Thornbury High School Sports Hall - Thornbury

Architecture and Interiors:

Brand Architects

Thornbury High School's Sports Hall and Performing Arts Centre includes a competition grade basketball court, gym, change rooms, a 360 seat capacity performance space, a digital media studio, four music spaces, a drama studio and workshop spaces.

Our Duropal Jerusalem Pine NW was chosen for its fire rated qualities, along with a mixture of bright feature floor and wall finishes and our matching High Pressure Laminate cladding in high traffic areas and perforated wall panels for the gymnasium.

Products Used:

Pre Finished Melamine Board / Group 1 Fire Rated Laminate

- Duropal R55064NW Jerusalem Pine

Project/Product Requirements:

- Project required fire rated high pressure perforated wall linings for high traffic and safety considerations
- Project required a laminate to reduce the cost compared to natural birch plywood
- Product provided graffiti and stain resistant surfaces

Duropol High Pressure Laminate
 Oxygen Consumption
 Calorimeter Test
 Product Group Number
 Classification "1"

Admira High Pressure Laminate
 Oxygen Consumption
 Calorimeter Test
