

LIVING IN LOS CABOS

coastaro
LIFESTYLE REAL ESTATE

On the southern tip of Mexico's Baja California sits the resort area of Los Cabos. One of the few locations in the world where the desert meets the ocean in a perfect mix of weather, natural beauty and lifestyle amenities.

Living in Los Cabos offers an opportunity to experience life beyond the day to day grind north of the border. Whether you are looking to move permanently, or build your investment portfolio, this unique area offers a world of potential.

This is the very best of coastal living.

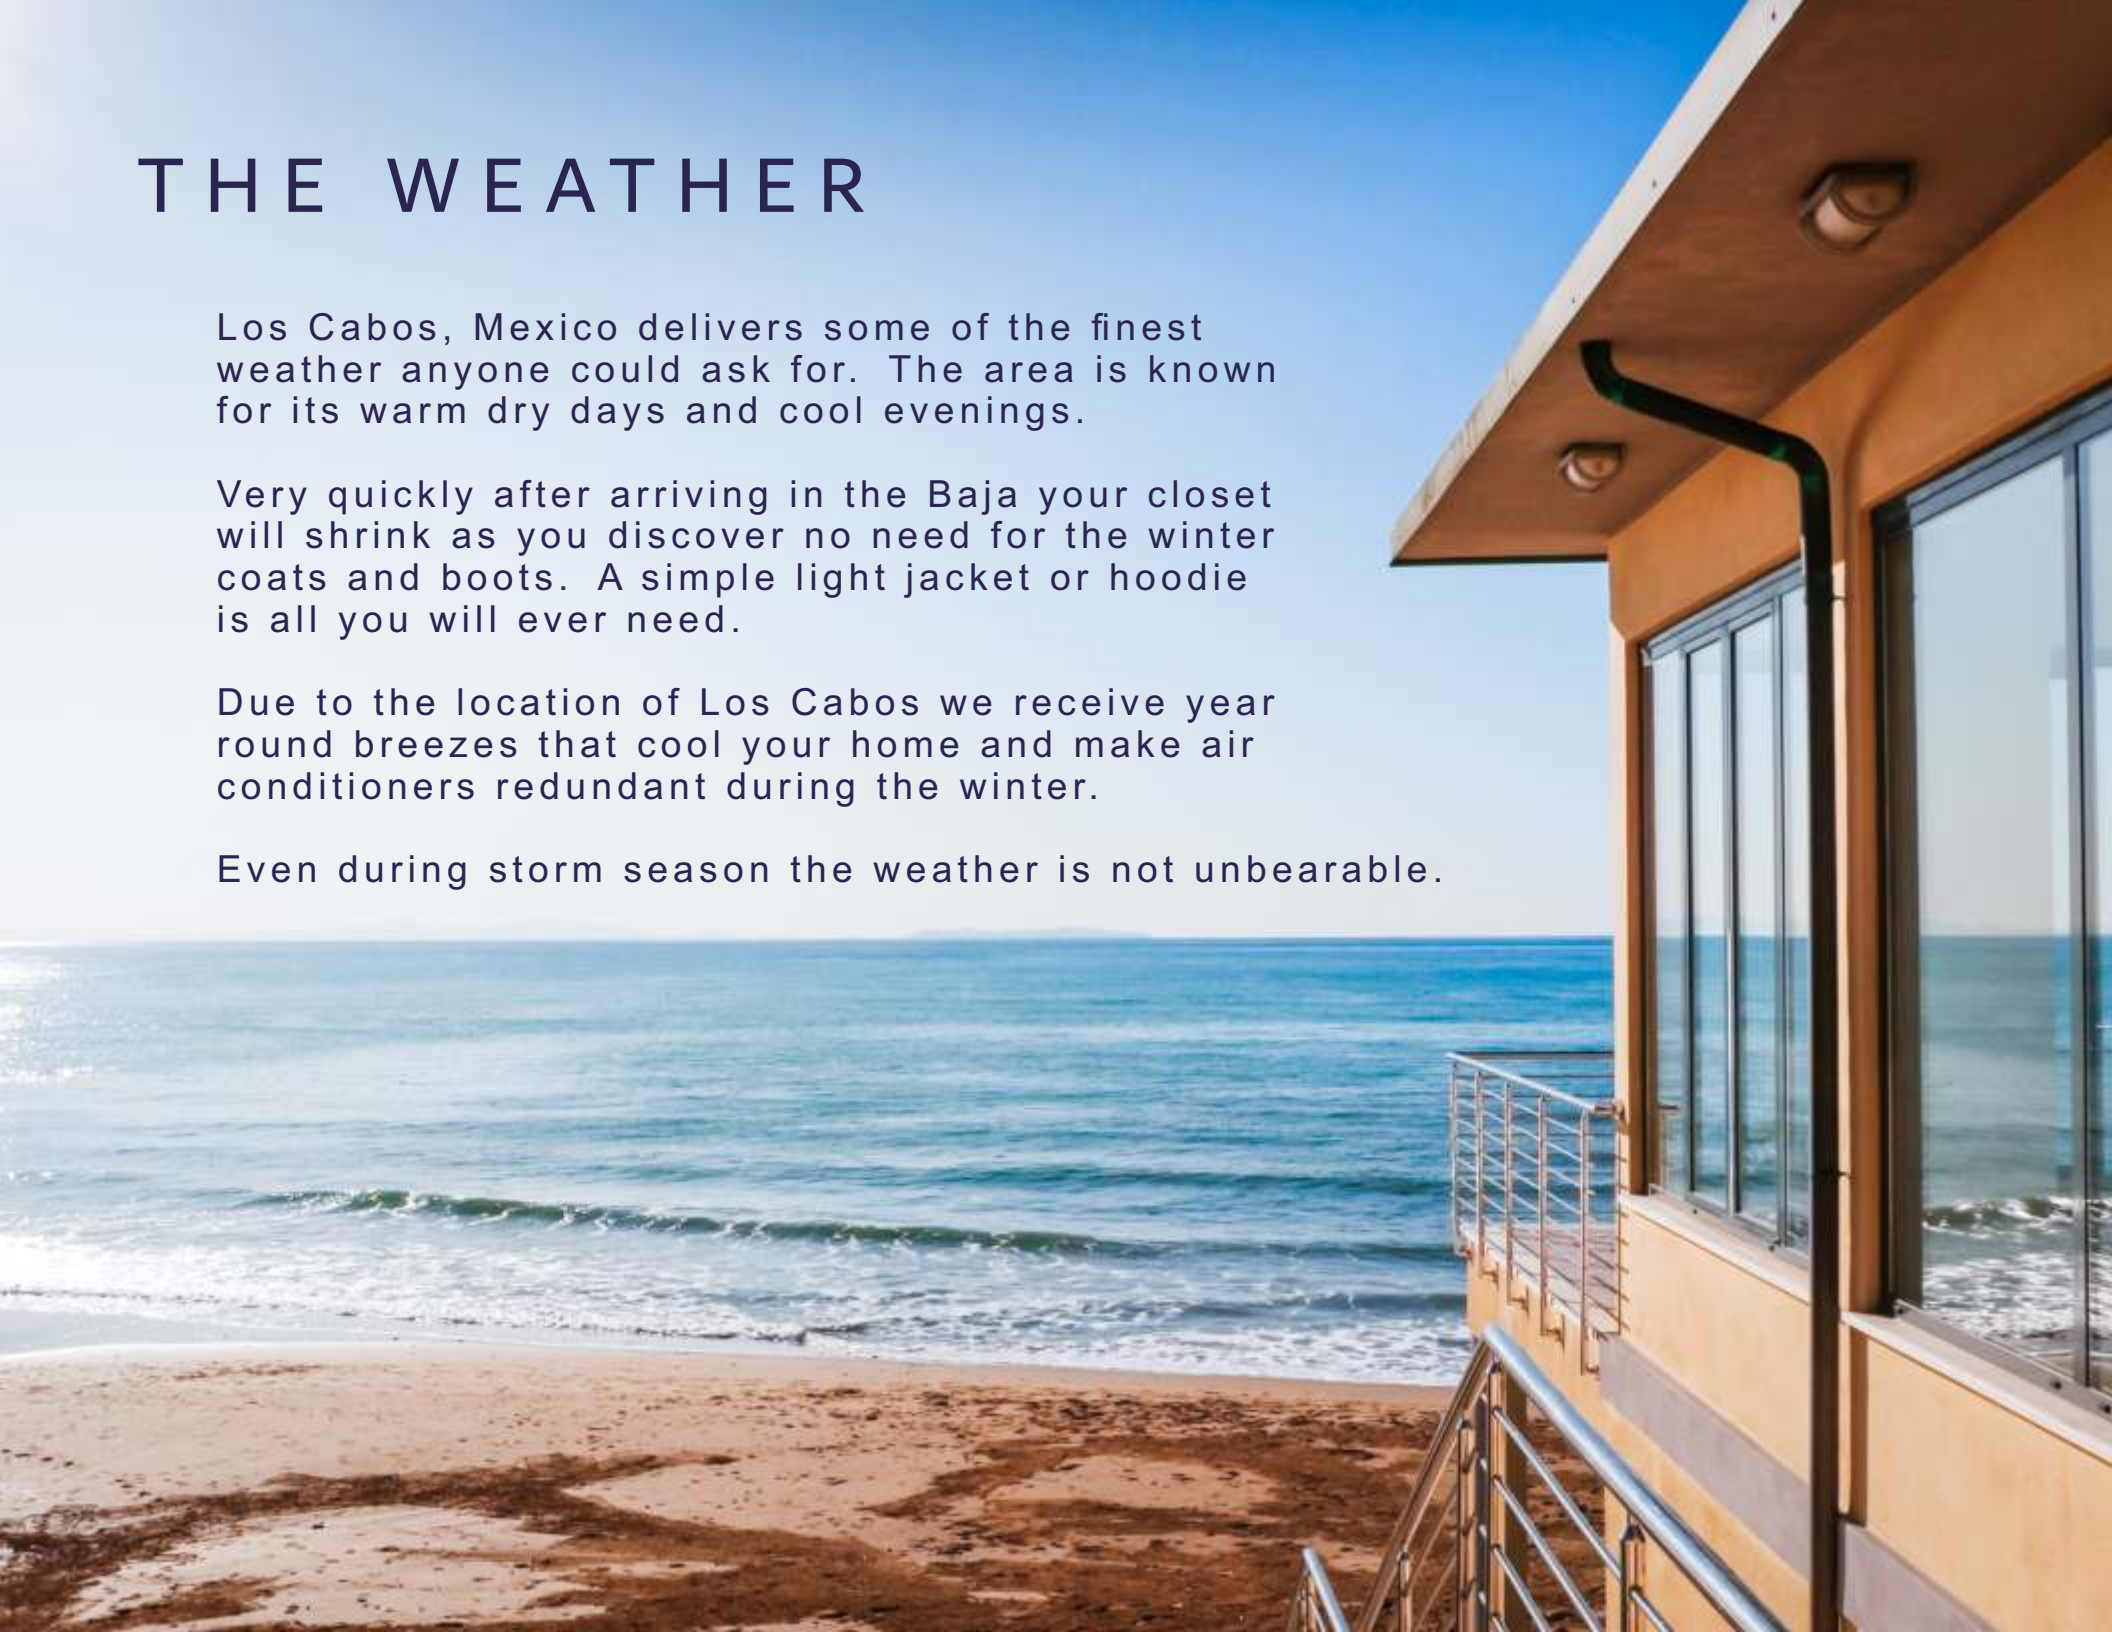

THE WEATHER

Los Cabos, Mexico delivers some of the finest weather anyone could ask for. The area is known for its warm dry days and cool evenings.

Very quickly after arriving in the Baja your closet will shrink as you discover no need for the winter coats and boots. A simple light jacket or hoodie is all you will ever need.

Due to the location of Los Cabos we receive year round breezes that cool your home and make air conditioners redundant during the winter.

Even during storm season the weather is not unbearable.

COST OF LIVING

Financial freedom is the dream of many people.

The ability to live free of the overwhelming pressure of debt is a very obtainable goal here in the Baja.

We generally operate as a cash only society in an emerging nation. The result is that your cost of living drops significantly while your ability to enjoy the finer things in life increases.

As you look towards your future, Los Cabos begins to make financial sense from many points of view.

INFRASTRUCTURE

Even as an emerging nation, Mexico and the Baja are rapidly moving forward in technology, culture and first world amenities.

Los Cabos offers familiar shopping, excellent internet, a stable functioning government and a growing infrastructure that is racing to catch up with our growth.

This is not the Baja from the movies, but rather it is a modern location full of culture, style, entertainment and opportunities that rivals many larger cities.

PACE OF LIFE

Life is lived at the speed of light outside of the Baja...but we live at a different pace in Los Cabos

It is more than taking the time to stop and smell the roses. This is about being free from a pace of life that is impossible to maintain.

Mornings spent walking on the beach, lunches at a local taqueria, and evenings spent with friends laughing over local drinks.

The longer you are here the less you think about the outside world. News stations get watched less, weather forecasts become obsolete and conversation wander to the important things in life.

SAFETY & HEALTHCARE

Your personal safety and health should always be a priority in any area you plan to spend significant time.

Not only does Los Cabos offer a safe living environment but it is also home to some of the finest private health care in Mexico. Whether it be emergency care or a little nip and tuck...the hospitals and clinics in Los Cabos excel.

Safety has always been of great importance in Los Cabos as it is one of the most important tourist destinations in the country. The Mexican government continues to invest millions in the region to ensure the safety of everyone who calls this beautiful place home.

ACTIVITIES & EVENTS

Finding something to do in Los Cabos is never hard. The activities offered range from heart stopping to casual evenings spent with friends.

It seems like there is a new event happening every weekend as the region comes alive with activity.

Fishing derbies, rock festivals and art walks are the norm as the families of Los Cabos venture out in the evenings for fun and adventure.

Need a little more excitement? Hop on a quad, go for a para-glide, ride a camel or take a plunge scuba diving in some of the most beautiful locations you can imagine.

PURSUING THE DREAM

The dream is more obtainable than you think.

Housing costs in Los Cabos continue to be significantly less than similar housing across North America. The potential to turn the equity in your home into a new lifestyle direction is very real.

Between the reduced cost of housing, the removal of debt and the much lower cost of living, you have the perfect trifecta to make the move to paradise.

You can choose your own destiny and not be trapped without a hope of escape.

You can pursue the dream.
