## ABOUT

Shanthi Metal Industries is professionally managed by highly experienced entrepreneurs, having decades of experience in the similar sphere of business.

Our Quality is trusted by many leading Corporate Pan India. We have a manufacturing unit in Bangalore , involved in the production and fabrication of wide range of product in Stainless Steel , Mild Steel , Acrylic , ABS Plastic, Wood etc. under the brand "MELANGE". with customization according to the customers need being our forte.

The ongoing global pandemic has taken the world by storm and Post-Covid organizations across the country and globe will have to adapt new hygiene protocols. Practices like medical checkups for all team members, usage of sanitizers at all levels, usage of PPE, along with practicing social distancing will be now an integral part of day to day operations.

Our new range of products offers complete range of hygiene products which is the need of the hour with focus on quality, exemplary service and trust as these values are more critical than ever. We are committed to providing you with a safe environment that aligns with the redefining of safety and cleaning standards.

## Sanitizer Dispenser (Automatic)

**HE10-001**

Power Supply  
110V / 220V - 240V - 50 / 60Hz

Power  
25W

Environmental Humidity  
≤80%

Ambient Temperature  
5-40°C

Storage Conditions  
Room Temperature, Clean Room

Spray Volume  
0.6 - 10ml/s

Controlled volume dispensing  
everytime

Tank Capacity  
1800ml

Sensing Distance  
10 ± 3cm

Single working time limit  
≤ 5 Seconds

Installation mode  
Wall Mounted

Boundary Dimensions  
230x150x375mm

Sleek component design  
to enhance the interior

## Soap Dispenser (Automatic)

**HE10-002**

Capacity:  
1000ml

Battery type:  
DC 4\*1.5V

Drop:  
1ml

WALL  
MOUNTED

## Soap / Sanitizer Dispenser (Automatic)

**HE10-003**

Shell Material:  
**304 Stainless Steel**

Capacity:  
**700ml**

Shell Colour:  
**Polished / brushed / white / black**

Dimensions:  
**100x110x220mm**

Voltage:  
**DC9V/AABattery (6pcs)**

N.Weight:  
**1.1 Kg**

Liquid Supply:  
**0.5 / 1.0 / 1.5 / 2.0 / 2.5ml**

**WALL MOUNTED**

## SoapDispenser (Automatic)

**HE10-004**

Capacity:  
**1000 MI**

Battery Type:  
**4\*C Battery**

Dimension:  
**120 X 110 X 260 Mm**

**WALL  
MOUNTED**

## Sanitizer Dispenser (Automatic)

### HE10-005

#### Sanitizer

Any liquid sanitizer can be used in this dispensing machine. Please note that sanitizer is not provided with the machine.

#### Capacity:

The tank in the machine has capacity of 5 lites sanitizer

#### Dispensing:

Every dispensing cycle is of 5 ml, the machine can work for 1,000 hand sanitization cycles before require filling.

#### Power supply:

Standard 220 V AC supply from wall socket. Voltage fluctuation and surge protection is built in.

#### High Capacity:

5 ltr storage can, suitable for heavy traffic usages like offices, factories, hotels, malls, restaurants etc.

**Mounted**

**Touch-free Infra-red**

## ACRYLIC SNEEZE GUARD

## SIGNAGES

## ANTI MICRO BIAL FILM

Application in elevators, printers, car handles, metal frame and railing.

## UV STERILIZER CABINET

Disinfection for small cosmetic or medical instruments, to ensure customer safety and health.

---

Stainless steel tray construction inside is durable and resistant to rust.

---

The physical process has functions of oxidation, coagulation, sterilization, etc.

---

Compared to traditional high temperature sterilization, safer and more thorough.

---

Made of engineering plastics, which is temperature resistant and anti-aging.

---

Special door protection switch, protect the operator from the damage of ultraviolet light.

---

No secondary pollution, efficient and mild, safer and more thorough.

---

Using high temperature sterilization, meet medical standards, quick and comprehensive

---

## UV STERILIZER BOX

Features:

### Ultraviolet Sterilizer –

This sterilizer uses bacteria to sterilize ultraviolet rays in hard to reach-places, eliminating bacteria and up to 99.9% of bacteria.

**Large sterilized space UV sterilizer** compatible with mobile-phones up to 6.5 inches. Ideal-for iPod, MP3 player, bluetooth headset, toothbrush, watch, toys, dummy, glasses, keys, jewelry and any other small items.

### Portable sterilizer -

our sterilizers for phones have a stylish, economic and compact design, so you can take them with you wherever you are. In particular, this mobile-phone sterilizer is powered by a USB desktop charger for a laptop, and you can use a phone case to sterilize your phone, whether on the go or on the go.
