KEEPS YOU GOING.

CHARGE LIKE A PRO AND SAVE LIKE A HERO!

New battery chargers come with the latest charging technology. Their optimised charging cycles make batteries last longer so you get more use out of one charge. This new generation of chargers also monitors and maintains your battery's health. That means you can keep using the same batteries for years to come.

SECUR-A-NUT WHEEL SECURITY SYSTEM

The crime rate leaves no one untouched and criminals have discovered an easy source of income: Expensive truck tyres and rims. Until now, there was very little that could be done. However the amazingly simple SECUR-A-NUT Wheel Security System stops all would be thieves in their tracks.

SECUR-A-NUT WHEEL SECURITY SYSTEM MEANS:

- No more stolen wheels and Rims
- No Down time caused by unscheduled replacement of wheel assemblies
- Wheel & Tyre security at the fraction of the cost of replacement
- Quick and Easy fitment
- Peace of mind

SIMPLE & EASILY AFFORDABLE

Manufactured and hardened steel, the SECUR-A-NUT Wheel Security System quickly & cost effectively reduces wheel theft as the wheel assembly simply cannot be removed without your unique corresponding SECUR-A-SOCKET.

We manufacture to our patented design, which includes your unique registered pattern number, for Nuts & Sockets that meet your vehicles requirements.

TESTED FOR YOUR SECURITY

The SECUR-A-NUT Security System has had rigorous tests done on both the nut and the socket and results showed they easily withstood well in excess 750Nm of torque without loosening. The strength of the system was confirmed by withstanding more than 50 tightening and loosening cycles without any sign of damage.

REDUCE DOWNTIME

HAVE ALL YOUR SERVICE PARTS PREPACKED
WHEN USING JCB SERVICE KITS

Engine Build Kits & Parts

We offer a comprehensive selection of Engine Build Kits and parts for heavy equipment, ensuring reliability and peak performance. Our range includes solutions for DE08, DE12, DB58, D1146, 6CT (Cummins), 6BT (Cummins), and D6BT (Hyundai), providing durability for demanding applications.

Excavator Bucket Linkage Parts, Pins & Bushings

We stock high-quality Bucket Pins, Bushes, Toggle Links, and Link Arm Sets, designed to withstand heavy-duty use and ensure smooth, reliable movement. Built for strength and precision, our parts keep your machinery working efficiently in the toughest conditions.

- ✓ **Radiators and Oil Coolers:** DX225, DX300, EC210, S220, S300,
- ✓ **Pins & Bushes :** to suit most 20T, 30T, and 40T excavators.
- ✓ **Main Hydraulic Pumps:** K3V-K5V series & HPV102,118,145 pumps
- ✓ **Main Hydraulic pump parts:** All internal parts & seal kits for the K3V, K5V, HPV & HPK300 pumps. We also stock regulators, EPPR Valves & pilot pumps.
- ✓ **Pump Couplings:** Couplings H type, A type, and As type.
- ✓ **Swing motors:** DX225, S220, SH210, JS205. We also stock internal parts & seal kits on the M2X & M5X series.
- ✓ **Swing Reductions:** To suit 20 ton up to 75 ton.
- ✓ **Track Adjusters:** CAT 329D, CAT 320, SH200, SH300, DX300, EC210, EC460, PC200-7, R210LC-7, R220LC-9S, ZX200-3, ZX330-5, ZX200-5G, S220/225, DX225, JS205.
- ✓ **Travel Devices Available:** CAT330D, CAT320D2, 20T Travel Device, EC300 (Volvo), EC380D, ZX670, EC480.
- ✓ **RCV levers:** complete for the Doosan DX & Solar Series.

DID YOU KNOW

ABOUT CONSTRUCTION

Younger generations are less interested in the construction industry.

In 2018 the global construction industry spent \$11.4 trillion. By 2030 this number is expected to reach \$17.5 trillion.

The world record for nailing a wooden board is 16.55 seconds

The Great Wall of China used more than 3 billion bricks

The tallest crane in the world is 100 meters taller than the Eiffel Tower

SECUR-A-NUT WHEEL SECURITY SYSTEM

The crime rate leaves no one untouched and criminals have discovered an easy source of income: Expensive truck tyres and rims. Until now, there was very little that could be done. However the amazingly simple SECUR-A-NUT Wheel Security System stops all would be thieves in their tracks.

SECUR-A-NUT WHEEL SECURITY SYSTEM MEANS:

- No more stolen wheels and Rims
- No Down time caused by unscheduled replacement of wheel assemblies
- Wheel & Tyre security at the fraction of the cost of replacement
- Quick and Easy fitment
- Peace of mind

SIMPLE & EASILY AFFORDABLE

Manufactured and hardened steel, the SECUR-A-NUT Wheel Security System quickly & cost effectively reduces wheel theft as the wheel assembly simply cannot be removed without your unique corresponding SECUR-A-SOCKET.

We manufacture to our patented design, which includes your unique registered pattern number, for Nuts & Sockets that meet your vehicles requirements.

TESTED FOR YOUR SECURITY

The SECUR-A-NUT Security System has had rigorous tests done on both the nut and the socket and results showed they easily withstood well in excess 750Nm of torque without loosening. The strength of the system was confirmed by withstanding more than 50 tightening and loosening cycles without any sign of damage.

DUMPERS

- and their DIFFERENCES -

Otherwise known as articulated or dump trucks, these are generally the largest of the earth-moving plant types. Capacities can vary from 5 m³ to 30 m³. They are the most suitable option for sites where large amounts of material needs to be transported over distances both on and off site.

The vehicles have heavily-plated bodies and are hydraulically operated which allows for quick discharge. There are a wide range of dumpers available with differing carrying capacities and discharge options (front, side or elevated tipping). The most common options are:

Standard dumper

Diesel powered dumper with gravity tipping skip. Heaped capacity ranges from 0.7-1.5 m³.

Swivel skip dumper

Hydraulic tipping skip mounted on 180-degree slewing turntable.

Highway dumper

Much larger dumper used to transport spoil off site. The rear tipping skip is hydraulically operated, and the usual heaped capacity is 10 m³

DID YOU KNOW

ABOUT CONSTRUCTION

Younger generations are less interested in the construction industry.

In 2018 the global construction industry spent \$11.4 trillion. By 2030 this number is expected to reach \$17.5 trillion.

The world record for nailing a wooden board is 16.55 seconds

The Great Wall of China used more than 3 billion bricks

30 YEARS
