

**Emergency Alert**

Evacuate Now! Immediate Threat  
Detected. Follow Safety Procedures.

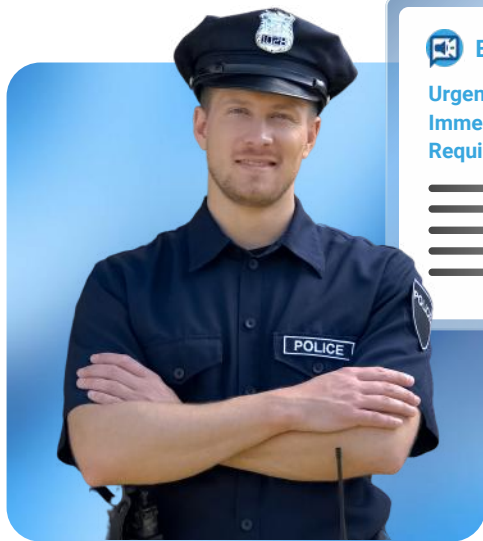

# Connect in Crucial Moments

Communicate, collaborate, and engage with your teams  
and your customers with **one** simple solution

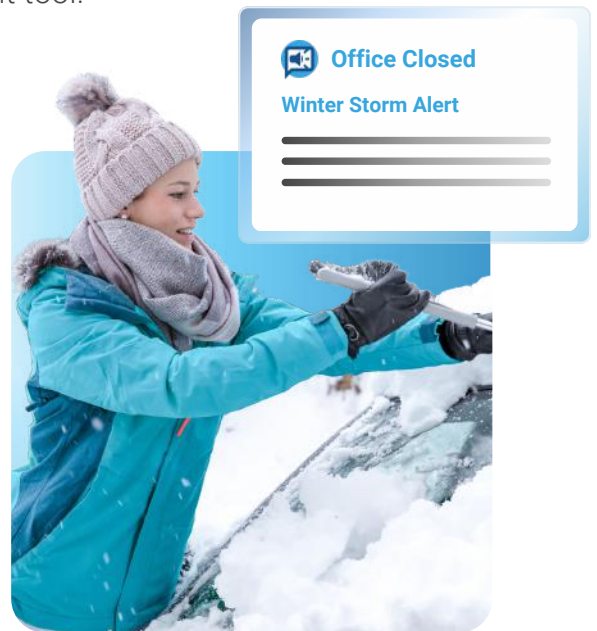

# The Uses for Alertblast Are Practically Limitless

From communicating vital emergency alerts that can save lives, to notifying staff of routine information, AlertBlast is the right tool.

## Emergency Notifications

Respond quickly to security threats in the workplace or on campus.

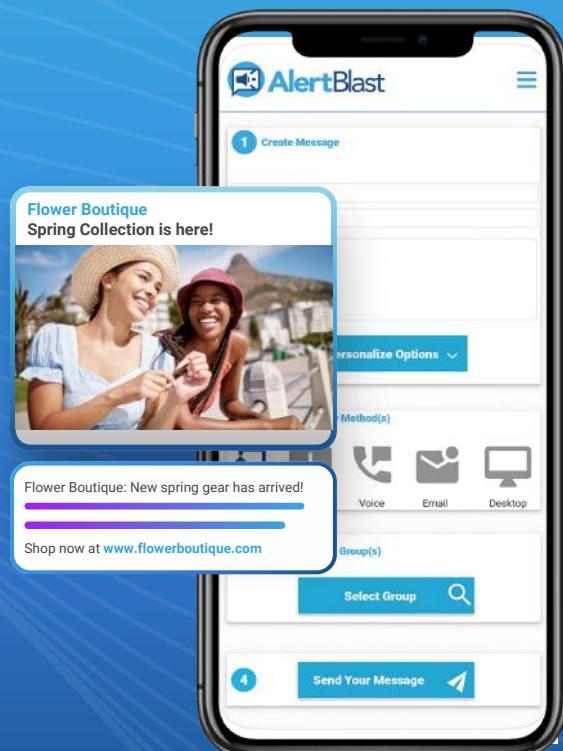

## Work Interruptions

Avoid putting employees into dangerous or inefficient situations.

## One Message Multiple Channels

AlertBlast allows you to engage in real-time, with any size audience. Using a simple interface that enables multiple channels — including SMS, voice, email, desktop, in-app notifications, paging, wallboards, IP phones, and more — important or time-sensitive messages will always reach their intended recipients.

**Appointment Reminder**

Dr. Jolly's Office

 **Appointment Reminders**
