The image features a dark, textured background with three prominent, bright, out-of-focus light sources. One large, circular light source is positioned in the upper left quadrant, another slightly smaller one is in the upper right, and a third, more diffuse light source is visible in the top center. The overall effect is reminiscent of a night sky or a dimly lit interior with strong light sources.

HANDMADE
IN SPAIN
SINCE
1893

All Mariner Craftsmen contribute, using their individual expertise, to make sure that the final product responds to the philosophy that represents the spirit of the brand and its most traditional values: Quality, Beauty, Customization and Perfection.

These are values that are always present, no matter what the nature of the project, from a simple loft to the most spectacular and unique palaces. The Quality and beauty of MARINER products have been successfully tried and tested in a variety of markets on all five continents. The company's international profile was confirmed soon after it was founded in the 19th century, because by 1915 MARINER had already sold its products in various European countries and the Americas.

Design, passion and a great deal of craft. One thing that has never changed at Mariner in over a century is the commitment to a job well done. Our master craftsmen have been able to permanently pass on their great attention to detail and experience to each generation, combining the most traditional methods with modern manufacturing techniques and turning each project into an authentic work of art.

EXCLUSIVE & CUSTOMIZE DESIGN

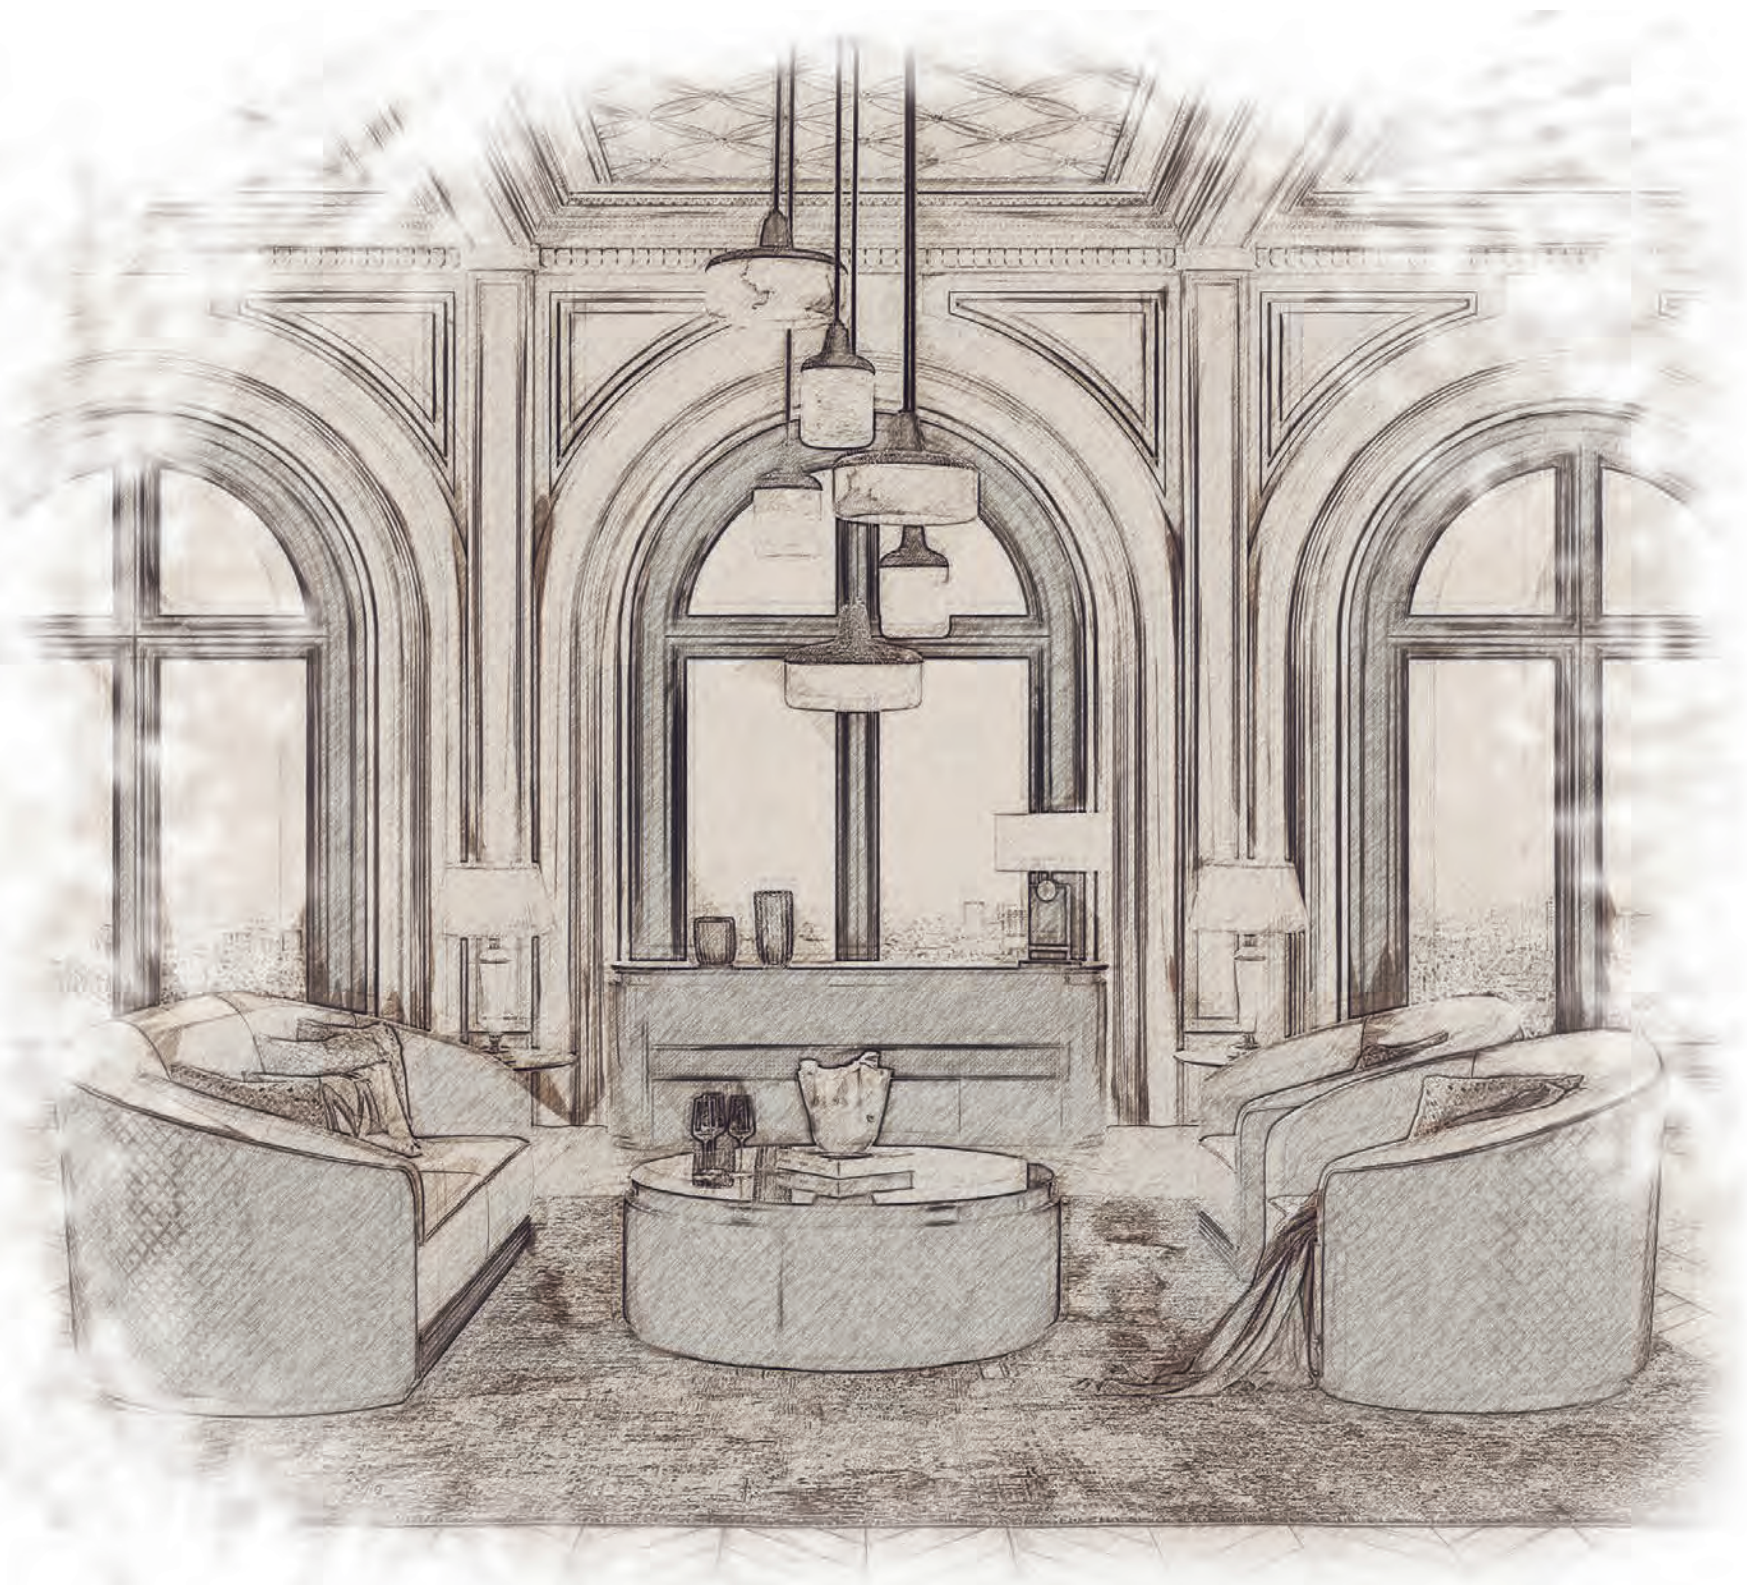

Each collection has more than 130 years of talent and passion in the creation of each one of its lighting pieces. All of them are the result of Mariner's design team.

For more than over a century, a constant in the history of the MARINER brand has been our passion for a well done job.

Our traditional craftsmen have been able to constantly transmit their experience and sensitiveness, generation after generation, combining traditional methods and modern production techniques thus converting every project into an authentic piece of art.

ALABASTER

The image features three lamps with cylindrical alabaster shades and dark, textured bases. The lamp on the left is partially visible, the one in the center is fully shown with a thin vertical stem, and the one on the right is partially visible. The alabaster shades have a warm, yellowish glow and some natural veining. The bases are dark and have a rough, organic texture. The background is dark, making the lamps stand out.

The background image shows a grand, classical interior. The ceiling is highly decorated with intricate carvings and moldings. Large, arched windows with dark frames are visible, looking out onto a night scene with silhouettes of trees. In the lower left, a brass chandelier with two lit candles hangs. In the lower center, a brass lamp with two black shades is visible. The overall color palette is warm, with beige, gold, and dark wood tones.
