Success in your business hinges on several crucial factors. We have a diverse customer base, ranging from individuals who have recently joined but have yet to place an order, to those who joined and are now placing daily orders. At our company, we equip you with the essential tools to unlock access to our extensive inventory. Additionally, we offer a convenient fulfillment center for your Dropshipping needs. Rest assured, our products are of exceptional quality, ensuring customer satisfaction. Your primary focus will revolve around marketing strategies and attracting visitors to your website. With the comprehensive set of tools we provide, you can confidently establish and run a thriving online store.

HOW MUCH MONEY DO I NEED TO START:

Unfortunately, we can't offer a specific budget recommendation as it varies for each person, depending on their website's marketing strategy, which often accounts for the primary expense. Some utilize free advertising platforms like social media, while others invest in paid options such as Facebook or social media ads. However, if I were to advise, I'd recommend allocating at least a few hundred dollars per month specifically for advertising initially. Then, you can adjust as your business expands.

COMMISION/PERCENTAGE EARNED:

We do not charge a percentage or give out a commission. Your profit comes from the difference of the item cost, and how much you resell it for. The original cost is displayed on www.ccwholesaleclothing.com. It is ultimately up to you to decide how much you want to resell each item for.

HOW MUCH CAN I SELL THE ITEMS FOR?

You have total control over the retail price of the items you want to sell. Normally we recommend reselling our items at double the cost, or anything close to that. You don't want to price the items too high or too low. Doubling the cost will give you profit margins of around 50% example. if you sell \$1000/month your profit before expenses will be \$500
