ZUCCHETTI.
BRAND ZUCCHETTI

Since it was founded, Zucchetti has celebrated flawless design and impeccable craftsmanship. The production has always been made in Italy, handled by experienced and highly skilled staff, using only the best, scrupulously selected raw materials and technologically advanced machineries, in order to always guarantee outstanding results. Research and innovation, design culture, quality and customer service are part of Zucchetti's. Over the years we were inspired by the work of many prestigious international designers to anticipate and interpret global trends. The Zucchetti product range is wide and adaptable to many interior projects with elegance and distinction.

ZUCCHETTI.
QUALITY AND ECO-SUSTAINABILITY

Zucchetti guarantees high quality standards in relation to its products, manufacturing processes and environmental policies, pursuing a corporate strategy focused on continuous improvement.

The taps' collections are made to last and all items are rigorously and accurately tested both in-house and by external laboratories, which guarantee reliability and durability, renewing product certifications year after year. At Zucchetti that has always been a priority.

In addition to constantly updates and evolutions of production systems and plants, the professionalism of our human resources is guaranteed thanks to targeted training programs, which are aimed at protecting personal health and safety. This has led to prestigious UNI ISO 45001:2018 certification.

Today, ecological habits have become a must for anyone, company or individual, who cares about the fate of planet Earth. Aware of the ever-increasing importance of LEED certification (Leadership in Energy and Environmental Design), namely the system for assessing the sustainability of buildings, the Zucchetti Technical Department is available to support builders and contractors. We can provide advice and information to attest that the installed Zucchetti products are in accordance with the standards required by the building, to obtain this certification. The close collaboration between company, architects, engineers and installers is a consolidated practice that is part of the quality policies for the offered services.

Awareness of the value of water is in the company's DNA, which is why Zucchetti taps and shower systems are designed with the utmost attention and integrate ad hoc devices and solutions that ensure a limited flow rate at all times, in compliance with current regulations. This results in considerable savings in terms of water and energy, without any reduction in user comfort.

Moreover, the manufacturing methods are environmentally sustainable thanks to the constant monitoring, purification and recycling of the water used in the production cycle, demonstrating our respect for nature. For some time now, Zucchetti has also adhered to policies which limit the production of CO2 deriving from energy consumption.

AWARDS

Innovation has always been part of the company philosophy. The ability to propose original ideas together with the experience and industrial know-how, developed in over 90 years of history, enable us to create unique and cutting edge projects and products, awarded with the most prestigious international design awards.

These awards represent a great recognition and gratification for the passion and commitment that inspire those who are part of the Zucchetti team.

ZUCCHETTI.

THE NEW 2024 PRICE LIST

The new 2024 ZUCCHETTI | KOS USA price list is divided into several sections to help the consultation. The first part is dedicated to the ZUCCHETTI brand.

The opening section, APPROVED, gathers the collections certified according to UPC or CSA standards.

The NOT APPROVED section, on the other hand, includes the collections that are not certified, but still available and usable on the American market.

The SHOWER section follows, it lists all the items available for the shower world, offered both individually or already designed in the Shower Kits' packages.

The Zucchetti brand part closes with the ELECTRONIC FAUCETS, KITCHEN FAUCETS and MISCELLANEOUS sections.

The second part is dedicated to the KOS brand and presents the collections of design washbasins and bathtubs.

ZUCCHETTI.
2024 FINISHING

To better meet today's different lifestyle needs, Zucchetti collections are proposed in various finishes. Interior designers have a whole range of ideas to create projects in several moods and styles. Zucchetti offers:

- galvanic finishes: in addition to chrome, nickel (C8-C3), gold (C40-C41) and metal black (C50-C51), available in both polished and brushed variants.
- painted finishes: embossed matt white (W1), embossed matt black (N1), matt black (N6) and Mediterranean blue (L5).
- PVD finishes: brushed chocolate (P21), brushed British gold (P31), brushed gold (P41), brushed total black (P81) e brushed copper (P91).

[illegible]

The stainless steel Helm collection is available, in addition to the base stainless steel brushed finish (X), also in 5 other dedicated nuances: brushed gold XP41, brushed British gold XP31, brushed chocolate (XP21), brushed total black XP81 and brushed copper XP91. All steel finishes are obtained through PVD process.

All shower heads in brushed stainless steel - finish .X - can be also combined with the taps in brushed nickel finish C3.

Here below is the finishes' table with all available nuances on each collection.

Design **Matteo Thun** e **Antonio Rodriguez**

Variable elements of the range:

1. Flange
2. Finishing

1. Flange:

The range is available with embossed flange (ZSA) or with smooth flange (ZSV).

ZSA Embossed flange

ZSV Smooth flange

2. Finishing:

The range is available in chrome finishing with chrome handle (CC) or with upper handle lacquered (C-), or in nickel finishing with nickel handle (C8C8) or with upper handle lacquered (C8-).

Handle lacquered colors: replace - by the finishing here below.

W = White

N = Black

Trim only.

Technical drawing of a three-way split system. The drawing shows a central vertical riser pipe with a diameter of $\varnothing 3/4"$ and a length of $8' 1/16"$. This riser pipe is connected to three horizontal branch pipes. The distance between the centers of the branch pipes is $10' 5/8"$. The distance from the center of the riser pipe to the center of each branch pipe is $7' 7/8"$. The branch pipes have a diameter of $\varnothing 1/4"$. The riser pipe has a diameter of $\varnothing 3/4"$. The drawing also indicates a maximum height of $4' 1/8"$ for the branch pipes and a minimum height of $3"$ for the riser pipe. The drawing is labeled "NPT 1/2\"

ZUCCHETTI. GENERAL SALE CONDITIONS

Upon the confirmation of the order, all the following conditions of sale of Zucchetti Rubinetteria S.p.A. (hereinafter also as the "Company" or the "Seller") are understood to be fully accepted.

PRICES

The prices stated in the Zucchetti US price-list are in \$ (Dollar), are subject to change and not binding. The prices have to be considered ex-works factory in Gozzano, packing and VAT excluded. Orders are valid only if accepted by regular order confirmation. All Seller direct and indirect offers are not binding. Zucchetti pricelists are for enterprises and economic operators only.

PAYMENTS

All payments terms specified in the invoice are binding: any variation, which has not previously and expressly agreed in writing, will be rejected. Delayed payments of the supplies will cause the charge of the relevant bank interests to the extent provided for by the regulations in force. In the event of payments not made within the agreed terms, the Seller is entitled and has the right to hold deliveries and any order already confirmed. No payment can be differed in case of disputes. Any additions or changes made by the Customer on purchasing orders will not be valid unless communicated in writing and then accepted in writing by the Seller.

In the event that the Customer fails to pay the due amount, within the agreed terms, or it is found to be in breach of further obligations under the terms of sale and / or signed with additional writings, the Seller is entitled and has the right to resolve the business relationship with immediate effect. The Seller has the right to hold, as a penalty, the sums already paid, without prejudice to any further claims for compensation of the damages. All without any criminal burden or liability towards the Customer.

CUSTOMER IDENTIFICATION DATA

The Customer is responsible for all the identification data provided to the Seller, such as: company name, registered office, fiscal code, VAT number and any other information specifically requested by the existing law.

DELIVERY TERMS

Delivery terms are approximate. Possible delay due to production accidents, strikes, transport, pandemic events or to any others reason of Force Majeure, do not give the right to recede from the purchase contract or to claim for damages. The Seller reserves the right to fulfil an order in multiple deliveries according to availability of products.

PACKAGING

The packaging is made properly by specialized personnel.

TRANSPORT

The delivery is made at Customer's risk and peril even if the term free destination has been agreed. The Seller declines any responsibility for delays, damages, breakages, shortages during transportation. Any claim has to be presented directly by the Customer to the carrier, even if this one has been chosen by the Seller. The Seller reserves the right to charge the Customer with additional charges to the mere transportation costs previously paid to the carrier (e.g., demurrage, special unloading operations, and so on). Transport costs, unless otherwise agreed, are borne by the Customer.

RESPONSIBILITY

All Seller products are carefully tested and checked. Seller's responsibility for the quality of thematerial is limited to the acceptance of defective goods return, only after previous written agreement. The goods must be returned free to Gozzano, without any charge for packaging. It is left to the Seller's decision whether to replace them (in any case without the bond to pay any allowance).

Seller assumes no responsibilities for wrong handling of the supplied articles. Any claim for compensation of direct or indirect damages caused by the setting of defective material is excluded. Any further working on goods of the Seller is absolutely prohibited. The Seller will accept return of goods only after its previous authorization.

GENERAL PROVISIONS

The Seller reserves the right, at any time, to modify the technical characteristics of the products, as well as to modify or discontinue models. The images and descriptions contained in this price list or in the catalogues represent individual articles and do not constitute an undertaking of faithful execution. The details, measurements and weights indicated must be considered as indicative and may be modified without notice.

CLAIMS

Claims will be accepted only within 8 (eight) days from receipt of goods for the Italian market and within 2 (two) days from receipt of goods for foreign markets: no claims will be accepted after these terms.

The claim must be sent to the Seller by written notice, detailing: the defects found, the number of defective parts detected, the verification methods implemented, the delivery references (e.g., ddt and label details attached to the box) and any other useful elements (e.g., photographs) to allow the Seller to track the product, the related records of the claim and, if the case may be, implement the first immediate corrective actions.

Any request for return or rework / selection at the Customer place will be authorized only after appropriate evaluations.

Under no circumstances the Customer can suspend the payment of the product object of the claim. The Customer cannot perform any work, repair or intervention on the product unless previously agreed in writing by the Seller.

JURISDICTION

In case of dispute, competent courts will be Borgomanero and Novara.

For anything not explicitly stated, the rules of law in force apply.

ZUCCHETTI. WARRANTY

All Zucchetti products are subject to functional tests during each step of the production process to provide the most accurate quality performances.

All items are guaranteed in accordance with the applicable laws concerning warranty. This warranty applies to Zucchetti products sold in North America by AUTHORISED DEALERS ONLY, for purchased attested by official receipt.

The warranty covers the following cases:

- 1** Casting, porosity and surface finishes defects
- 2** Manufacturing defects recognized by our technical department.

The guarantee does not apply and becomes void in the event of:

- 1** Deterioration of surface finishes (chrome plated or different) due to use of cleaning agents containing acids or abrasive substances.
- 2** Deterioration of surface finishes due (chrome plated or different) to limescale deposits.
- 3** Installation or use of the products in an inappropriate manner or that does not comply with the conditions of use specified on the documents found inside the product packaging.
- 4** Repairs and maintenance carried out by not authorized by the company personnel or with non-original spare parts, purchased from unauthorized sources.
- 5** Atmospheric phenomena.
- 6** Overvoltages on the electrical power system.

The warranty can only be applied upon providing the company with photos and/or samples of the defective products.

The claim must be received via written notice containing: the details of the defects found, the number of defective pieces detected, the verification methods implemented, the delivery references (delivery note and details of the labels on the box) and any useful element (photographs) to allow to trace the product and related registrations that are the subject of the dispute and possibly implement the first immediate corrective actions.

Zucchetti warranty cannot be renewed.

For more detailed information please refer to M-UFC009 document available at the following link:
<https://www.zucchettikos.it/zucchetti-customer-warranty>

ZUCCHETTI. PRODUCT CARE AND MAINTENANCE

To keep the products in perfect conditions for a long time and avoid limescale deposits, it is important to carry out a periodic and thorough cleaning, according to the indicated methods.

The products' surfaces must be cleaned with mild neutral detergents or with soap and water. Zucchetti alternatively recommends to use the Zetabril product (code R99993). Always carefully rinse the surfaces to completely eliminate residues of the cleaning product and dry completely with a soft cloth to prevent limescale deposits.

It is important never to use cleaners that contain hydrochloric, hydrofluoric, phosphoric, formic, acetic acid, or bleach or ammonia. In case of using potentially harmful products, rinse immediately with abundant water.

Never spray detergents directly on the products but spray into a soft cloth.

Do not use steam cleaners, because high temperatures can damage the products.

Do not use sponges or brushes with an abrasive effect that would irreparably damage the surfaces.

It is recommended to avoid leaving residues of cosmetic or hygiene products such as creams, soaps, lotions, toothpastes, etc. on the surfaces for a long time.

PRODUCTS IN PAINTED FINISH

On painted surfaces, use only water, if necessary with the addition of neutral detergents (pH 6,5 – 7,5) and characterized by light additives. Never use solvents or abrasive cloths.

PRODUCTS IN PVD FINISH

For surfaces in PVD finish, always use a cloth soaked in mild, diluted detergent, with neutral pH (6,5 – 7,5). Never spray the product directly on the surface as the spray could leave halos. Do not use detergents containing hydrochloric acid, formic acid or acetic acid, do not use detergents containing acid or abrasives components.

PRODUCTS IN STAINLESS STEEL

To clean all stainless steel faucets, it is recommended to use specific products for the care of stainless steel.

Commercial detergents with neutral pH (6,5-7,5) can be used and, if necessary, only on the steel parts, to use diluted isopropyl alcohol or sodium carbonate.

Do not use in particular detergents based on chloric, hydrofluoric, phosphoric and muriatic acids.

SHOWER HEADS

For a proper shower heads functioning over time and to avoid limescale accumulation, it is recommended regular cleaning of the anti-limescale nozzles, rubbing them gently with a soft cloth to help to detach the deposits.

AERATORS

In order to always have a good water jet it is recommended the periodic cleaning of the filters of the aerators, dipping them (after having removed them from the faucets) in a solution of diluted vinegar or using the product Zetabril (code R99993).

Some finishes (C8, C3, C50, C51, C40, C41) may vary or change their tone over time. These finishes are subject to oxidation and change according to the environment in which the product is installed, to the use and to the water properties. This means that each product can take on a unique appearance over time.
