FULGOR

MILANO

Fulgor's expertly crafted appliances are inspired by a passion for contemporary style that perfectly complements the quintessential Italian zest for life. Founded in the Veneto region of Italy in 1949, the brand is now globally renowned for its durable appliances powered by modern technology for enhanced functionality that elevates any kitchen.

Highlights of Fulgor's on-trend range include the Urban Tech collection, compact enough to work in urban kitchens, which comprises a 60cm oven, 45cm combi-microwave, 45cm combi-steam oven, and a 45cm built-in coffee machine – all available in a sleek Matte Black finish. For the latest in technological innovation, Fulgor's proprietary Cluster Concept takes the guesswork out of cooking to ensure the perfect meal every time; all home chefs need to do is select a recipe from the integrated display for the oven to automatically start the most suitable cooking program in line with their needs.

Marked by a striking design aesthetic, high levels of innovation, functionality, and reliability, Fhiaba's premium products feature outstanding finishes and endless customisation options to ensure that each product works seamlessly with a wide range of interior design styles.

Beautiful objects in their own right, Fhiaba refrigeration solutions are guaranteed to add a sense of distinction and design-led good looks to any space. From fully integrated models for a streamlined look, the professional X-Pro range can either be built-in or freestanding, and the Country range, which comes in ten different finishes to suit your sense of style, each option is available in four different widths – 45 cm, 60 cm, 75 cm, and 90 cm. Constantly leveraging the latest technological advances, Fhiaba is the only company to currently offer its proprietary TirMode cooling system that allows for three distinct temperature zones in each product's fridge, drawer, and freezer sections.

A family-owned business for over 35 years, Fhiaba started producing industrial refrigeration products in the 1970s. Due to its advanced technological innovation capabilities, the brand quickly evolved to deliver a comprehensive range of high-performance professional food and wine cooling equipment tailored for different sectors. Made entirely in Italy, the brand's products are manufactured in full compliance with the most stringent European safety, hygiene, and reliability standards.

Lofra products have been designed and manufactured in Italy for more than 50 years. With a focus on combining quality, high-performance cooking functionality, and European styling, the Lofra Cooker range embodies vintage-inspired elegance.

In particular, the premium Lofra Dolcevita and Professional collections are perennially popular. Featuring unique styling with standout detailing, these built-in and freestanding ovens come in a selection of colours, options, and sizes to suit even the most demanding chef.

Founded in 1956 in the northeast of Italy by the Lovato brothers, the company started producing cauldrons made from recycled materials in the post-war period before expanding into camping and heating stoves and stainless steel gas cookers.

Since then, decades of technological evolution and innovation have led to Lofra being established as a market leader in quality freestanding and built-in gas cookers and ovens. Lofra's products are still made entirely in Italy at its headquarters and manufacturing facilities in Torreglia in the scenic province of Padua.

BYSTRO

The BYSTRO collection brings a blend of exceptional style and functionality to the heart of the home. SANIPEXGROUP's own brand of kitchen lifestyle appliances is expertly crafted in line with the latest European design trends.

Featuring premium products that deliver an enhanced experience for every occasion, BYSTRO's collection includes cookers, microwaves, refrigeration solutions, wine coolers, and more, including a built-in multifunction oven that, with a capacity of 75l, is the largest in the market.

Every BYSTRO product comes with a two-year standard warranty that can be extended up to five years. For added peace of mind, our highly trained technical team is on hand to deliver a high standard of installation and after-sales service.

A leader amongst kitchen hood manufacturers in Italy, Faber's high-quality hood designs blend exceptional style with outstanding performance and technological innovation.

Testament to the brand's enduring appeal is the fact that one out of every two range hoods in Italy is a Faber. Leading the field in automation, robotics, information technology, and quality to deliver design excellence, Faber adheres to the principle of form following function with sleek models expertly crafted to enhance the user experience while providing outstanding value.

A vision of global reach

FABER has a lot in common with air... both are present all over the world. Air has always been their chosen material. Now the world is their home. So it's only natural they would want to improve them both.

Investing in the world

Always growing, to serve more people.

Thinking long term

All-round competence: automation, robotics. IT, total quality.

Innovating continuously

Engineering research, advanced solutions, living benefits.

Designing the future

Ergonomics, design, functionality, comfort, style and wellbeing for the home.

Headquartered in Fabriano, Italy, the company has grown from a local business to a global enterprise since its launch in 1955. Faber production facilities are now located across three continents, with several plants in six countries - Italy, Sweden, France, Turkey, India, and Argentina.

LIGHTING

Inspiring Lighting for Contemporary Spaces

From fluid organic forms to industrial styling, the new lighting collection from SANIPEX GROUP comprises of a carefully curated selection of unique products that bridge the gap between art installation and interior design.

Blending aesthetic principles with technological innovation, every piece is crafted to both command attention and enhance the space in which it is placed, casting distinctive lighting effects to create a unique atmosphere and distinctive ambience indoors and out.

Representing innovative European brands, each selected for their quality, craftsmanship, and directional design approach, every product works as a stunning centrepiece across a variety of settings, from residential homes and restaurants through to hotels and retail premises.

Using the finest materials, including handblown Murano glass, textural ceramics, metal mesh, and wood, the pieces in our lighting collection are expertly made by master craftsmen in Europe with a preference given to the use of local materials, resulting in exceptional pieces that will take pride of place in any space.

KITCHEN SINKS & MIXERS

A stylish sink adds impact to the full scope of kitchen aesthetics. Minimalist inset, undermount and integrated models featuring clean lines come in subtle shades such as matt black, grey, white, cream and brown, and a chrome finish, with matching accessories. White ceramic farmhouse sinks in different shapes and sizes offer enduring style for a retro-inspired or heritage feel.

Complete the look with a choice of mixers with handy features such as swivel spouts and hand showers in different hues, from Lacquered Zanzibar, Copper and Brass to Matt Black, Chrome and Anthracite. The range includes energy-saving models to promote sustainable living and an innovative mixer with an integrated under sink filter kit for fresh drinking water on tap.

Filters suitable for Dubai, Abu Dhabi and Al Ain. For all other Emirates please contact your local sales team for information.
Filters must be changed on an Annual Basis.

For Kitchen Sink Mixer only see page 90.

Under-the-sink filters are normally favored by home users, where the filters are mounted under the sink and connected directly to the Kitchen Mixer with additional drinking water outlet (AQM-ECO-364-) giving access to fresh filtered water that is ideal for drinking, cooking, washing fruit and vegetables

Filters work by removing any contaminants that might be present in the water such as sediment particles, trihalomethanes (THM's) and also focuses on removing any metals, bacteria, chemical residues and other volatile organic compounds.

Water filters can help to reduce the risk of certain cancers by removing chlorine and chlorine byproducts from the drinking water. A solid block carbon water filter will also selectively remove contaminants from drinking water while retaining healthy mineral deposits that balance the pH of the drinking water.

FILTERS ARE TESTED AND ACCREDITED BY NSF (NATIONAL SANITATION FOUNDATION) AND ANSI (AMERICAN NATIONAL STANDARDS INSTITUTE) AND TESTED AGAINST WORLD HEALTH ORGANISATION AND MUNICIPALITY STANDARDS.

KITCHEN ESSENTIALS

by

BUGATTI®

A strong family heritage and boundless vision have enabled Casa Bugatti to grow and evolve over time, transforming all its creations into modern-day style statements with surprising shapes and finishes.

Casa Bugatti offers a comprehensive range of small domestic appliances that combine innovation, form, and function with striking, forward-thinking design. Perfect companions for your moments of relaxation and kitchen tasks, each appliance is carefully crafted from high-quality materials and built to last.

From electric kettles to juicers there is a range of options to suit your needs. Investing in Bugatti's small appliances is an easy way to add a touch of personality and elegance to your space.
