DR. CARMEN SCHWALBE MBA

DR. CARMEN SCHWALBE MBA

Presentation: BECOME YOUR LIFE'S CEO! SELF-MARKETING FOR WOMEN!

Born in a disempowering environment of emotional and financial misery, Carmen dared to challenge her status quo at the age of 16 by becoming independent from her parents in order to grow and thrive.

With nothing else than her ambition and determination Carmen learned how our minds create our reality in spite of the cards we are given by birth.

An example? Ten years ago she left Spain with an old suitcase, three TShirts and a Erasmus Fellowship for three months to get her international PhD in Nutrigenetics in Germany. And she never looked back. After having some Nobel Laureates as “neighbours” at her post-doc position at the Max Planck Institut in Göttingen, she decided to join the healthcare industry and with a “I can do this” attitude she learned German in six months and got hired right away as pharma rep.

During her MBA (Master in Business Administration) from the renowned HHL Leipzig Graduate School of Management in Germany, Boston and India she got head-hunted into executive management, graduated from a highly competitive Management Trainee Program and had two babies, which she brought into her MBA classes.

Today she speaks five languages and raises her children trilingual. Instead of jumping into top consultancy firms or leading hospitals as executive, she decided bringing herself her kids to bed every night and founded her own firm to follow her mission:

ONE MILLION PEOPLE GLOBALLY empowered to become their own life’s CEOs by 2022!

as author, key-note speaker, mentor and consultant.

In her “Become your Life’s CEO!” channels (podcast, youtube, telegram) she rapidly transforms the lives of millions of people globally who struggle with family and career by teaching them how to DARE TO RISE while having a lot of fun! Her values: Innovate. Dare. Grow.

Presentation:

LET GO AND START ENJOYING

My name is Liana and I am a 34 year old women who is mother of two and a wife.

I grew up in different countries which led to my journey of searching what "home" was and who I was. This has been a long process which I entered more determined for about 5 years ago. All my founding and with all the reading that I have done it has lead me to the place where I am today. Where I want to help others realize that life is much more than what we have been taught to believe and that life really is about perceptions, belief and really creating.

I have studied different coaching courses, read about Indians and their customs, holistic health, frequency and it's impact, quantum physics and philosophy.

I believe that everyone can re'find who they are and that it is so much easier to enjoy life in the process.
