## Story

In 2007, our owner Zoltán Katona embarked on a journey to Australia for a much-needed vacation. While wandering through the picturesque landscapes of Australia, Zoltán noticed a unique trend that captured his attention – the widespread use of outdoor fitness equipment in parks and public spaces. Intrigued by the idea of combining exercise with the beauty of nature, he saw an opportunity to bring this concept back to Hungary.

## The company

KATKER 2005 Ltd, the owner of the BESTRONG brand, has been a prominent player in the Hungarian sports industry for over 20 years. Our company is involved in designing, manufacturing, installing, and selling outdoor and indoor sports equipment, sports parks, sports fields, and outdoor furniture. Our dedicated team of over 80 professionals continuously works to expand our product range, tailoring it to various sports, age groups, and fitness levels.

A world map with a dark background and light gray landmasses. The United States and Hungary are highlighted in bright green. A dashed yellow line connects a label 'BESTRONG USA, INC.' to a location in the United States. Another dashed yellow line connects a label 'BESTRONG FACTORY' to a location in Hungary. There are also two orange location pins: one in the United States and one in Hungary.

**BESTRONG USA, INC.**

**BESTRONG FACTORY**

## Vision

Zoltán envisioned BESTRONG as more than just a fitness brand. He saw it as a movement that would inspire individuals to break free from sedentary lifestyles, embrace their inner strength, and achieve their full potential. BESTRONG's mission was simple yet profound: to make strength accessible to everyone, regardless of their background, fitness level, or age. The story of BESTRONG is not just about building muscles. It's about building stronger, more resilient communities, united by the common goal of living life to its fullest potential.

## Portfolio

BESTRONG offers a diverse range of products, including sport-specific fitness, cardio, calisthenics, and recreational fitness equipment systems, as well as multifunctional sports fields and arenas. Starting in 2024, we will introduce outdoor adjustable load sports equipment, solutions for people with disabilities, and state-of-the-art padel courts in our portfolio.

# USA

After receiving positive feedback and experiencing successful market expansion in Europe, we turned our attention to the lucrative US market. The introduction of our unique, football-specific equipment led to a fruitful partnership with Sporting Kansas City, one of the most well-known MLS teams. This partnership will soon result in the construction of our own soccer-specific fitness park and arena at Sporting Kansas City's facility, which will also serve as the home for the U.S. National Soccer Team. This significant milestone marked the establishment of our subsidiary, BESTRONG USA, Inc.

## **BESTRONG USA, INC.**

To solidify our presence in the US market, we planned to build an assembly hall in Port Orange, Florida, with groundbreaking having occurred in the fall of 2023 followed by construction starting in the summer of 2024, a fully equipped BESTRONG office center will be ready to provide high-quality services to our US customers and distributors.

# OUR MISSION

Through daily physical activity and outdoor exercise, we strive to educate individuals on how to lead healthy lifestyles. We are dedicated to assisting people in achieving better health, increased strength, and enhanced fitness levels through the use of high-quality sports equipment.

04.

05.

Community

# VALUES

As a result of recognizing the diverse needs of sports enthusiasts, we continuously develop and improve our products and services. We have great confidence in seeking and incorporating the advice of renowned professionals and athletes in the design of our products. We genuinely value and attentively listen to the communities' perspectives that utilize our sports equipment and parks. Innovation in sports remains one of our top priorities.

# INTERNATIONAL EXPERIENCE

We have faith in the unifying power of sports and believe that a shared love for sports brings people together. In addition to our many locations in Hungary, our nearly 2000 sports fields and parks have already been installed in over 27 countries in Europe, Africa, Asia, and North America. Furthermore, we are very proud that athletes attending the 2023 World Athletics Championships took advantage of our training center during the event.

# OUR VISION

# DESIGNED FOR CHAMPIONS.

Our products have been designed in collaboration with sport professionals to ensure that everyone can train like a champion at BESTRONG sports parks. Infuse your training with the spirit of pro athletes!

# FITCAMPUS

For the full range of FitCampus

# PADEL

Padel was invented in 1969 in Mexico. Today it is a highly popular sport in Spain and Latin America and is rapidly gaining popularity in other parts of the world: there are over 25 million active padel players in over 110 countries. Come and join one of the world's fastest-growing sports with BeStrong. Starting in the fourth quarter of 2024, we will introduce our state-of-the-art padel courts in our portfolio. Our courts are carefully designed, and made from exceptional and durable materials, ensuring safety and security in any weather conditions. Our padel courts are the result of a combination of aesthetics, innovation, and a high-tech manufacturing process using only the highest-quality materials. Padel is a unique and exciting sport that offers a range of physical and social benefits for players of all ages and skill levels.

# VIEW IT IN 3D & AR

Users can now explore our sports parks not only through conventional images but also in 3D and within an augmented reality (AR) environment. Through AR, you can not only obtain a close-up view of the finest details and dimensions of our sports equipment but also interactively zoom into any location in real-time using your mobile device's camera to view 3D renditions of our designed collections and assemblies. Our innovation enables you to enter, experiment with, and explore your future sports park within a virtual environment of your choosing. Try our new AR functionality today and discover the most suitable sports park for you in a truly unique experience.

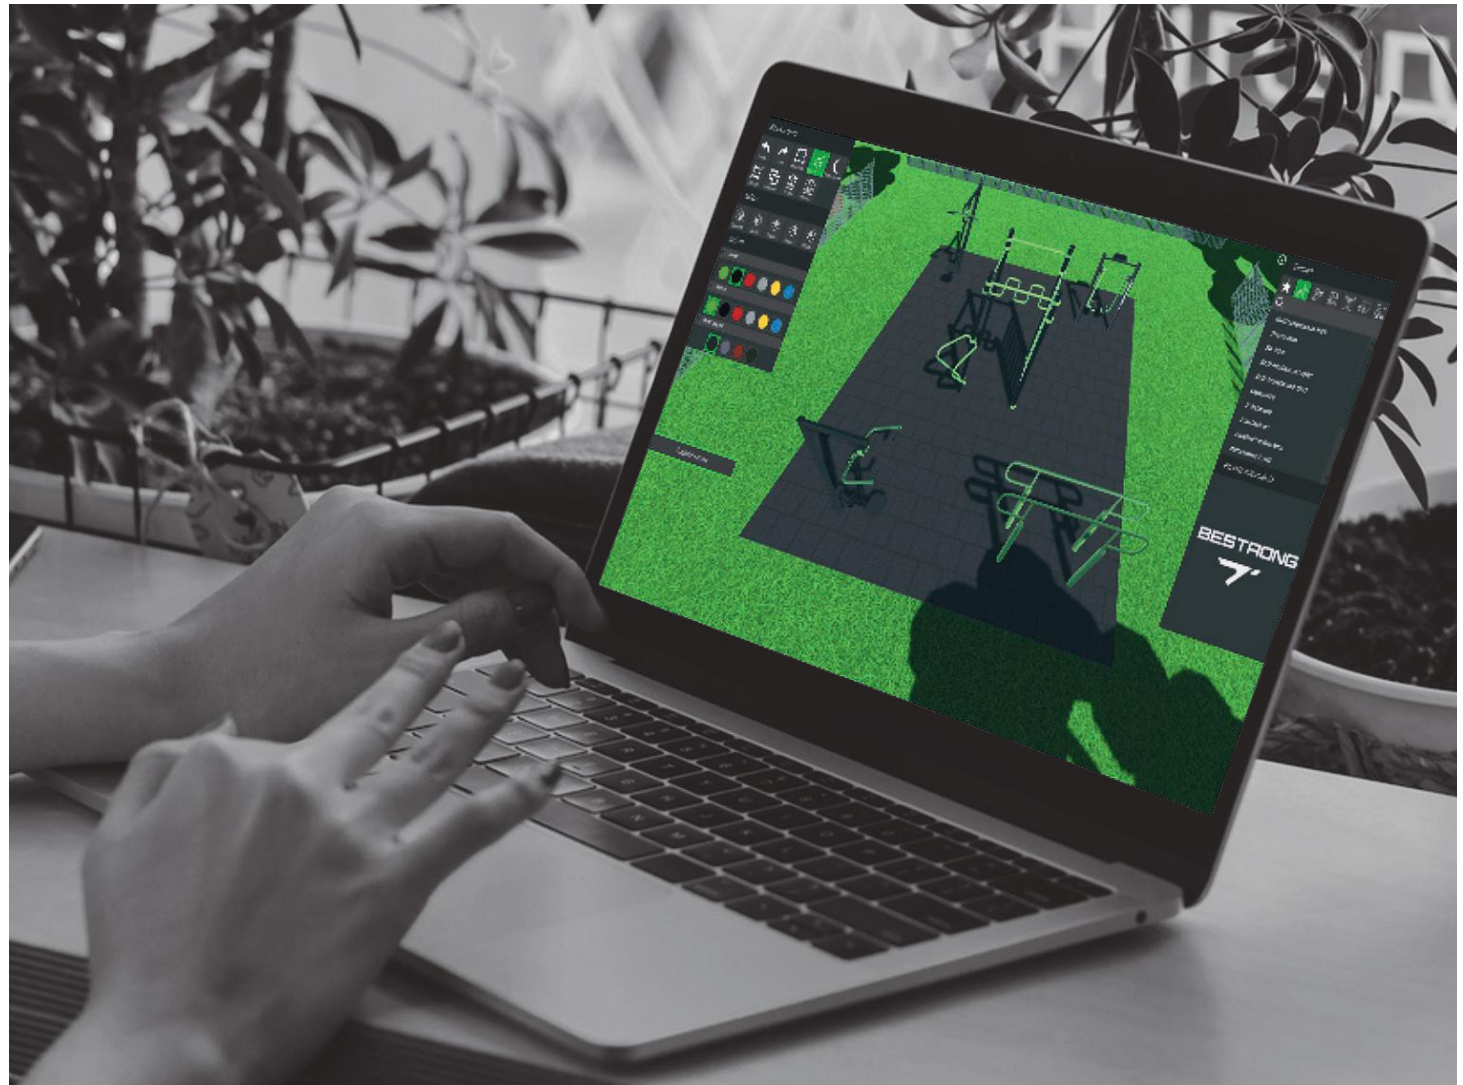

# DESIGN YOUR FITNESS PARK

Full support  
for your needs

BESTRONG 3D PLANNER is a user-friendly 3D software that enables you to design and visualize your very own outdoor fitness park with remarkable precision. Our complete array of sports equipment and accessories is at your disposal for custom design. High-quality 3D models can be viewed from various angles, freely combined, and colorized using the software. Craft your unique sports park with BESTRONG 3D PLANNER!

# CRAFTSMANSHIP

At our manufacturing facility, we employ state-of-the-art technology such as laser cutting, edge bending, and CNC machining to produce our sports equipment. Skilled technicians oversee welding operations with rigorous quality control.

The majority of surface treatments are conducted in-house. In addition to our shot blasting chambers, our facility houses a high-capacity powder coating unit and a solvent paint booth that complement the manufacturing process. We ensure corrosion protection through methods such as hot-dip galvanizing or EPD technology, a widely-used process in the automotive industry worldwide.

## INNOVATIVE

## PRODUCTION

Our foremost priority is to ensure that our products meet the highest standards of functionality, aesthetics, and safety. To achieve this, we maintain meticulous oversight of our manufacturing and quality control processes, which adhere to the MSZ EN ISO 9001:2015 standard, audited by TÜV SÜD.

Environmental preservation holds significant importance for us, and as such, our production and installation processes are aligned with the EN ISO 14001:2015 environmental management system standard.

# MATERIAL SPECIFICATION

At the end of the arms, the handle is rubber-coated for a more comfortable and secure grip.

The seats and backrests are made of strong HDPE material. Which is fully heat, moisture and UV resistant.

The top surface of the Lateral Plyo Box is covered with the highest quality non-slip HDPE.

The bumpers of the devices are made of durable rubber material.

The top surface of the device is covered with the highest quality non-slip HDPE.

The clamp system allows for easy assembly and extreme stability.

The top surface of the Balance Board Pro is covered with the highest quality non-slip HDPE.

The recreational and cardio devices are fitted with composite bearings that are weather-resistant. The bearing does not require regular maintenance.

The rope is fully heat, moisture and UV resistant.

The ends of the bars and posts are sealed with injection-moulded plastic caps.

Steel ropes with a 0.63" mm diameter, galvanized and sheathed in nylon, are joined using connectors made of plastic. These ropes are UV radiation, abrasion, and rot-resistant.

The device is equipped with an ergonomic non-slip HDPE phone holder for convenience.

The footrests are made of premium quality non-slip HDPE with a high wear resistance.

The element is made of high quality S235 steel, which has been cleaned via sandblasting. A corrosion resistant powder coating finish is then applied. Also available with galvanized surface for even greater protection and longevity!

The internal structure has 120 moveable plastic "bars". The levers are rubber-coated for a more comfortable grip and to prevent head injuries

# WARRANTY

---

**15-year** limited warranty on failures of steel elements and steel components due to material or manufacturing defects and **25 years** on structural integrity.

**10-year** limited warranty for defects in plastic HDPE components due to material or workmanship and **5 years** for defects in all other plastic components (except colour fading).

**5-year** limited warranty for significant corrosion of painted metal parts that inhibit the use of the equipment and **10 years** warranty for galvanized and cathodic painted steel parts.

**3-year** limited warranty on failure of all rubber based parts and **1 year** on rubber bumpers.

**2-year** limited warranty on powder coated paint integrity.

**2-year** limited warranty for bearings of moving elements.
