Cactusmania by Manera

Cactusmania by Manera is a family nursery based in Ventimiglia, Italy, that has been passionately cultivating a wide assortment of cacti and succulents for years, devoting great attention to rare plants and collectable species of succulents. The sophisticated plant compositions in both shape and colour enrich the wide range of decorative plants. They present many specimens in large, designed pots for exotic gardens and modern terraces.

A low-angle photograph looking up at a greenhouse structure. The greenhouse has a white frame and glass panels, with some reflections visible. In the foreground, a large, dark green leafy plant, possibly a citrus tree, dominates the right side of the frame. The sky is a clear, bright blue. The text 'lo lù 25' is overlaid in the center in a yellow, serif font.

A vibrant and dense arrangement of various cacti and succulents in pots. The collection includes several tall, columnar cacti with distinct vertical ridges and small, dark areoles. Some of these cacti have small, light-colored flowers. In the foreground, there are succulents with thick, fleshy leaves, including a prominent one with deep purple leaves. A central, tall cactus is covered in long, white, feathery spines. The plants are set against a light-colored wall, and the overall scene is a lush display of desert flora.
