIVE PEOPLE LOOKING OUT FOR YOU.

Mercedes-Benz was the first automaker to introduce its own Roadside Assistance Program in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.²⁵

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.
- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.
- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Your Mercedes-Benz dealer is helping make service and maintenance even more convenient, with options such as Express Service, Mobile Service, pickup and delivery, online scheduling, and contactless payment. Your dealer can tell you more about the specific benefits they offer.

YOUR MERCEDES-BENZ EXPERIENCE SHOULD ALWAYS FEEL SPECIAL.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you're part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.
- From the AMG Lounge to #MBPhotoPass on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- *Mercedes me* lets your car communicate its service needs to your preferred dealer.
- Your dealer can reach out to you to book an appointment or offer drive-in service.

COMMITTED TO COMMUNITY

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders.

To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow.

Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community

A nationwide network of youth sports programs, Laureus Sport for Good USA is focused on improving the health, education, employment and social cohesion of youth in underserved communities. Since 2012, Laureus USA has helped nearly half a million young people in 150 cities.

ENDNOTES

- * Item is optional or not available on some models. See *Build Your Own* in this brochure or visit MBUSA.com for more information.
- 1 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.
 - 2 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect assist* services, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with MB Navigation also include 3 years of over-the-air map updates (up to twice per year), 3 years of live traffic information provided by HERE Technologies, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me connect* Mobile App is compatible with Apple iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.
 - 3 2021 EPA estimated fuel economy (city/highway) is 25/36 mpg for A 220, 25/34 mpg for A 220 4MATIC, and 22/29 mpg for AMG A35. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length.
 - 4 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area.
 - 5 Apple CarPlay™ is a product of Apple Inc. Android Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
 - 6 An adapter cable is required to connect a device with an earlier-generation USB port.
 - 7 Display may not be visible with certain eyewear, including polarized glasses.
 - 8 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.
 - 9 Blind Spot Assist is a warning system only. Blind Spot Assist or Active Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of surrounding traffic conditions. Exit Warning Assist feature operates up to three minutes after vehicle is switched off, or until indicator in mirror flashes three times. See Operator's Manual for system's operating speeds and additional information and warnings.
 - 10 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
 - 11 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. See Operator's Manual for additional information, tips and warnings.

- 12 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at MBUSA.com, and in the vehicle's Operator's Manual. Some systems may be optional.
- 13 PRE-SAFE® closes the side windows when the system's sensors detect side movements that suggest a possible rollover or side impact. A small gap is left near the fully closed position. Audio/multimedia system must be turned on for PRE-SAFE Sound to operate. PRE-SAFE PLUS cannot prevent a collision, and does not alert the driver of an impending collision or system activation. It does not intervene if vehicle is backing up, and does not apply the brakes if the driver is accelerating or if Active Parking Assist is operating.
- 14 Sport steering wheel is excluded from AMG Line package if heated steering wheel is ordered.
- 15 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 16 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.
- 17 Unsecured cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.
- 18 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. Active Steering Assist requires driver to hold steering wheel and be ready to steer vehicle at any time. It may not recognize lane markings in some lighting, weather and road conditions. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.
- 19 Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system operating speeds and additional information and warnings.
- 20 Active Lane Change Assist is not a substitute for active driving involvement. It estimates but does not predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the driving inputs necessary to retain control of the vehicle. System may not detect some objects, obstacles or vehicles in the area into which the vehicle would move. See Operator's Manual for system operating speeds and additional information and warnings.
- 21 Driver is responsible for safely slowing and/or stopping vehicle at intersections, and for giving right-of-way to other drivers. System is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 22 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Driver's deliberate steering inputs are required to initiate the system's action, and can override its intervention at any time. See Operator's Manual for system operating speeds and additional information and warnings.
- 23 The purchase of a new, SiriusXM®-equipped vehicle includes a 6-month introductory subscription to the SiriusXM All Access package. Eligible pre-owned vehicles equipped with SiriusXM will receive a 3-month trial subscription to SiriusXM All Access package. Trial length and service availability may vary by model, model year or trim. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- 24 Wireless charging and NFC pairing available only for devices with compatible technology and size. See Operator's Manual for more information. Devices sold separately.
- 25 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
