Connectivity

Connect without complexity and create productive workspaces

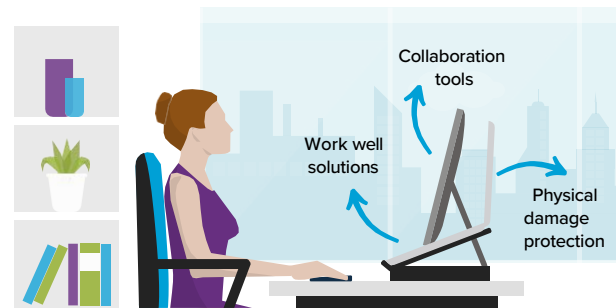

Work well anywhere

Flexible Workers

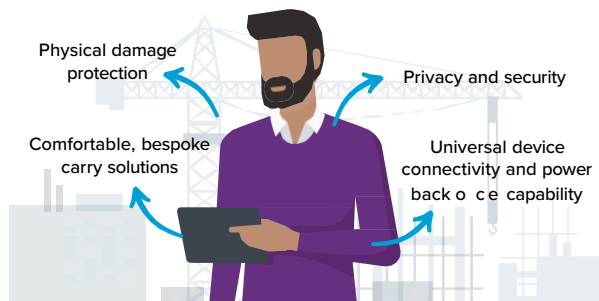

Those going to the office for only a few hours or days a week, most companies are adopting a hot-desking approach.

Home Workers

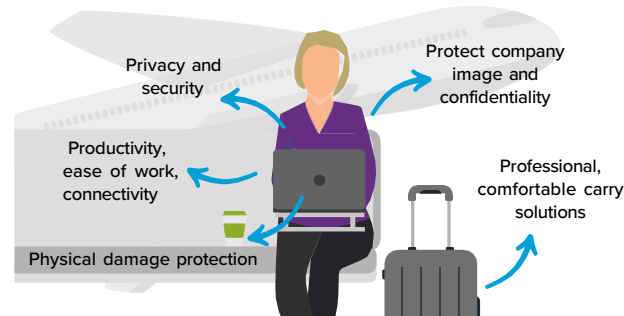

Facilitate remote work and deliver comfort, productivity and colleague collaboration as standard.

Non-deskbound

Technology is increasingly demanded in sectors such as emergency first-response, retail, manufacturing and construction.

Frequent Travellers

Staying comfortable, productive and professional whilst on the move is critical for the individual and reflects positively for the client.

SETTING UP YOUR WORKSPACE

Look **STRAIGHT AHEAD**: have your monitor at eye level or just below and an arm's length away. If using multiple monitors, angle them inwards to reduce neck rotation.

Give your **EYES** a break. Every 20 minutes, look 20 feet away for 20 seconds. 20-20-20.

ELBOWS and **FOREARMS** level with the desk surface, with shoulders down and relaxed. Adjust chair height or prop yourself up with additional cushions.

FEET planted on the floor. A footrest is ideal; alternatively, use a box.

Keyboard and mouse positioned close to the edge of the desk to avoid unnecessary stretching. Don't shrug **SHOULDERS** when typing and mousing; lower the work surface or adjust your chair height to avoid this.

Sit **BACK** taking full backrest support. Adjustable chairs are ideal. For more lumbar support, place a cushion or rolled up towel behind you.

Keep **THIGHS** parallel to the floor, knees slightly lower than the hips.

Regular **MOVEMENT** is key. Get up from your chair 2-3 times an hour for 30-60 seconds or 5-10 minutes every hour. Add dynamic stretches to daily routines as well as walking.

A New Standard in Clean

Work well anywhere with accessories featuring integrated **DefenseGuard™ antimicrobial protection** for a cleaner workspace. Proven to protect bags, cases, keyboards and mice against germs, it won't wear off or wash off and will remain effective for the lifetime of the product.

Independent laboratory testing to standards including JIS Z 2801 and ISO 22196:2011 demonstrated a **99.9% reduction** of Staphylococcus Aureus (Staph Infection) and Escherichia Coli (E. coli).

BPR and EPA compliant, silver antimicrobial agents have been infused into Targus DefenseGuard™ products to provide all-round protection, continuously neutralising bacterial threats to provide a durable, cleaner surface.

*Antimicrobial product protection is limited to the case or device itself.

Empower Security Anywhere

Privacy filters and security locks

Prevention is the best policy

Workforces are becoming hybrid, with workers at home, at the office and on the move. Employee expectations and behaviors are changing, and businesses must prepare themselves to protect their security and privacy.

Stay compliant

With the introduction of General Data Protection Regulation (GDPR) in the EU, workers must act responsibly when dealing with data protection and privacy. Whether you are responsible for data protection and privacy, Targus locks and privacy screens are very effective against visual hacking and device theft.

DID YOU KNOW?

A laptop computer has a **1-in-10 chance of being stolen*** and **98%** of stolen laptops are never recovered**.

Whether you are working, gaming or web-surfing on your laptop, don't forget locks are the simplest form of theft prevention.

95%

of respondents from a recent survey say **working privately is important to them*****.

Lock Solutions

Find the right security solution for you:

Universal locks

- Dynamic and interchangeable head mechanisms
- Keep it simple for your people to secure a wide variety of IT equipment

Key or Combination Locks

- No codes to recall and IT has ultimate control with a physical master key
- Combination Locks have no physical keys and unlock code can be easily stored digitally so it is never lost

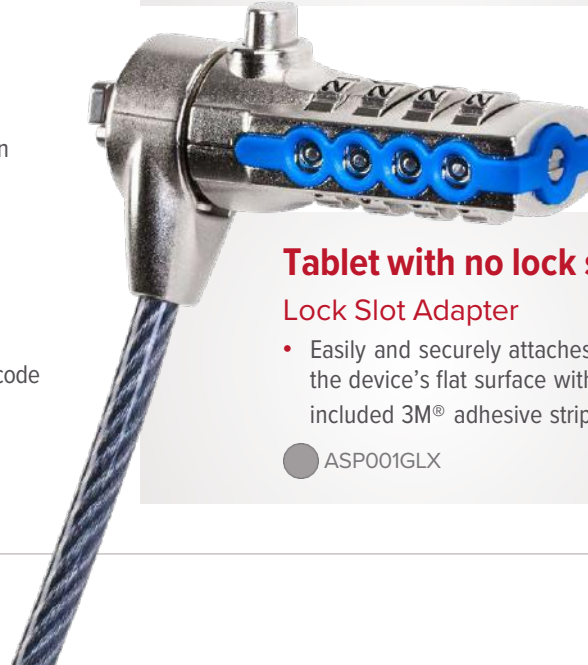

Serialised locks

- Supplied with a unique serial number and 4-digit combination code
- Unlock the Targus DEFCON Cloud portal, where IT can easily recall lost or forgotten codes

Targus DEFCON Cloud Portal

Each lock with its unique serial number and combination code can be registered to the Portal, offering simple, controlled access to combination codes. Combinations can be retrieved from anywhere in the world: perfect for the modern, dispersed business.

● ASP001GLX

The Ultimate Universal Lock

Introducing the DEFCON® ASP9 Series

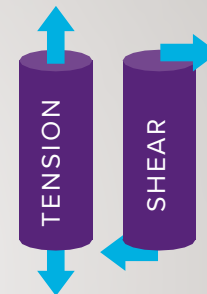

The **DEFCON® ASP9 Series** removes the need to have different lock heads. The unique Targus patented design allows the user to simply adapt the lock to the right size to fit the device slot at a twist of a dial, offering truly universal compatibility.

The ASP9 series is available in keyed or serialised combination, fitting the needs of personal, SMB or enterprise users.

Engineered for peace of mind

Targus cable locks are all **tested to destruction** and can withstand at least 90Kg of direct pull force and 162Kg of shear force.

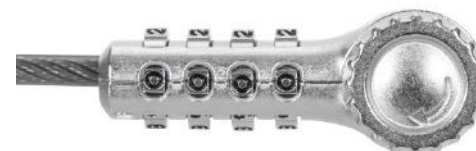

The ASP9 Series Adaptive Lock Head

Simply insert the jaws into the device lock slot and rotate the dial opening up the jaws until the adaptive lock head is engaged.

DEFCON® Ultimate Universal Combination Cable Lock

- Unique, world's first adaptable lock head transform the lock to fit the lock slot at a twist of a dial, eliminates the need for interchangeable heads
- 360° rotating head for easy and versatile fitting
- Pre-set 4 wheel combination lock with a potential 10,000 possible settings to deter theft
- Tough, cut-proof 2m (6.5ft) galvanised steel cable

ASP96RGLX

Need to lock more than 1 device?

Our ASP9XD series ultimate universal locks tethers provide an elegant solution that allows you to add as many lock heads to an existing cable lock as you need to.

Universal Lock Combination

The world's first universal locking solution

In response to changing lock slot sizes, every **DEFCON® 3-in-1 Keyed Cable Lock** comes with 3 interchangeable lock heads. Simply select the compatible head for your device's lock slot.

- Easily attaches to any laptop equipped with any security lock slot
- This lock ships with 3 interchangeable heads – to fit legacy (T-Lock), Compact (Nano) and wedge shaped lock slots
- Supplied with 2 identical keys giving you the peace of mind of a back-up key

- No compromise: once locked, the jaws secure the hardware while metal cams secure the jaws into the lock
- Tough, cut-proof 2m (6.5ft) galvanised steel cable

RFID BLOCKING TECHNOLOGY

Did you know RFID chips enable touch-payment on your credit cards, personal info to be scanned from your passport and quick-swiping for train travel? EVEN your dog's microchip is RFID!

RFID chips have tiny electromagnetic fields that make them possible to read. All you need is proximity. If a malicious person stood next you on the train, for example, they could 'scan' your backpack and in theory grab sensitive information that enables them to use your cards or identity without your consent. RFID Blocking Technology prevents this from happening.

Unleash the Power of Mobile Devices

SAMSUNG DeX

Targus[®]

Creating great experiences

In our personal and professional lives, we have high expectations of technology – speed, accuracy, personalisation and security.

Technology needs to enhance the experience of both the user and the customer.

Samsung DeX is a platform that turns your Galaxy phone or tablet into a desktop computer. With DeX, you can multitask and use apps like Microsoft Office and Adobe Cloud, all from your mobile device.

Rethinking traditions

People are increasingly working across multiple sites or in multiple workspaces.

With more mobile choice than ever, laptops are not always suitable for workers on the move such as those in the emergency services, construction sites, where desk space is in short supply.

What's the alternative?

Ensuring a seamless experience for workers is paramount. A tablet, or even a phone, can be a single, powerful work tool:

- Seamless connection from field to office.
- Simplify workflows and increase productivity.
- Easily integrate into existing workspaces.

Protect your people

Make it easier for staff to carry and use devices.

- Double hand straps reduce strain and meets on-the-ground safety standards.
- Comfortable to wear and ensures device is protected from drops and damage.
- Enable staff to work securely with physical privacy and security solutions.

Double hand straps reduce strain

Hold the tablet comfortably in one hand, controlling movement with the thumb and reduce strain on the arm

Comfortable to wear

By removing the need for a shoulder strap the holster helps avoid strain on the neck and shoulders

Adjustable Belt

Holster waist belt is adjustable to ensure a comfortable fit for all employees

Protect your tech

Shock-absorbing cases with reinforced edge protection, meeting advanced military grade standards.

- Adjustable hand strap for safe drop free handheld use PLUS integrated kickstand for hands free viewing.
- Designed for docking with the Targus Tablet Cradle Workstation.

- Choose to upgrade to locking base for fixed desk location and clean desk environment, and to eliminate need for Targus cable lock.

Accessories

- Help to create harmonious workspaces.
- Tech-accessories with infused antimicrobial protection, delivering a new standard in clean.
- Support tech on-the-go with accessories that deliver comfort and productivity.

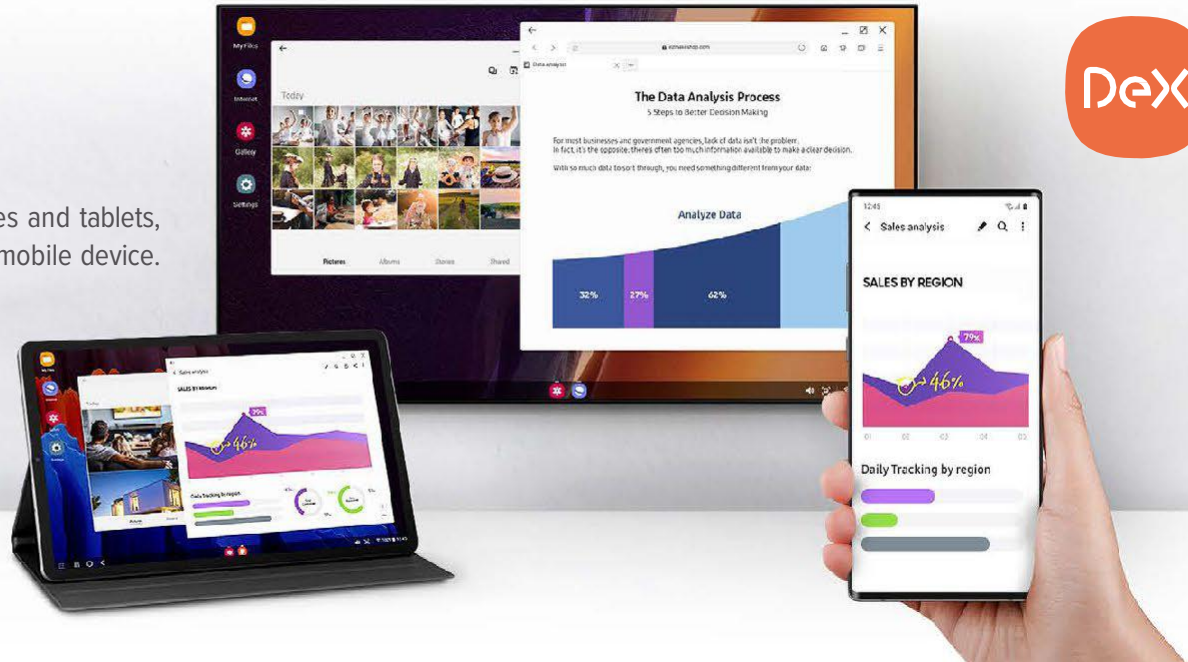

The mobile revolution is here!

Your smartphone and tablet are more capable than you know.

Samsung DeX is a platform built into the latest Samsung phones and tablets, allowing you to power a desktop-like experience through your mobile device. It's pushing the boundaries of your smartphone and tablet.

- Maximise flexibility
- Access to business apps, anywhere
- Increased productivity
