

AWAKEN THEIR INSTINCTS

**GRAIN & POTATO-FREE
UP TO 80% MEAT PLUS FRUITS,
VEGGIES & HERBS**

**HIGH QUALITY DOG & CAT FOOD MADE
FROM CAREFULLY SELECTED SOURCES
OF WILD-ORIGIN MEAT**

INSTINCT CALLS FOR MEAT

CARNILOVE has been formulated with respect for the natural origins of dogs and cats. The earliest record of cohabitation between dogs and humans dates to roughly 12,000 BC. As this cohabitation evolved, the canine diet began to align more closely with that of humans. With the introduction of agriculture, this diet further departed from the dog's anatomical and genetic disposition.

CARNILOVE is crafted with a deep respect for this longstanding history of pet and human companionship. The ingredients and ratios in our formulas are inspired by the pre-agricultural diets of dogs and cats, whilst using modern production methods and technologies. The wide spectrum of carefully selected wild-origin meats, such as reindeer, duck, pheasant, turkey, lamb, wild boar and salmon, corresponds to the composition of natural prey and ensures intake of important amino acids.

Forest fruits, vegetables and herbs are natural sources of important vitamins, antioxidants and other essential nutrients.
Grain and Potato-free.

Awaken their Instincts with CARNILOVE!

CARNILOVE DRY RANGES

FOR DOGS AND CATS

CARNILOVE Dry food consists of three ranges, all of which contain high quality ingredients to offer a complete meal for your cat or dog. All ranges are grain and potato free and contain a high meat content complemented with forest fruits, vegetables and herbs.

CARNILOVE True Fresh range offers something extraordinary in providing a dry kibble made from fresh meat only, with no meat meal. The innovative production method, including Twin Thermal extrusion technology, allows the natural nutritional properties of the meat to be preserved and results in a high quality kibble offering extraordinary taste and great digestibility.

**GRAIN-FREE
POTATO-FREE**

Grains are a common ingredient in commercial dog foods, where they serve as a cheap filler and source of energy. They do not, however, form a natural part of the canine diet. Because dogs can't use the excess energy contained in grains and potatoes, it is stored in the body as fat and leads to the onset of obesity and related illnesses, such as diabetes. Carnilove is a return to the natural food sources of wild dogs. Therefore, it contains no common grains or potatoes.

CARNILOVE DRY

- Available for both dogs & cats
- Contains 70-75% Wild-origin meats
- Up to 30% Forest fruits, vegetables and herbs
- Grain & Potato Free
- Complete food

- Natural form of nutrition with excellent taste and digestibility
- 60% fresh meat (dog), 70% fresh meat (cat)
- Grain & Potato Free
- Complete food

**GUARANTEED COMPOSITION
CONTAINING NO CHEMICALS,
PRESERVATIVES, OR
COLOURANTS**

Comprehensive food forms the basis of daily nutrition for dogs. We understand that the quality and nutritional composition of dog food has a direct impact on overall health and wellbeing. The diet of wild dogs contains no chemical substances and no artificial additives, both of which can accumulate in the body and cause serious health problems. Carnilove contains the **highest quality ingredients** and maintains excellent digestibility and usability through careful processing.

WILD-ORIGIN MEATS

Meat and other animal tissues are sources of proteins, the building blocks of muscle. It is very important to ensure that dogs have the required daily intake of quality proteins. The wide spectrum of carefully selected and unique sources of proteins in the Carnilove formulas, such as reindeer, duck, pheasant, turkey, lamb, wild boar, and salmon, respect the natural dietary choices of wild dogs. All of the meat and animal ingredients in Carnilove are selected with the greatest possible emphasis on quality and come from regulated farms in Europe.

SEA BUCKTHORN

A powerful superfruit rich in antioxidants, which help fight against free radicals, and vitamin C, an all-round body booster that supports wound healing and recovery.

PUMPKIN

A natural source of high-quality fibre, which supports digestive tract health and ensures efficient absorption of important nutrients.

YEAST, PSYLLIUM & YUCCA

To support digestion, increase the usability of nutrients in the body, and provide necessary insoluble dietary fibre to support a healthy digestive tract. Brewer's yeast also acts as a natural antiparasitic, while yucca supports a healthy digestion and reduces the volume and odour of stools.

CHICORY ROOT AND MARINE ALGAE

Supporting health and immunity. Chicory root is a source of mannan oligosaccharides, which suppress negative bacteria in the bowel and have a positive effect on the composition of intestinal microflora. Marine algae are a natural source of minerals, trace elements, and amino acids.

CHICKPEAS

An excellent natural source of plant protein and minerals, such as sodium, iron, and magnesium, which are necessary for proper metabolism, and calcium, which plays an important role in bone mineralization.

GINGER ROOT

A powerful natural wonder that supports the body against inflammation and provides the foundation for immune system health and efficient metabolism.

SAGE

Helps reduce flatulence and supports digestion. It also has anti-inflammatory and antibacterial properties that help maintain healthy teeth and gums.

SALMON OIL

Rich in Omega 3 fatty acids supporting the nervous and cardiovascular system and promoting hair and skin quality. The oil in Carnilove comes from Scottish salmon and contains high levels of DHA and EPA, both of which support mental and learning capabilities.

GREEN LIPPED MUSSEL AND CARTILAGE EXTRACT

Supports mobility and flexibility of joint, tendons and ligaments.

FOREST FRUITS VEGETABLES AND HERBS

A source of nutrients, fibre and necessary vitamins. Carnilove contains fruits and herbs rich in antioxidants, which support natural cell protection, boost the immune system, and prevent premature aging.

**CARNILOVE RECIPES
