

GAIA

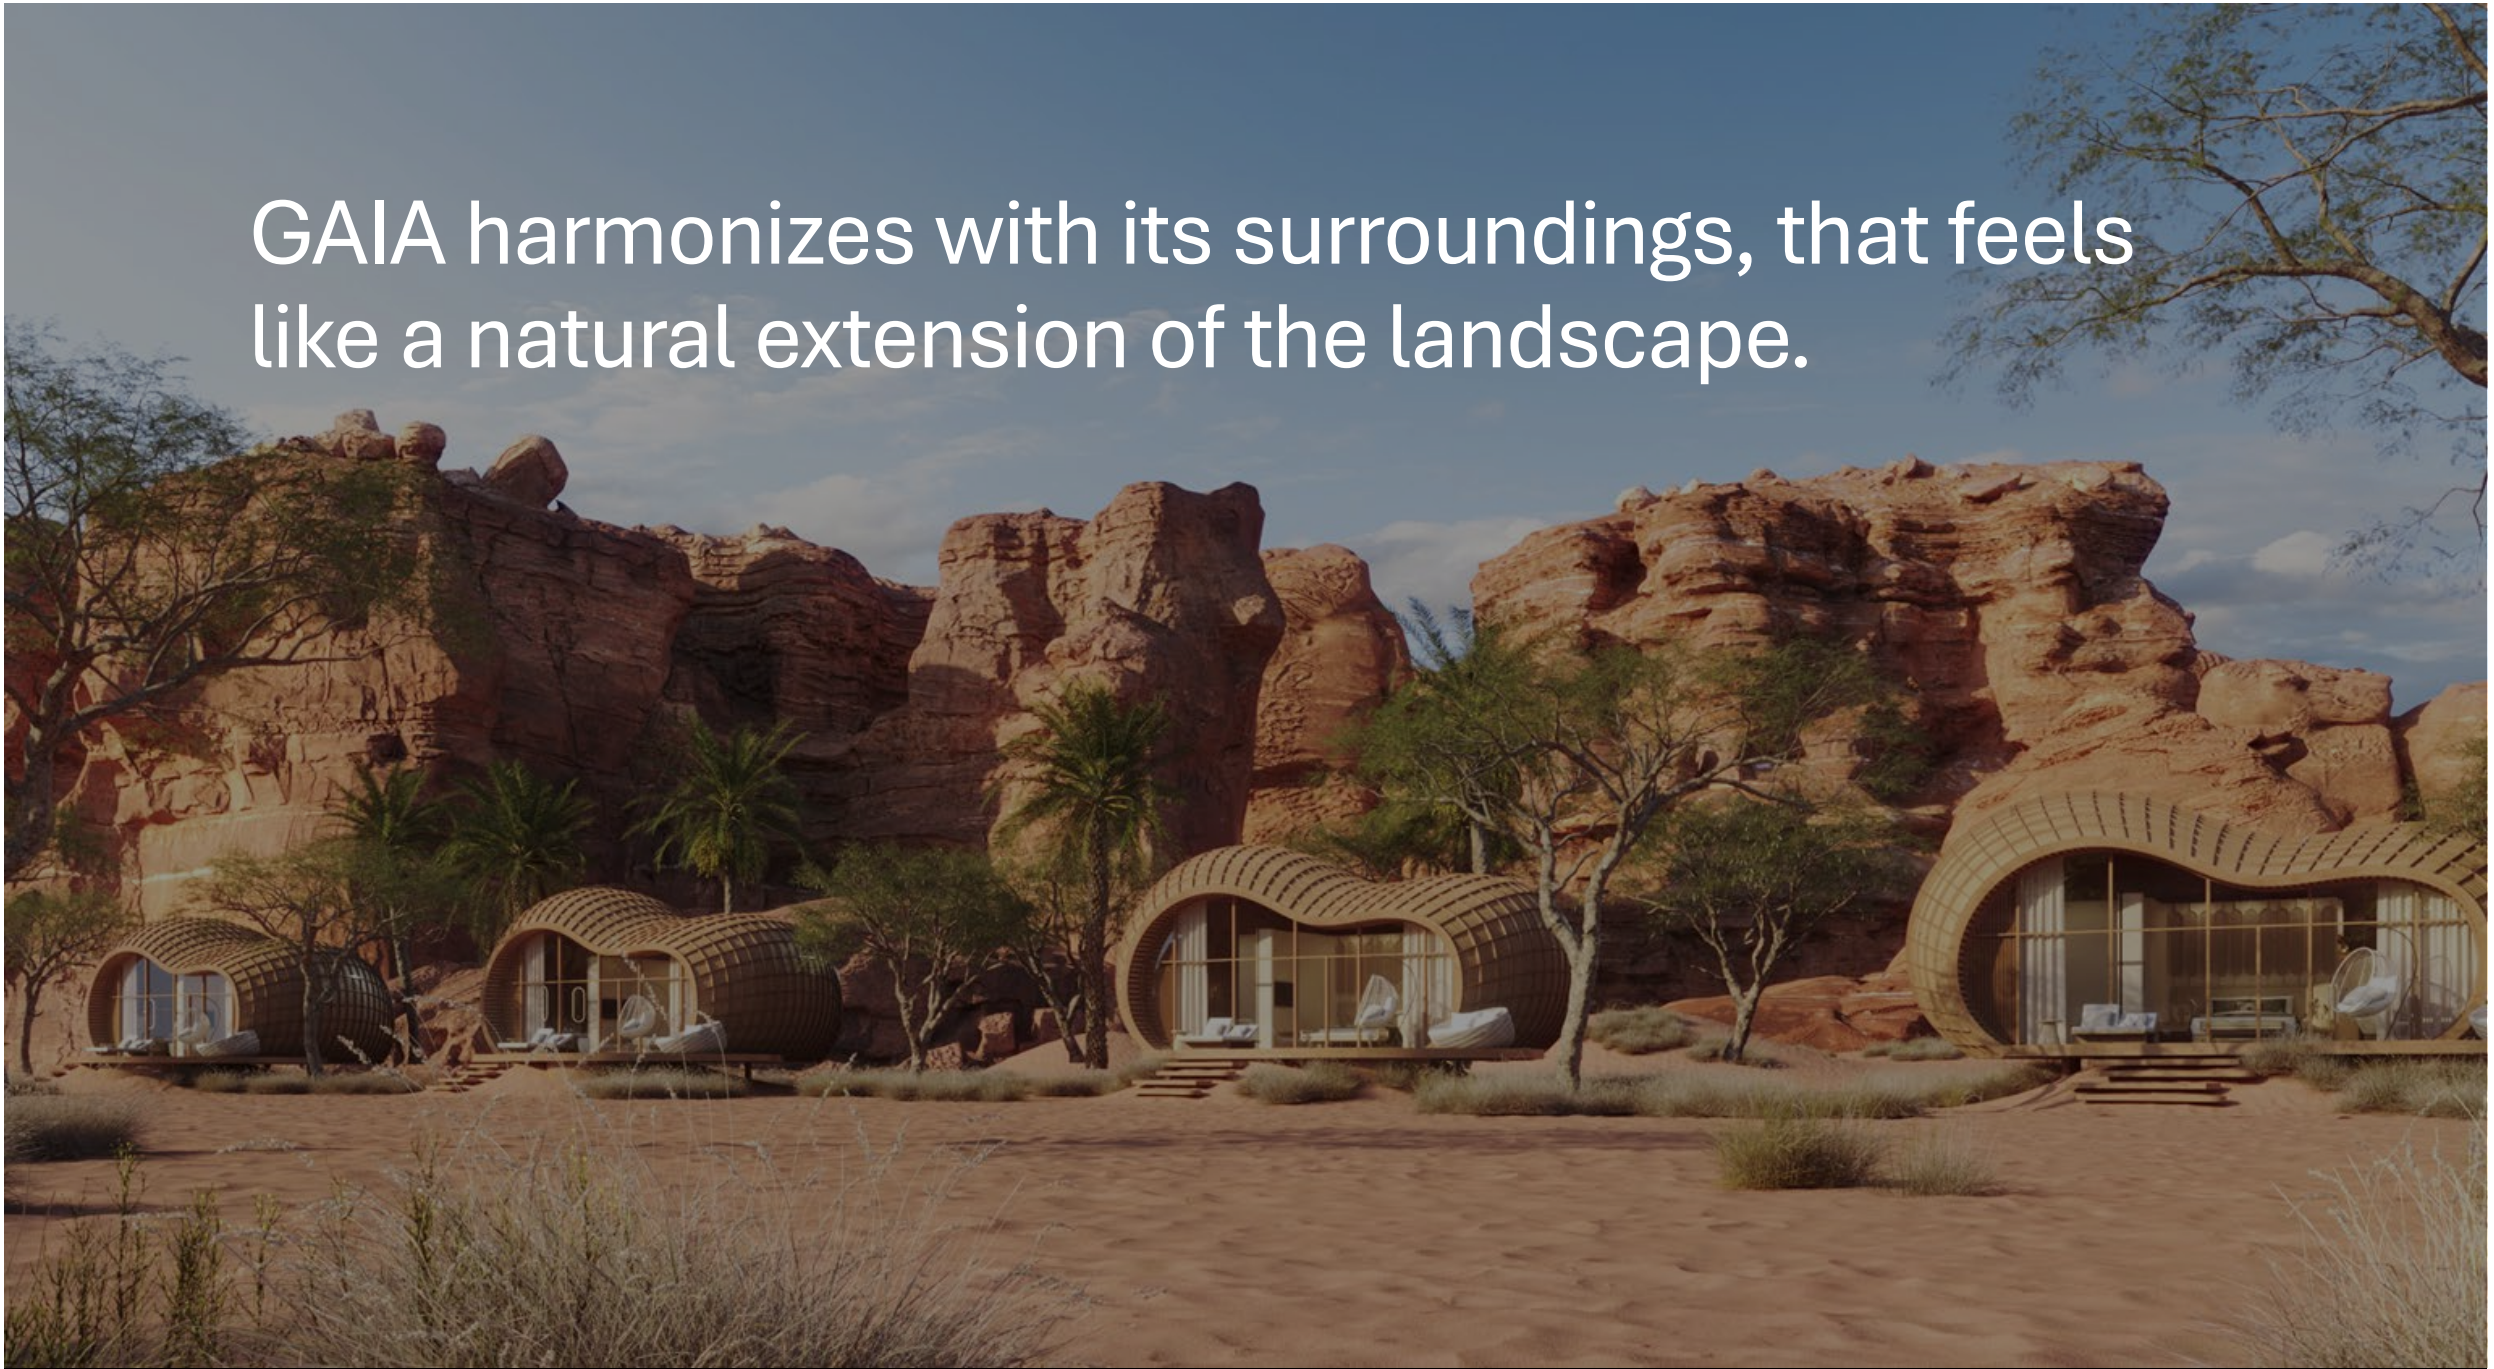

LUXURY HABITAT

HARMONY WITH NATURE

- Inspired by the ancient Greek concept of Gaia, the personification of Earth, this habitat embodies the beauty and serenity of nature.

GAIA harmonizes with its surroundings, that feels like a natural extension of the landscape.

Building with Nature, not just in nature

Gaia blends with the landscape

A modern, curved wooden cabin with large glass windows, situated on a sandy beach with palm trees in the background. The cabin has a unique, organic shape with a curved roof and walls made of light-colored wood. The interior is visible through the large glass windows, showing a comfortable living space with a sofa, a dining table, and a hanging chair. The cabin is built on a wooden platform, and a set of wooden steps leads up to it from the sandy beach. The background is filled with lush tropical vegetation, including several tall palm trees and dense green foliage. The overall scene is bright and sunny, suggesting a warm, tropical climate.

Sustainability Approach

- Play and Plug prefabrication
- Less Waste and pollution
- Less machinery
- Reducing carbon Footprint
- Reducing Logistics

Blurring the line between indoor and Outdoor

- Cream and Soft Tone
- Sense of Tranquility
