## Natural antioxidants added

Curcumin, Vitamin E and Selenium

Curcumin is a potent antioxidant when used with vitamin E and selenium, this combination promotes the reduction of free radicals, increasing your dog's lifespan.

## Chondroitin & Glucosamine

Protected and healthy joints

Chondroitin and glucosamine are chondroprotectors that can delay and reduce cartilage degradation, in addition to helping maintain healthy and well hydrated joints.

## Low glycemic index ingredients

Regulation of glucose levels, more satiety

Made with a low glycemic index carbohydrate source, which regulates glucose levels in the bloodstream, as well as promoting more satiety over time.

## Proteins of high biological value

Maintenance of muscle structure

Selection of proteins with an excellent profile of amino acids, providing better use and helping to maintain muscle structure.

## Healthy gut, less odor and firmer stools

With added prebiotics, fibers, Yucca extract and zeolite

Enriched with prebiotics and fibers that promote intestinal health for better nutrient absorption. Also, the synergy of Yucca extract and zeolite improves fecal odor and consistency.

## Omega 3 & 6 and DHA

Healthy skin, a shiny coat and a strong immune system

Fatty acids, such as DHA, improve the skin's health and increase the coat's shine, in addition to contributing to the body's natural defenses and cognitive development throughout the dog's life.
