ALL FLAG KITS COME WITH A FIBERGLASS STAKE MOUNT

SINGLE-SIDED VS. DOUBLE-SIDED FLAGS

SINGLE-SIDED FLAGS

Right-reading front
Reverse reading back

DOUBLE-SIDED FLAGS

Right-reading on both sides

FLAG BASE OPTIONS

All flag kits include flag, flagpole hardware, and a fiberglass ground stake. Alternative base options to the ground stake are below.

SAND BASE FOR VERTICAL FLAGS

Unique portable plastic base will support flagpoles up to 10'. Just add sand to the base and it's ready to use.

SAND BASE			
SKU	1-10	11-20	21+
HW-SBASE	\$60.00	\$55.00	\$53.00

Approx. Shipping Weight: Sand Base = 5 lbs ea.

X-STAND FOR VERTICAL FLAGS

Will support flagpoles up to 10' for indoor and temporary outdoor use. Use with the WATER BALLAST for additional stability.

X-STAND & WATER BALLAST			
SKU	1-10	11-20	21+
HW-XBASE	\$66.00	\$60.00	\$57.00
HW-WBAG	\$20.00	\$18.00	\$15.00

Approx. Shipping Weight:
X-Stand = 4 lbs ea. Water Ballast = 1 lb ea.

FLAGPOLE CARRYING CASE

Optional carrying case available. One flagpole and a flag fit securely in a black nylon bag, ready for traveling.

FLAG CARRYING CASE		
SKU	FLAG BAG	
HW-FPBAG	FLAG BAG	\$27.00

Prices are subject to change.

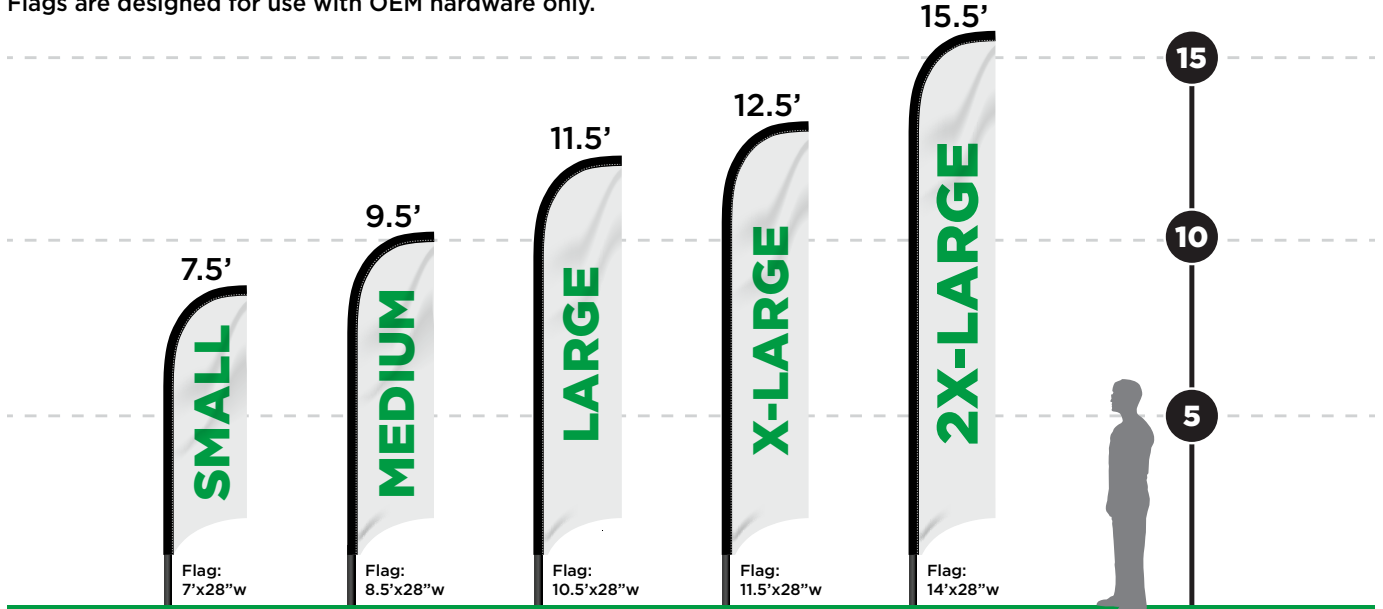

CUSTOM TAIL FEATHER KITS

Tail Feather Flags are wind directional and stay open for 24/7 readability regardless of wind speed. Flags are digitally printed right-reading front, reverse-reading back (1S) and most sizes are available right-reading on both sides (2S).

Kit includes flag, flagpole hardware, and a fiberglass ground stake. Optional carrying case is available for \$20.00 each (c). See page 10.

Flags are designed for use with OEM hardware only.

Prices are subject to change.

VINYL AND MESH BANNERS

Our grand format printers offer seamless banners up to 16 feet using high quality, durable, and fade-resistant inks. Vinyl banners are affordable and versatile signage for property advertising and events. Mesh banners are perfect for very large or high wind applications. Custom banners are made to your size specifications with multiple finishing options available.

WARNING! This product can expose you to chemicals, including Methylpyrrolidone and Benzophenone which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, go to www.p65Warnings.ca.gov.

CLOTH BANNERS

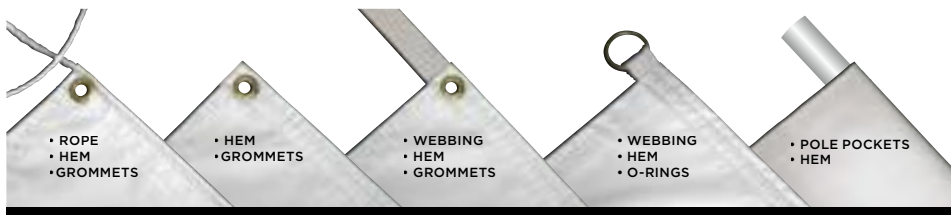

Display cloth banners are a lightweight alternative to vinyl banners and are ideal for indoor applications. The printed surface cannot be scratched, and you can save on shipping costs due to the lighter weight. Wrinkles can be steamed away (do not iron or apply direct heat). Dry clean only.

VINYL, MESH, CLOTH						
SKU	MATERIAL - PRICE PER SQ. FT. AREA	20-75	76-500	501-1,000	1,001-4,000	4,001+

- VELCRO - \$1.45 (c) per linear foot**

Prices are subject to change.

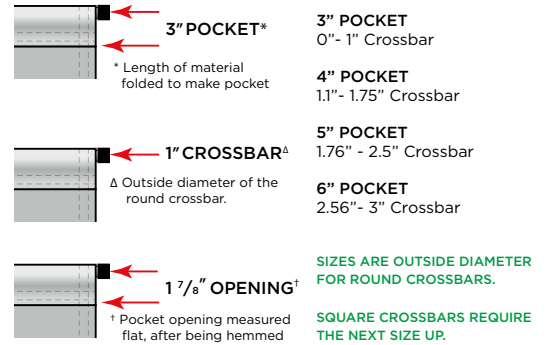

CUSTOM POLE BANNERS

Highlight your property name, amenities, or special events on light poles with double-sided pole banners. We offer time tested hardware that's available in several standard widths. Have existing hardware? We'll size your banners to fit!

POCKET SIZE SPECIFICATIONS

When specifying the required pocket size for pole banners, please base it off the size of the pole used for the crossbars. The size should be the outside diameter of the crossbar. Square crossbars will always require a larger sleeve than round crossbars. Please be sure to specify size and round or square crossbar.

SKU	MATERIAL - PRICE PER SQ. FT.	AREA	20-75	76-500	501-1,000	1,001-4,000	4,001+
18vban	18oz Blockout Vinyl (Per Side)		\$6.33	\$4.22	\$3.80	\$3.38	Call

Prices are based on double-sided printing on standard widths of 18", 24", 30", and 36" with 3" pockets and trimmed side edges - customer provided art. In isolated instances, prices may be subject to yield. Creative services available for an additional cost.

WARNING! This product can expose you to chemicals, including Methylpyrrolidone and Benzophenone which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, go to www.p65Warnings.ca.gov.

POLE BANNER HARDWARE

One pole banner requires a single pole banner bracket kit which includes 2 horizontal poles (crossbars), 2 brackets, and 4 bands. A double pole banner (one on each side of a light pole) requires a double pole banner bracket kit which includes 4 horizontal poles (crossbars), 4 brackets, and 4 bands.

AFRAME-P	Sign Faces Only (Set of 2)	\$63.00	\$51.00
AFRAME-H	Frame Only	\$192.00	\$174.00

Custom print prices are based on customer provided artwork and include first proof and one revision (if necessary). Art charges apply with further changes. Creative services available for an additional cost.

Approx. Shipping Weight for a Custom Kit = 15 lbs ea.

CUSTOM UNDER HOOD SIGNS

Transform a new or used car into an impactful promotional display with these under hood hanging signs and displays. Made of 5mm Coroplast material, these 42" x 30" signs fit beneath most styles of car hoods -- and are printed with a single sided design in UV and fade resistant inks. A great idea for a car lot, car wash or detailing, towing, repair and other auto-friendly events. Available in assorted colors and designs. Add your company logo or message to customize.

Dimensions: 42" high x 30" wide

AUTO PLATE INSERTS

Create a high octane promotion for events and activities pertaining to automobiles with these license plate inserts. Made of .20 styrene, these 6" x 11.9" accessories have four oval holes for easy mounting. These plates are digitally printed for clarity and detail, then liquid laminated for durability and abrasion resistance. Size: 6" x 11.9"

FILE FORMATS SUPPORTED

VECTOR ART

- Can be scaled to any size while maintaining quality
- Preferred unless printing photos

ACCEPTED VECTOR FILES

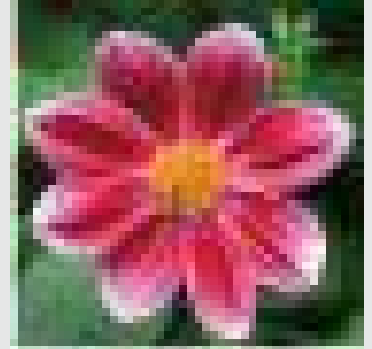

RASTER ART

- Also known as bitmap art
- Composed of pixels (tiny squares) grouped together to make an image
- When scaled larger, the image will look pixilated (jagged)

High resolution image
200 dpi

Low resolution image
25 dpi

ACCEPTED RASTER FILES

SETTING UP YOUR DOCUMENT

1. Please build one file per design. In the case of programs that support multiple pages only place one design per page.
2. All colors used in document must be specified as CMYK, not Spot colors.. Files submitted in RGB will be converted to CMYK which may cause a color shift in the art.
3. Create your document to actual size, with the dimensions in inches, NOT feet. (For example, if your final product is 3' x 5', build it as 36" x 60".) For banners and flags, inset your text and important graphics 2.5" from the edge to prevent them from being sewn through in the finishing process.
4. Please remember to save a copy of your file with the type converted to outlines, paths or curves and send us this copy to prevent any font substitution problems.
5. Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can suddenly vanish when opened from a different computer. Embed all images to avoid losing them when files are submitted.

Prices are subject to change.

COLOR MATCHING

If color is critical to your job, for additional charges we can produce a small print sample of your file for you to inspect. Color corrections can then be made and another print sample made for final approval. If you specify Pantone spot colors, our color management will attempt to get as close as possible, however this may result in a color that does not look as you intended. Due to the nature of digital imaging, exact Pantone spot color matches are not always possible. For an additional fee we can provide you with a printed color chart so you can see how your Pantone spot colors will print. Please note that metallic inks are not available for digital printing. Pantone's CMYK equivalent will be substituted for the metallic inks specified in your file. If you do not wish this substitution to occur, please substitute a non-metallic color to simulate the effect you are trying to achieve.

RESOLUTION FOR BITMAP/DIGITAL IMAGES

When including Photoshop (bitmap) images, you should scan or create your image at its final reproduction size at the following resolutions:

- 75-100 pixels per inch for vinyl banners
- 100-120 pixels per inch for textile printing
- 150-220 pixels per inch for rigid substrates

Rasterized type in Photoshop will lose its crisp look and 'stair-step' if the file resolution is too small. Save these files in the JPEG format with the quality or compression level set to Highest Quality or Maximum Quality. This setting ensures there is no distortion or loss of detail while providing the best compression of the file.

HEM AND TRIM ALLOWANCES

BANNERS

Our standard hem turns 1.125" of material (add 2.25" to your required finished size) and is double stitched with the stitching coming in 3/4" from the folded edge. A 2.5" margin from the (2.25" oversized) unfinished trim edge of the banner is required to prevent live content from being turned and sewn.

POCKETS

Pole pockets are calculated based on the outside diameter of the pole. Up to 1" pole diameter would use a standard 3" pocket that has a 2.25" opening (measured flat). 1.25" - 1.875" Poles would use a 4" pocket that has a 3.25" opening (measured flat). Please request a template for banners that require pole pockets to help prevent your live content from being sewn through.

HORIZONTAL FLAGS

Our standard hem for Horizontal Flags turns 0.75" of material and is Double Stitched along the top and bottom edges with the stitching coming in 3/8" from the folded edge. The Fly edge of the flag is Quad stitched and turns 2" of material with the stitching coming in 1.5" from the folded edge.

VERTICAL FLAGS

All Vertical Flags are Quad Stitched along each of the three (non-header) sides of the flag.

MARGINS

Double Stitched sides require a 1.5" margin from the unfinished trim edge to prevent live content from being turned and sewn. Quad Stitched sides require a margin of 2.5" - 3" from the unfinished trim edge. The canvas header covers 1.5" of the left hand side of the flag, so a margin of 2" from the header's unfinished trim edge is required.

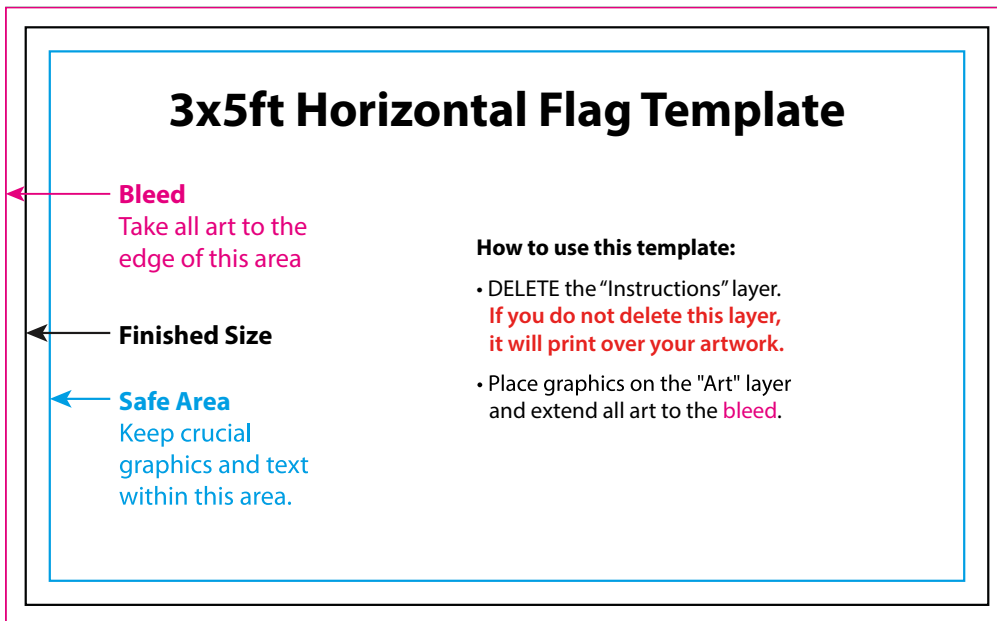

RIGID SIGNS

Our rigid sign process requires no special allowances except in cases where special frames are used for mounting. Please be sure to consult with us on rigid sign requirements BEFORE you invest a lot of time into artwork creation.

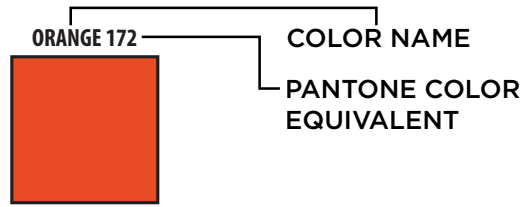

TEMPLATES

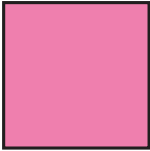

Our templates are the best way to minimize production delays. They are created to the exact dimensions of the product you are ordering and include guides to show the live area, bleed and allowances for trimming and hemming. If you do not see the template you are looking for call us and we will happily provide you what you need. If you need further clarification, please contact us.
