YOUR PRIVATE LABEL

- A** PET cup with lid
- B** flow pack (transparent film)
- C** block bottom pack (transparent film)

We offer private label solutions with your chosen design or company logo in various packaging. We pack various nuts, dried fruits, seeds, cereals and legumes (BIO products are also available) and individually developed mixes of these products.

Both large, international companies and small companies choose our private label solutions that want to develop original products with their company's identity.

We offer both one-time and long-term cooperation in private label production. We package and deliver to the Latvian and export market.

TYPES AND MATERIALS OF PACKAGING

We offer transparent film (BOPP/ CPP) for standard orders. Please contact our specialist about available non-standard packaging materials and types. Individual development of the sticker form, taking into account the technical capabilities of the equipment.

INDIVIDUAL PRODUCT DEVELOPMENT

In addition to the possibility of ensuring an individual visual identity to the product packaging, we offer food product mix development according to individual order. We produce mixes from a wide range of products: various nuts, seeds, dried fruits and berries, various cereals and legumes.

BRC CERTIFICATE

GEMOSS production facility is proud of the internationally recognized **British Retail Consortium (BRC) Global Standards for Food Safety** certificate, which confirms the highest quality production and use of raw materials. The prestigious BRC certificate is re-evaluated every year, ensuring the company's strict monitoring and compliance with the highest food safety and quality requirements.
