Welcome

A MESSAGE FROM THE Executive Director

Leading the helm at the Medina County Convention and Visitors Bureau was a thought I put out into the Universe over a decade ago. While working at the Medina County Economic Development Corporation, I learned the value of tourism and its impact on Medina County. After countless hours spent helping to bring businesses to our county, I started to really gravitate towards projects surrounding attraction and restaurant businesses, never realizing that in a few short years, my career would be central to the promotion of these amazing businesses! Living in the County for two decades has afforded me the experience of taking full advantage of the amenities that make Medina County home. My experiences, family favorites and treasured memories could all be anyone's experience if they take the time to *"Picture themselves in Medina County."*

Jodi Robbins

In the early 1960s, the Tri-County (Summit, Medina and Portage) Regional Planning Commission predicted that the Brunswick, Hinckley and Liverpool area of Medina County would grow so fast and large that only the City of Akron would be larger in population. Predicting a total population of 117,500 for northern Medina County, Brunswick City would be exceeded by Brunswick Hills and Hinckley Townships. It didn't happen that way.

Anticipating the influence of nearby Cuyahoga County, planners didn't realize that the communities would decide

to grow in a way that maintained a balance of nature, farms, commerce, industry and homesteads. Sixty years later, Brunswick, Hinckley and Liverpool boasts the vibrancy of choices for suburban living, rural atmosphere, thriving industrial parks, celebrated agritourism, family farms and proximity to some of the largest public parks in Medina County.

A Famous Farm with Historical Roots is a Destination for the Whole Family

WHAT WAS YOUR VISION FOR MAPLESIDE?

Mapleside has been a family farm for over 200 years. In the early 1800s, the Tillotson family built Brunswick's first house on the property and it was a rustic log cabin made from trees they cut down on the surrounding land. Our vision continues to be to preserve the authenticity of one of the most incredible and historic places in Ohio. When we purchased the farm in 2010, we sensed the world was shifting toward family experiences over consumption of things. People wanted authenticity. They wanted to experience life with the people they love and spend time doing things to create memories. In 2011, Mapleside was voted America's Most Beautiful Farm and we have spent every year since finding new ways to share it with residents and visitors alike. One of our most loved traditions is live music under the stars for our summer concert series. This event brings in hundreds of families on Friday nights to experience high quality music set to the backdrop of a 50 mile view, which is one of the most amazing views in Northeast Ohio. During the late summer and fall months, we have festivals that bring families back season after season. During the winter, we have concerts in our barn

and help families to ward off the winter blues with more great music and opportunities to gather with friends. Mapleside hosts weddings in the orchards that are true storybook moments. This season we will open a new picturesque winery that will give people one more reason to slow down and stay at the farm for a while longer.

WHY DID YOU CHOOSE THIS LOCATION?

We didn't choose this location, it chose us. We grew up in Brunswick and our families have been coming to this farm since we were little kids. The opportunity to be creative and bring new things to life and offer new family traditions, while preserving what makes this place special has been a dream come true. Being located in northern Medina County gives our visitors easy access to not only travel here, but stay in beautiful hotels and utilize the amenities in our surrounding area.

HOW DO YOU WANT PEOPLE TO FEEL WHEN THEY'RE AT MAPLESIDE?

We desire for people to feel connected. Connected to the earth. Connected to nature. Connected to each other. In a world that pulls us in a thousand directions, Mapleside

is a place where families slow down and remember what matters. Whether you're at Mapleside for a concert, wedding or festival, the buzz of connectedness that you feel spreads in all of those enjoying their time here.

Seeing children have fun with their families and experiencing firsts of riding a giant 311 foot slide or laughing while they bounce super high on the jumping pillows brings smiles and engagement. Family themed weekends encourage imagination and whimsy for events like Pirates and Princess weekend or getting lost in the story that leads you through a corn maze built for little ones. It's an honor to create opportunities to make everyone feel like a kid again.

One of our most notorious festivals happens multiple

weekends during fall. Families can visit our Pumpkin village to pick apples, take photos in front of the giant pumpkin wall, ride the cow and pig train and even choose their own pumpkin. Watching the billy goats frolic and play while sipping on cider is enough to make anyone smile. We also host events for adults only like Vino the Way which offers a chance for people to meander into special spots set up in the cornmazes to find drink stations with wines and beer to sample while they walk.

If you love to have fun with your family and friends, experiencing Mapleside in the fall is a must. You feel the history in the land, the seasons in the air, and the presence of the people beside you.

WHAT IS YOUR FAVORITE THING ABOUT MAPLESIDE BEING IN MEDINA COUNTY?

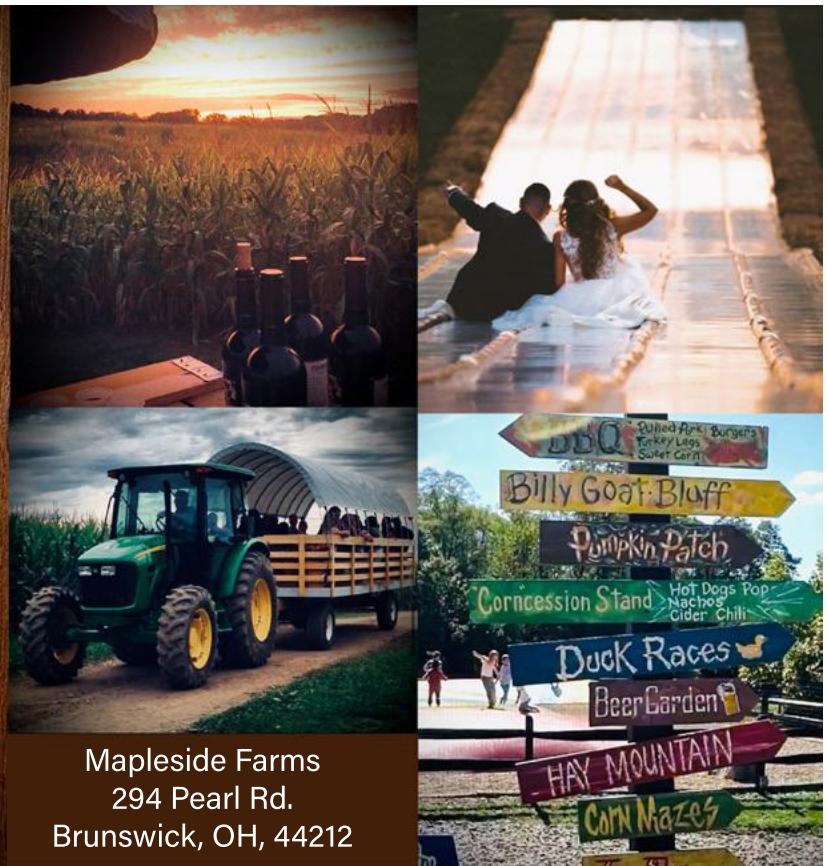

Medina County is the perfect place to live and raise a family. It serves as home for so many and because of that, we feel passionate about keeping that spirit of family alive. This region draws people from all over Northeast Ohio and beyond because it feels a little slower here. A little more authentic. That's exactly the kind of place Mapleside belongs—and the kind of place worth building traditions around.

Set among rolling hills and panoramic views, Mapleside Farms is a place where every season brings something worth celebrating.

From once-in-a-lifetime moments to simple days spent together, the farm blends natural beauty, entertainment, and tradition into experiences that linger long after you leave.

Whether you're gathering, celebrating, or simply taking it all in, Mapleside is where memories are made – year after year.

CELEBRATING America 250

Founded in 1818 as the county seat, Medina was designed as a New England-style town around a central village green. After two disastrous fires in the 1800s, Medina was rebuilt in the classic Victorian architectural style that gives our city its charming character today.

As we honor our nation's 250th birthday, we invite you to our all-American hometown to enjoy the many events and celebrations that will take place.

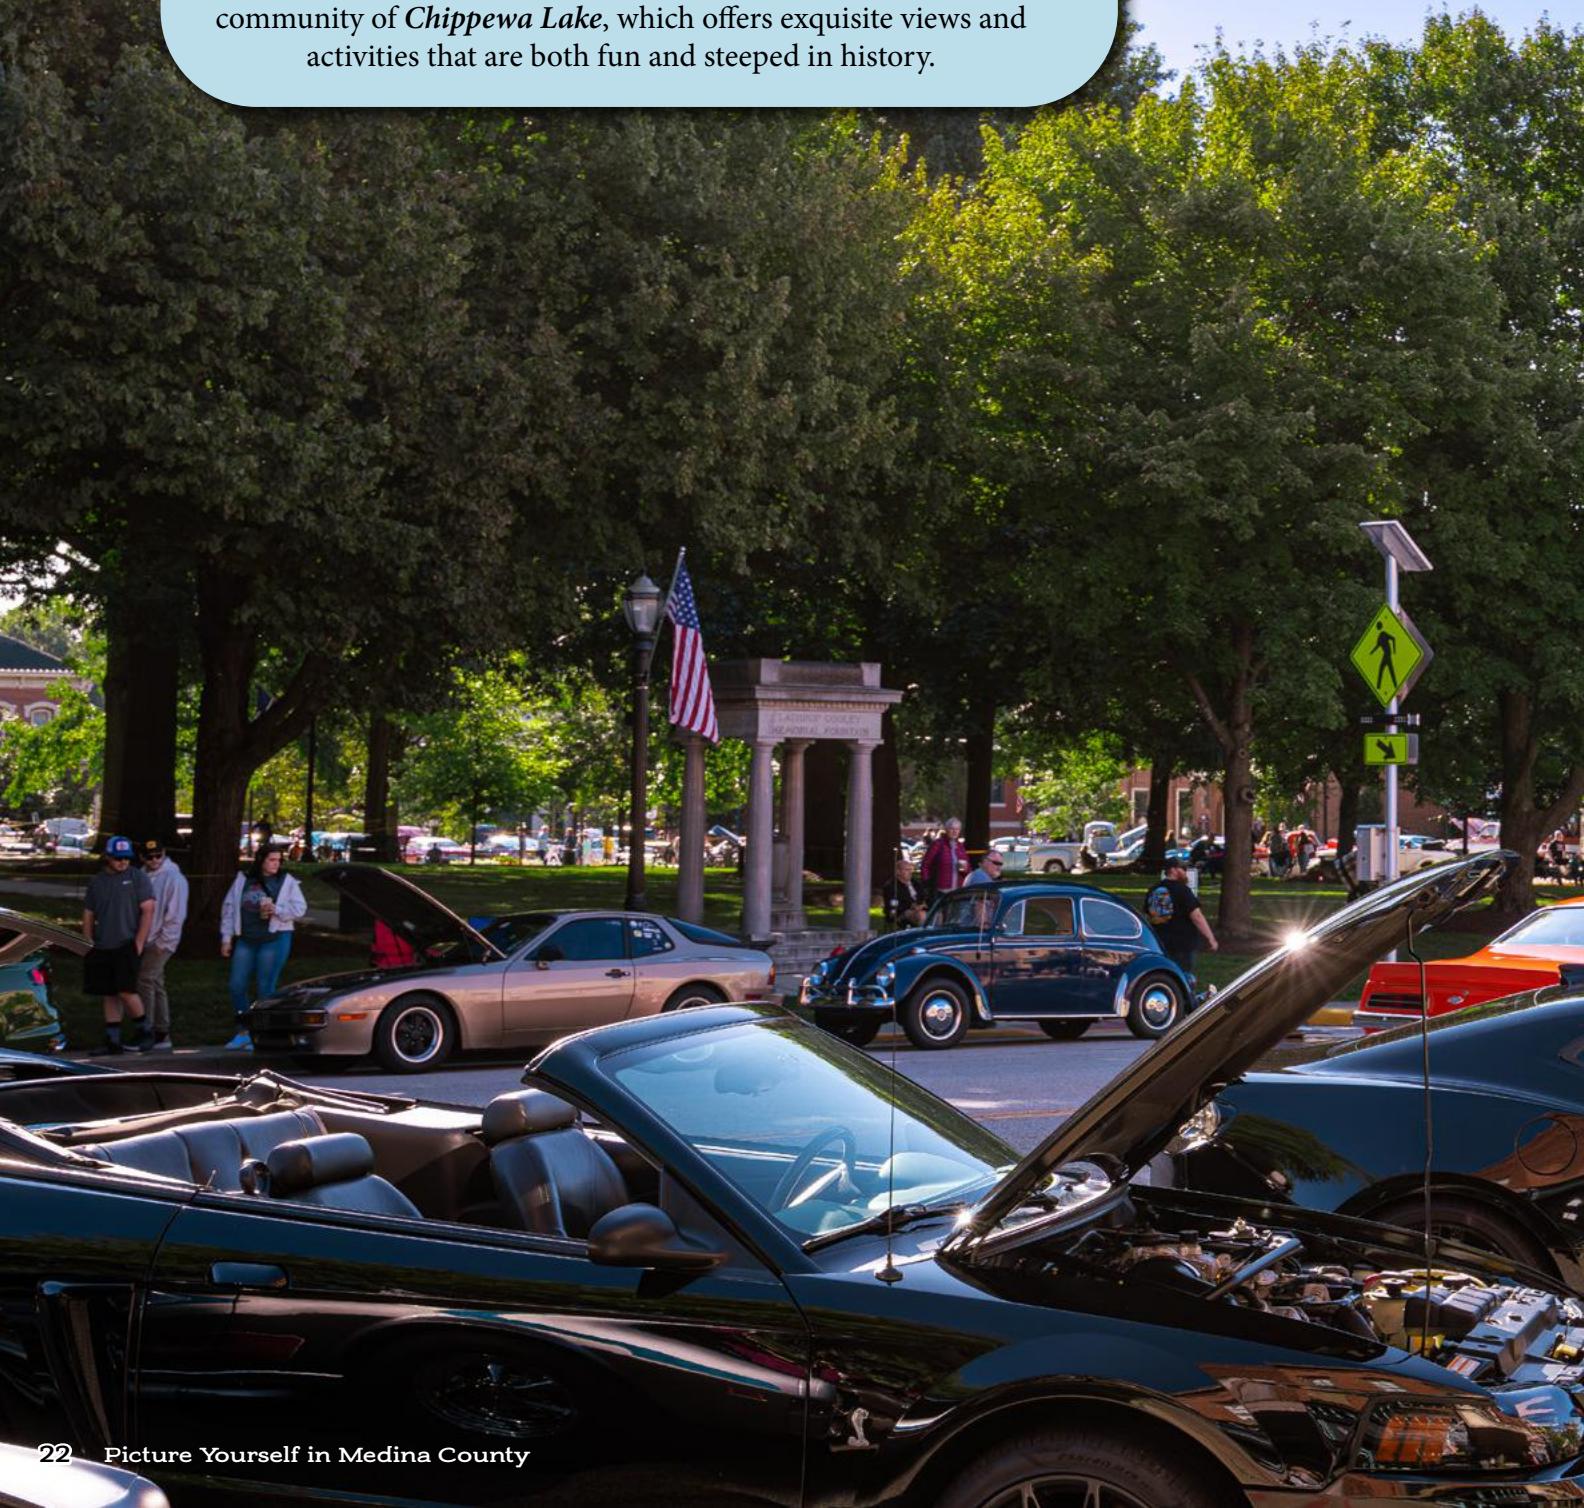

Visit medinaoh.org for a complete list of 2026 events.

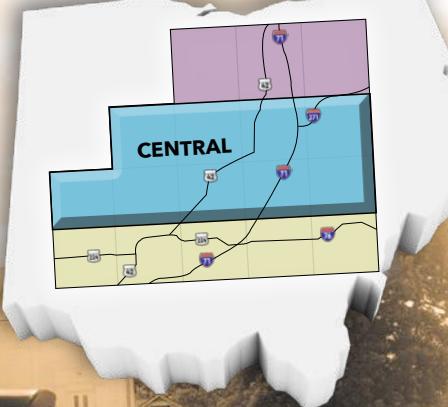

CENTRAL

The City of Medina, the county seat and main city of the Central Region, is committed to preserving its rich past while forging a vibrant future. With *lively events* on the historic square and the *iconic gazebo* at the heart of Uptown Park, it's easy to see why thousands of visitors *plan a trip to Medina every year*. Just beyond the city, you can travel through peaceful farmland to the community of *Chippewa Lake*, which offers exquisite views and activities that are both fun and steeped in history.

Southwest: Drive northeast on I-75 or I-71 into Ohio, toward Cleveland. Exit onto OH-18 west.

Central Medina County has a charm emanating from its history as a hub for industrial innovation, with companies like the AI Root Company. Places like Chippewa Lake and the Chippewa Lake Amusement Park offered robust outdoor entertainment. There is great natural beauty to behold at our county parks including Buckeye Woods and Oenslager Nature Center. Perhaps my favorite way to enjoy a day outdoors in this part of the county is on the links,

experiencing some of Medina County's finest golf at premier public or private courses such as Ridge Top Golf Course and Medina Country Club, located within this Central corridor.

A Century-Old Stage For Concerts, Plays & Community Gatherings

What Was Your Vision for Celestia?

I clearly had a vision that wasn't much of decor and paint colors, but to offer a "traditional theater" with music, comedy and dance. I knew if we could transform this theater into an inviting concert venue, with a certain openness and vibe, we could keep visitors coming back. There is a regional base of concert goers and event attendees that are tired of the same old concert experiences of over-priced parking, overpriced tickets, venues in unsafe areas and the need to travel to other cities.

We also had to make a connection to those who came in this space before, yet reach out into the county and region as a whole and transform the place from a "School Auditorium" into a state-of-the-Art Concert Venue. It's not often that the plan you put on paper turns out BETTER than what you planned, but that's what has happened here.

Can You Tell Me a Little More About the Wadsworth Square Foundation?

We knew that the renovation, operations and ongoing overhead was going to be more costly than ticket sales could support. Successful theaters are run by focused

non-profit leaders that can help raise money through member engagement, private sector partnerships and grants from various sources. This is how WSF was born. We were not reinventing the wheel. We examined how other groups in our region were thriving and scaled that plan to fit this place.

The support so far has been amazing and we could not be happier with our current position.

Why Did You Choose the School to Bring this Vision to Life?

Really, this place chose us, I truly believe that. My parents moved our family to Wadsworth in the mid 1980's and my first real experience in the City of Wadsworth was at that school. My 2 brothers and 2 sisters attended school there. That auditorium was the first real place I performed in the middle school band, then in high school, then again on the technical theater side. After High school, I worked theater jobs in lighting and many shows were in that theater. It has always had a special connection, even as recent as the last couple years watching our daughter play her

first band concerts there.

When I saw the school building and campus were going to be for sale, I thought, "boy I hope whoever takes that building over keeps the theater standing and makes it into something special so all those old memories and connections remain and more can be created".

It has been an honor and a privilege to see this through. And so many people have thanked our team for re-imagining the place into something accessible and fantastic and more importantly, saving this historic theater.

How Do You Want People to Feel When They are at Celestia?

The Celestia itself is beautiful inside and has a very "Cool" vibe. People love a very intimate performance space, unique bar, great volunteers who welcome them every night and a staff that goes above and beyond to make sure the EXPERIENCE is not like anywhere else in the region. The City of Wadsworth is probably the best place this opportunity could arise. There is plenty of free downtown parking, a small town downtown corridor, retail and restaurant districts for pre-show dining, and shopping- all set in an outstanding, low crime area with an amazing police and safety forces. How people would feel was one of the toughest concepts to bring together be-

cause we knew there were so many facets to it. We wanted to honor and respect the folks who had history here, but we knew we had to tie it up in a huge bow so when people came here on NIGHT ONE, we could check all the boxes.

What is Your Favorite Thing About Your Attraction Being in Medina County?

For decades I have been an ambassador to Ohio and Medina County. I have traveled the country in my youth as a musician for almost a decade and every time I was glad to come home to Wadsworth. In my opinion there is not one place better in this state than Medina County. I love the small town charm of our cities, the unique things our villages and townships offer and the PRIDE everyone takes in their little piece of this county. In the Celestia Theater, we have a special place to gather, a place close to home to enjoy a concert or the ballet or catch up on the best local musicians in NE Ohio. No one is doing what we do or making the commitment we are making to local artists and businesses. The Celestia Theater is here for everyone in the country to enjoy, and our goal is to do our best to provide an affordable night out, and we want people to leave at the end of the night with an experience they will talk about for weeks after.

Medina County is the perfect place for businesses and manufacturers because it combines strategic location, skilled talent, and a pro-business environment with a high quality of life. Situated between Cleveland and Akron with easy access to major highways and rail, companies in Medina County can efficiently reach customers and suppliers across the Midwest and beyond. The county offers a diverse mix of modern industrial parks, rural flexibility, and shovel-ready sites, paired with competitive costs and a workforce known for reliability, craftsmanship, and innovation. From advanced manufacturing and logistics to small makers and family-owned enterprises, Medina County supports businesses at every stage of growth.

What truly sets Medina County apart is its leadership. Public and private leaders work collaboratively, taking a hands-on, relationship-driven approach to economic development. Local officials, educators, and busi-

ness advocates are accessible, responsive, and focused on long-term success rather than short-term wins. This culture of cooperation allows businesses to navigate expansion, workforce development, and infrastructure needs with confidence. Leaders here value transparency, problem-solving, and community pride, qualities that translate into real results for employers and residents alike.

Partnership with tourism plays an increasingly important role in the future of Medina County's economic development. Tourism showcases the county's vibrant downtowns, historic charm, outdoor recreation, and local products, many of which are *“Made in Medina County.”* Visitors often become investors, entrepreneurs, or future residents. By aligning tourism promotion with business attraction and talent recruitment, Medina County tells a unified story that reflects a community people love to visit, choose to stay in, and trust to build their future.

DISCOVER AN AMERICAN ORIGINAL

It all started with a swarm of bees.

Over 155 years ago, Amos Ives Root was inspired to start a beekeeping business when a swarm of bees landed on the window of his jewelry store. That simple event created a company that has become synonymous with beekeeping, honey, pure beeswax, and the highest quality candles.

A Root candle is clean burning, long lasting, elegantly designed, and luxurious. It is a candle burning experience unlike any other.
