Gourmet coffee from the Veneto

LOVE COFFEE, LOVE NATURE

You can find all of the goodness of nature in our coffee. Creating unique blends means immersing yourself in natural elements, encapsulating the essence of aromas and flavours, striking a balance in taste and providing something for everyone to enjoy as you continue your tireless pursuit of perfection, just like we have done every day since 1927.

THE ORIGINS OF FLAVOURS

Every cup of coffee takes you on a journey around the world and deep into the breathtaking diversity of nature, because its flavour changes with each season and from one harvest to the next.

That is why we travel thousands of miles in search of the best harvests, as we strive to offer consistently exceptional quality. It is what we have been doing every day for more than 90 years.

ARTISAN ROAST

In our factory close to Venice in the North-East of Italy we carefully roast premium beans to create gourmet blends that delight coffee professionals around the world. As a family owned company we take pride in every batch of roasted coffee. Embark on a journey through the flavours of the world with our crafted blends that allow you to visit the most beautiful regions of the globe through the aroma of finest coffee beans, hand selected for you.

IL CAFFÈ DEL VILLAGGIO

Sustainable agriculture aids growers, workers and their families, while also helping to protect the world's resources, now and in the future. The special "Village coffee" blends are individually selected in small and unspoilt plantations operated by small farming communities. We personally visit the farms to ensure that not only the quality of the beans is premium but the villages develop in a sustainable way.
