WE MILK COWS in our own 250 cow herd...just like you! 7 years ago we started Blondin Sires because it was getting very difficult to find the kind of bulls we like. Bulls with full pedigrees...including classified and milk recorded dams...and top genomics. Today, we are seeing our first bulls graduate to daughter proven with exceptional results. So far, we have had three #1 Conformation bulls in the Canadian system *MASTER*, *LEGEND* and *LIMITED P*. Our most recent #1 is *Hyden LIMITED P*, and he is a full two points higher than the next bull. We purchased these bulls specifically for their Conformation and Type profiles and they have delivered! In addition to the best in Type, we've added more total package bulls who combine both Production and Conformation, like *AVENGER*. Moving forward, you will see more bulls in our program offering different specialties...but still holding true to the Blondin brand. In this catalog you will find a section of US-focused bulls. Although our primary proving system has been the CDN system, breeders have been asking for bulls that meet our high standards but are using the US-based system. You spoke, so we listened and are proud to add these bulls to our lineup this spring.

We truly appreciate all the support for what we are doing at Blondin Sires.

From one breeder to another...*Thank You!*
