NANO CHANNELING FACIAL

30 minute \$135
60 minute \$195 90 minute \$245

NANOCHANNELING FACIAL

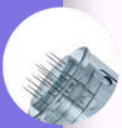

**Hydrating / Anti-wrinkle /
Tightening / Brightening**

This treatment creates nano channels in the skin allowing for 100% more absorption of skin products. It is non-invasive and painless and allows for active ingredients to penetrate the skin. It does this while stimulating collagen and elastin to repair damage from sun, dehydration as well as hyper-pigmentation, poor skin texture and uneven skin tone, wrinkles scarring and acne conditions. This is truly a revolutionary treatment. Based on your skin's needs a blend of serums will be added for the most powerful results.

What To Expect: The day after the skin will feel slightly sun or wind burned and there may be some light pink lines that typically fade within 24 hrs and may easily be covered with tinted sunscreen .

Benefits

- Micro-channeling dramatically boost the absorption and effectiveness of active ingredients
- Assist in awakening the skin collagen producing cell
- It can be used on all areas of the face, neck and decollete and around the delicate skin around the eyes and can also be used on the lips
- Can be used on all skin types

MICRONEEDLING FACIAL

Microneedling Facial 60min \$195
90min \$235

Microneedling is a non-surgical skin treatment that uses a small device with microneedles to create tiny punctures in the skin. This causes the skin to produce collagen and elastin, which can improve the appearance of fine lines, wrinkles, acne scars, and other skin concerns.

One of the most powerful, non-invasive resurfacing treatments available today!
Exclusive Oxygen Ceutical Skin Products

HydraBeauty Facial

The number one facial everyone is changing to. A vortex of special solutions and oxygen is power washed from a handheld piece on to the skin. A vacuum suction pulls out all the waste imperfections and the dead skin while simultaneously delivering powerful serums and those famous booster shots. HydraBeauty facial uses a multi-system of 12 different handheld pieces with different amazing effects and results.

**INSTANT
VISIBLE
RESULTS**

Refresh HydraBeauty 30min \$195

The 30-minute HydraBeauty is a quick and effective way to improve the appearance of your skin. During the treatment, a fine stream of water is used to exfoliate the skin, removing dead skin cells and revealing the fresh, new skin cells underneath. The treatment also helps to hydrate the skin and improve its overall appearance.

Essential+Booster HydraBeauty 60min \$235

The 60-minute HydraBeauty is a more comprehensive treatment that includes all of the benefits of the 30-minute treatment, plus additional steps to help improve the appearance of fine lines and wrinkles, age spots, and hyperpigmentation. The treatment also includes a deep cleansing and extraction, which helps to remove any clogged pores or blackheads.

Premier+Booster HydraBeauty 90min \$300

The 90-minute HydraBeauty is the most comprehensive treatment available. It includes all of the benefits of the 60-minute treatment, plus additional steps to help improve the appearance of sun damage, acne scarring, and rosacea. The treatment also includes a customized serum application, which helps to deliver targeted treatments to the deeper layers of the skin.

DERMAPLANING

30 MINUTE \$95
60 MINUTE \$195
90 MINUTE \$235

Dermaplaning is an exfoliation treatment that involves gently exfoliating the face with a medical-grade scalpel to remove the very top layer of skin. This removes both dead skin cells and the fine vellus hairs that are known as peach fuzz, leaving the surface of the face ultra smooth. By stimulating the development of new skin cells, this type of exfoliation helps new skin rise to the surface. It provides clients and patients a more youthful and smoother complexion.

STEM CELL AND LED LIGHT INFUSION FACIAL

Hydrating / Anti-wrinkle / Tightening /
Extraction / Brightening

60 minute \$195 90 minute \$235

This restorative facial gets complexions in touch with their inner porcelain. How? Watch skin thinning, crisscrossing fine lines and crepe-like texture become a thing of the past. Exfoliation, treatment mask and serum all feature a potent mélange of bioactive peptides and allied ingredients that penetrate to where they're needed to encourage the formation of new collagen, the skin's support structure that is the foundation of youthful elasticity. At the same time, liposome-encapsulated fruit stem cells plus lactic acid deliver a deep infusion of nourishing hydration.

LED light therapy works by stimulating the production of collagen and elastin, which are the proteins that give skin its strength and elasticity. It also helps to reduce inflammation and improve the skin's ability to absorb nutrients

Best done in a series or as a monthly anti-aging maintenance program as cumulative collagen synthesis builds over time.

MICRODERMABRASION FACIAL

Microdermabrasion Facial 60min \$195 90min \$235

Microdermabrasion is a cosmetic procedure that uses a handheld device to remove the top layer of dead skin cells from the face. This can help to improve the appearance of the skin by making it look smoother, brighter, and more radiant.

Microdermabrasion works by using a stream of fine particles, such as aluminum oxide or sodium bicarbonate, to gently sand away the top layer of dead skin cells. This exposes the fresh, new skin underneath, which can help to improve the appearance of fine lines, wrinkles, age spots, and sun damage. Microdermabrasion can also help to improve the texture of the skin and make it look more radiant.

Microdermabrasion can be done as a stand-alone treatment or in conjunction with other skincare treatments, such as chemical peels or laser treatments. It is a popular treatment for people of all ages and skin types.

Under 18-years/ Acne/ blackheads/ Uneven Skin Tone

60 minute \$150

Benefits

- Improves the appearance of fine lines and wrinkles
- Reduces the appearance of age spots
- Helps to clear up acne
- Reduces the appearance of hyperpigmentation
- Improves the skin's overall texture and tone
- Increases the skin's ability to absorb nutrients
- Is a safe and effective treatment for most people

PEEL SO EASY NO DOWN-TIME

33% GLYCOLIC PEEL (MOST POPULAR)

60 minute \$160

For all skin types

Gly Peel 33% provides improvement with the first treatment because it causes rapid exfoliation of epidermal cells, thereby loosening impactions, clarifying the complexion, and reducing scars, fine lines, and hyperpigmentation.

ZYME PEEL

60 minute \$160

For all skin types

Enzyme treatments may be performed with or without other exfoliation procedures. Zyme Peel Powder, when mixed with the Zyme Peel Activator, and steamed, softens sebum and dissolves keratin buildup. It eliminates dead cells, digests surface debris and reduces accumulated sebum deep in the pores, removing excess dry, flaky skin without irritating the epidermal tissue.

BETA PEEL

60 minute \$160

For all skin types

Strong anti-acne facial doubles up on the exfoliation to rid skin of both acne and sun damage (age spots, wrinkles, uneven texture). Following advanced enzyme technology with active salicylic acid this facial takes surface exfoliation to a new level (that is, a whole lot deeper). Sticky, hardened pore-clogging oils, debris and bacteria are swept away as unwanted pigment and textural irregularities are literally smoothed off the skin. Emptied of impurities, pores become more responsive to the healing and smoothing mask and serums to follow. Ideal for those with adult acne who are also concerned with aging issues. Not suitable for those who are allergic to aspirin.

SKIN LIGHTENING PEEL

60 minute \$160

For all skin types

A lactic acid peel is generally the safest exfoliation procedure for sensitive skin and those with hyperpigmentation because it is less drying and irritating. It is widely known for its ability to increase the water-holding capacity of the top layer of skin.

TCA TREATMENT

CONSULTATION REQUIRED

60 MINUTES \$210

This advanced treatment improves skin texture and reduces the appearance of fine lines, wrinkles, and sun damage. TCA, a proven anti-aging peeling agent, paired up with our skin rejuvenating Vitamin A Micro Peel Pro works synergistically to deliver progressive skin improvement.

This peel is ideal for clients who are concerned with the signs of aging, hyperpigmentation, acne scars, and texture problems. The results last longer than lighter AHA resurfacing peels. A series of three treatments, four to six weeks apart, is ideal.

NON-BOTOX FACIAL

All skin types / wrinkles / Lifting / Smoothing

An innovative deep exfoliation treatment using Glycolic Acid, Salicylic Acid, Lactic Acid and Citric Acid to loosen stubborn dead skin cells which cause the skin to appear dull and lifeless. By removing the dead cells, cellular renewal is stimulated encouraging healthier cells to be replaced, leaving the skin with a brighter, smoother and clearer appearance.

\$176

Double Peel available with HydraBeauty Facial

The Double Peel is formulated with the optimal AHA/BHA ratio to best exfoliate the skin without causing irritation or redness.

Glycolic Acid and Lactic Acid (AHA) exfoliate the skin while Salicylic Acid (BHA) melts sebum and oils to regulate sebum secretion and prevent skin troubles. Panthenol works to soothe and moisturize the skin.

Cupping Therapy

30 Minute \$95 60 Minute \$155
45 Minute \$115 90 Minute \$195

The technique of body cupping massage is designed for how gentle or deep you prefer. Static cupping is used to target deeper muscles. Your therapist will place silicone cups on the affected areas and leave them in one place from 3 minutes to 10 minutes. Discoloration marks will last from a couple of hours to a week, or not at all. This is just blood flow and toxins that have been released to the surface of the skin. This is not bruising but a normal, healthy cupping technique.

- Therapeutic, relaxing
- Stress, knots, tight muscles
- Sports injuries, tight joints
- Muscle tension and knots
- Poor circulation or lymphedema
- Swelling of the feet and ankles
- Sinus and headache relief
- Bloating, stomach cramps, constipation

Bamboo Fusion Warm Massage

Preparation

Tips for Pre-wax Prep

- The day of your appointment, your hair should be at least a ¼ inch long. This allows the wax to grip around the hair.
- First waxing its recommend not shaving for at least two-three weeks prior to your reservation.
- For Body wax don't use body oil the day of.
- Exfoliate the day before to help release ingrown hairs and dead skin.
- After your first wax, we suggest you wax every four to six weeks. (you can wax sooner but regrowth will be visible quicker)
- Try not to shave or nair between services for a cleaner and less painful wax service.

EYEBROW LAMINATION

\$125

Brow lamination is a two-step eyebrow perming treatment that involves correcting the brow shape by setting the hairs in place using a chemical solution. In the first step, a cream is applied that breaks down bonds in the eyebrow hairs so they can be manipulated into a new position. In the second step, another cream is applied to rebuild these bonds and set the brows in their new uniform position.

If you have unruly, flat or downward growing hairs, eyebrow lamination can change the direction of growth to create a more uniform look with a higher arch and a more desirable brow shape. Brow lamination lasts 4 to 6 weeks generally, with proper care allowing the brow treatment to last as long as 8 weeks.

SOFTAP EYEBROW

**Treat yourself to flawless expression--
without the pencil.**

Have you permanently lost hair in your eyebrows due to tweezing or shaving? Are you applying brow pencil everyday in order to compensate for this? Do you have problems drawing them on straight? Wouldn't you just love to get up every morning with perfectly shaped brows?

Well, now your wish can come true with SofTap® permanent cosmetics. If you are active and have a busy lifestyle, you will love the many advantages that permanent makeup has to offer. Not only will you have more time to do other things, you will feel wonderful knowing that you always look fabulous.

No matter what shape your brows are in now, permanent eyebrows can help you achieve anything from a subtle enhancement of color to a complete reconstruction of your existing eyebrow.

30 minute \$210

The Whiter Image Gel is an advanced 8% stabilized Hydrogen Peroxide paste that stays on the teeth evenly and starts working immediately. It also contains an accelerating agent to speed up the whitening process and essentially eliminates teeth sensitivity. When you combine the advanced whitening paste with L.E.D whitening blue light, you will soon experience whiter teeth in as little as 15 minutes. There have been numerous studies over the years showing that Hydrogen Peroxide teeth whitening systems are safe and effective. Each session is 15 minutes with new whitening trays.

More trays the whiter the teeth. Maximum 4

SPRAY TANNING

Full Face and Body \$115

Face and Neck \$65

Legs \$70

Great for all colors, shapes, sizes stretch marks and scar tissue. Perfect for that wedding day, special party or occasion. Venetian is developed with VIO-7™, a unique blend of anti-orange bronzer pigments, designed to counter an unwanted orange undertone for a natural-looking tan. It is the best-selling, proprietary sunless formula, as instant cosmetic bronzers with extended or rapid tans.

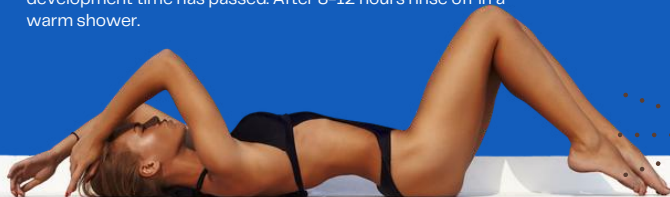

BEFORE & AFTER YOU TAN

Before: For exfoliation of extremely dead, dry skin cells we recommend exfoliating products (24–48) hours before a spray session. Hair removal the day before.

NOTE: Avoid using bar soaps, high pH shower products or in-shower moisturizers or any products containing petrolatum, petroleum jelly, mineral oils, or parabens. These products can neutralize the DHA bronzing reaction.

After: Avoid water contact and perspiration until development time has passed. After 8–12 hours rinse off in a warm shower.

Enquire at the front desk.

Other retail is available for tanning. Get a better longer lasting tan
