Fractional Executive & Strategic Thought Partner

Dr. Diane Tucker is a fractional executive and strategic thought partner trusted by visionaries around the world. She builds strong relationships with innovators across industries and brings to life the ideas that others only imagine. Once she sees the full scope of a vision, she leads the charge in building and scaling it into a multi-million or billion-dollar enterprise, then stays on to manage it if needed.

DR. DIANE IS THE EXECUTIVE YOU BRING IN WHEN YOUR VISION IS TOO IMPORTANT TO FAIL.

Whether stepping in as CEO for those who prefer to stay behind the scenes or serving as COO to empower founders born to lead, Dr. Diane brings the systems, experience, and execution needed to take a concept from idea to global operation. From financial pro forma and revenue modeling to front and back-end technical systems, operations, team development, and strategic growth, Dr. Diane builds the infrastructure that turns innovation into impact.

She is not a Manager. She is not a Director.

She is an Executive Leader at the highest level.

With over 20 years of cross-sector expertise, Dr. Diane is one of the most reliable collaborators in the technology, education, entertainment, nonprofit, agriculture, and renewable energy sectors. Her career has been defined by scaling and designing million-dollar operations, leading ground breaking initiatives, and crafting brand narratives that attract capital and long-term partnerships.

Her journey is marked by resilience. In 2005, Diane underwent brain surgery and lost her sight for three months. By 2007, she was placed on permanent disability. Yet rather than retreat, she reinvented her path and turned adversity into strength. Her career since has become a powerful example of what's possible when purpose meets grit.

Today, Dr. Diane is also the founder of **IIF – Impact Innovation Foundation**, a nonprofit supporting youth, women, and social impact entrepreneurs worldwide. Her work makes the next empowered generation of change-makers while building ecosystems that drive measurable, lasting innovation.

Dr. Diane's reach is global. Her results are proven. And her ability to deliver on bold, complex visions makes her the executive partner of choice for global investors, founders, and philanthropists ready to build what matters.
