

THE
Beanie
FACTORY™

American Made High Performance Headwear

Knit to last in Cleveland, Ohio, from first stitch to final touch.

Made in the USA

We're proud to be a part of the textile renaissance in northeast Ohio, manufacturing all our beanies in our Parma factory. Our veteran-owned and veteran-run company is committed to supporting our community and country in all aspects.

Quick Production Times

Stop waiting months for your private-label and wholesale beanie orders. Our factory is designed to scale, so we keep up as demand grows. No waiting, no wondering, just transparent (and short) lead times.

Low Order Minimums

Order sizes start at just 60 beanies, perfect for outfitting small businesses and teams. The ceiling, though, is unlimited. Our factory supports large, significant order sizes that meet your needs.

Affordable Pricing

"Made in the U.S.A." doesn't mean expensive. Our pricing is competitive to overseas manufacturers, without cutting corners or giving up quality.

Soft, Breathable Comfort

No tight elastic bands—just a cozy fit that keeps you cool and comfy all day long.

Premium Acrylic Yarn

Crafted with open-dyed, short-cut fibers for vibrant color, structure, and a high-end finish.

Stylish, Everyday Wear

Designed to look great on the shelf and feel even better on your head.

American-owned. American-run.

Proudly veteran-owned and Cleveland based, with full domestic control of production.

Fast Lead Times & Low MOQs

Skip the long delays and massive minimums of overseas sourcing.

Affordable Domestic Pricing

Competitive pricing that helps you keep margins strong without compromising quality.

H-Stitch™ Beanie

Innovation you can wear.

For years, the beanie market hasn't offered anything truly new. The H-Stitch™ changes that. Designed for people who expect more from their gear, it's made in Cleveland, Ohio and protected under U.S. Patent No. 12,290,131-B2. Its patented design shifts the traditional top seam to the sides, eliminating the usual crown pressure point and creating a fit that actually adapts to you. The result is steady, all-day comfort that performs just as well under helmets and hard hats as it does on its own.

Patented H-Stitch™ Design

Eliminates top-seam pressure points for unmatched comfort, even under helmets.

One Size Fits Most

Flexible, adaptive fit that comfortably suits a wide range of head sizes.

Versatile Style

From trails to city streets, it's the perfect balance of function and fashion.

Handcrafted in the USA

Proudly veteran-owned and Cleveland-based, with full domestic control of production.

Breathable Construction

Keeps you warm without overheating, ideal for all-day wear.

100% Acrylic Yarn

Soft, durable, and made with open-dyed, short-cut fibers for vibrant color and premium feel.

Wholesale Ready

In stock. On trend. On time.

Manufactured entirely in Cleveland, Ohio, we oversee every major step of our production process, from turning yarn into fabric through final sewing and customization. This gives us faster lead times, competitive pricing, lower minimums, and steady year-round availability. With overseas production facing rising costs, delays, and high MOQs, we offer a more reliable, efficient alternative without compromising quality.

EXPLORE OUR MODELS

Beanie Base

Our classic made-to-order beanie, crafted from premium short-fiber acrylic for long-lasting wear and vibrant color. Breathable, warm, and sleek for everyday use. A dependable, go-to beanie customers reach for again and again. Available in traditional stitch.

Beanie Flex

Legendary comfort stretch meets durable acrylic construction, with added options to make your brand stand out. Customize with decorative pompoms and an expanded range of 3 patterns: Roro, Contrast, and Fusion. Warm, comfortable, and fashion-forward. Available in traditional stitch or patented H-Stitch.

Beanie Pro

Patented H-Stitch™ construction relocates seams to the sides, eliminating crown pressure for all-day comfort. Designed to perform under helmets and hard hats, it delivers breathable warmth, adaptive fit, and American made durability. Built for movement and available in solid or flex patterns.

Children's Beanies

Sized for smaller heads but built with the same premium materials and craftsmanship as our adult styles. Soft, breathable acrylic provides warmth without itch, while durable construction stands up to everyday play. Available in fun colors and patterns, with optional pompoms, for comfort kids love and quality parents trust.

Built for the trades. Made for your brand.

Our American Story

The details matter when it comes to selecting the right beanie. Ask someone who spends long days in rain or snow, takes long hikes in the wilderness, or wears a helmet day in, day out. From our superior stretch and breathability to our patented, lay-flat seams, those little differences are what set The Beanie Factory products apart.

U.S. Army veteran H. Hamoud spent long hours in uniform, often wearing an itchy, constricting beanie under an already unforgiving helmet. It was uncomfortable, distracting, and entirely too common. He was not alone. Fellow soldiers had the same complaint. Beanies bunched, rubbed, trapped heat, and made field work miserable.

After being honorably discharged as a disabled veteran, Hamoud set out to fix what standard-issue gear never did. He focused on the real problem. Seams that dug into the scalp and caused irritation over long periods of wear. He developed a new seam configuration designed to lay flat, reduce friction, and eliminate bunching.

That innovation became the patented H-stitch and The Beanie Factory was born.

Capabilities

Design. Production. Delivery.

The Beanie Factory delivers high-quality headwear, custom-branded hats, promotional items, and accessories. With versatile customization and strong production capabilities, we turn ideas into standout products that combine style, function, and scale.

Headwear Capabilities

- Custom knit beanies (various styles, fits, and colors).
- Patented H Stitch seam design for comfort.
- Blank beanies for resale, uniforms, and promotions.
- Pom-pom attachment and customization.
- Private label and branding options.

Branding & Customization

- Leatherette patches and accents.
- Custom-shaped patches and applications.
- Embroidery (logos, text, designs).
- Sewn-on applications for durable branding.
- Laser engraving on tags, keychains, and accessories.
- Custom packaging and labeling.

Accessories & Promotional Product

- Custom keychains (with or without NFC technology).
- Promotional items for events, giveaways, and corporate gifts.
- Sustainable packaging solutions
- Flexible production for both small and large volume orders.

Production Strengths

- U.S. based manufacturing facility in Parma, Ohio.
- Low minimums starting at 60 units.
- Scalable production capacity for larger runs.
- Quick turnaround times.
- Fair labor and sustainable sourcing practices.

Sustainability

Knit with purpose, crafted for the future.

Our Commitments

Sustainability is built into how we make our beanies. From material selection to production efficiency, we focus on reducing waste, extending product life, and using responsible packaging wherever possible. We prioritize durable construction, efficient yarn usage, and recyclable packaging to support circularity and minimize environmental impact across our custom and blank beanie programs.

Looking Ahead

By 2028, our goals include eliminating plastic packaging, expanding biodegradable and recyclable options, and sharing progress through annual sustainability updates.

Ethically Sourced Yarns

All of our beanies are made from carefully selected yarns, giving us full control over quality and responsibility.

Eco-Friendly Packaging

We are actively removing single-use plastics from our packaging and replacing them with recyclable, paper-based solutions.

Durable, Long-Lasting Beanies

Unlike fast fashion, our custom beanies are designed to last multiple seasons, supporting a more sustainable approach to fashion.

Fair Manufacturing Practices

As the factory, we take pride in ensuring fair labor standards and strong, transparent supplier relationships.
