

The Lorimer Range

of Windows and Doors

CR SMITH
the difference

The difference is in *everything* we do.

Starting out over 50 years ago, Gerard Eadie committed that every customer is unique and deserves the utmost attention and care. This ethos, focusing not just on window replacement but on genuinely elevating the quality of people's homes, has been the cornerstone of the success of CR Smith.

Today, as a result of Gerard Eadie's vision, CR Smith stands as one of Scotland's most trusted names, with over one million windows installed across the nation and a passionate team of over 400 employees.

"At CR Smith, we recognise that your home is more than an asset - it's a haven of comfort, security, and personal expression. Our Lorimer windows and doors are designed not only for their aesthetic appeal but also for their energy efficiency and robust security, ensuring peace of mind and well-being."

We can confidently say *no one offers you more* than CR Smith...

Over 50 years of expertise

A legacy of exceptional craftsmanship, and decades of experience.

Made in Scotland, for Scottish homes

Bespoke products, manufactured locally to fit your specific needs.

In-house installation teams, refined by us

Expertly trained, and fully employed by us to uphold our exacting standards and commitment to quality in every project.

The Lorimer 10 year triple guarantee

Peace of mind in the quality of our products and service for ten years. Product, fitting, and security all guaranteed.

Unrivalled finance packages

Choose from our 0% Interest Free Credit or Buy Now, Pay Later finance options, each with a range of terms.

Beautiful interior finishes

From American hardwood to carefully curated paint colours.

Maximise the light in your home

The Lorimer range of windows offers Scotland's slimmest frames.

Lorimer

THE WINDOWS RANGE

There's a *perfect window* for every home.

The CR Smith Lorimer range has been developed to be uncompromising in every aspect of its performance, while maintaining a unique and attractive appearance. It is the market leader in terms of aesthetic, design, functionality and security.

How they make you feel is important too. We want you to be delighted with the finished appearance of your home and re-live the satisfaction you felt on the first day they were installed every time you come home.

All Lorimer windows and doors are carefully designed to add kerb appeal and match the period and style of your home while delivering innovative functionality.

The Lorimer casement window

Elegant, stylish and *very popular.*

The Lorimer casement window is our most popular and versatile style. From single panes to multiple openings, this window can include almost any combination of fixed and opening windows. Its slim shape gives the Lorimer casement an elegant and well proportioned look, which will make for an elegant, well proportioned home.

The sheer flexibility of this window means it can be designed with clean, modern lines, or more traditional features like astragals. It will complement the architecture of all house styles and its design means it will comply with Scottish building regulations.

**Scotland's slimmest
frame**

Maximum versatility

Wide range of styling

Get the look:

Graphite hardware and plant on astragals finished with royal oak timber sills and surrounds.

Don't just take our word for it...

A brighter home, without the upfront cost

Hear from our customers, Mr and Mrs MacKay, on how new Lorimer windows and flexible finance transformed their Knightswood home.

The MacKays' previous windows had thick frames that blocked natural light and glazing that no longer kept the heat in. They wanted a trusted solution that would refresh their home while improving energy efficiency.

They chose Lorimer casement windows with slim frames and balanced proportions to maximise light and create a clean, timeless look. Internally finished in white, the new windows brighten every room while reducing heat loss and improving ventilation.

For the MacKays, finance made the difference. Our low-rate package allowed them to spread the cost while enjoying a lighter, warmer, more comfortable home straight away.

Click here to watch this home transformation video on YouTube.

The Lorimer reversible window

The epitome of *grace & style.*

The Lorimer reversible window gets its name from its ability to swing outward through 180° and the clever, lightweight mechanism makes opening the window a real breeze.

It's perfect for first floor rooms and flats or kitchens and bathrooms where taps may prevent the window from opening inwards. Its design means you can easily open the window without disturbing your curtains, blinds or ornaments on your sill.

Additionally, it has an ingenious built-in restrictor and anti-slam hinges, meaning the window can be kept open in various points for ventilation and cleaning, and won't blow shut if the window catches in the wind.

180° rotation

Restrictor safety

Chamfered shape

Get the look:

Gold hardware finished with American cherry timber sill.

The Lorimer tilt & turn window

Practical and *beautiful.*

The Lorimer tilt and turn window is extremely practical in terms of functionality (and very descriptive in its name) but it also has a flexible, stylish design. Its simple lines mean it will look great in any home and can

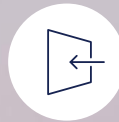

be styled with plant-on astragals or transom bars to complement both modern and traditional homes. The Lorimer tilt and turn window works particularly well upstairs and in flats.

Maximum opening

Easy cleaning

Easy fire exit

Get the look:

Chrome hardware finished with full natural ash timber sill and surrounds.

The Lorimer sliding sash window

Classic look with a *modern design.*

The Lorimer sliding sash double glazed window looks as beautiful and well proportioned as its timber sash and case predecessor, with many of the same features including a deep bottom rail and traditional ironmongery.

It is the only window that will perfectly match the traditional architecture where timber sash and case would have been the original windows.

Beneath its exquisite looks, function meets design with some ingenious engineering. But the real beauty of our sliding sash windows is that because they're low maintenance PVCu they don't require a lifetime of painting.

Traditional design

Double wool pile

Restrictor safety

Get the look:

Chrome hardware finished with full engineered white timber sill and surrounds.

Don't just take our word for it...

★ Trustpilot 

Warmth, comfort and affordability

Hear from our customers, Mr and Mrs Devlin, on how modern Lorimer windows transformed their traditional home with the help of our market-leading finance.

When the Devlins' moved into their early 1900s property it had draughty uPVC windows that were past their best. They wanted to retain the period character of their home but gain the benefits of modern energy efficiency. With Mrs Devlin being an interior designer, style was as important as performance.

Click here to watch this home transformation video on YouTube.

They chose Lorimer sliding sash windows with authentic detailing paired with modern and sleek TimberLuxe French doors. All finished in anthracite grey, the design adds a contemporary twist while improving insulation and security.

For the Devlins, our finance options sealed the deal. The interest-free package meant they could keep money in the bank while upgrading their home with 'A' rated, beautiful new windows and doors.

“It’s created a real sense of warmth in the house and reduced our utility bills.”

- Mrs Devlin

Styling
LORIMER WINDOWS

Beautiful windows deserve *a beautiful finish.*

The ultimate choice for the
internal finish of your Lorimer
windows.

CR Smith offers a premium selection of
American hardwood timber finishes including
royal oak, American cherry and natural ash.
All are crafted by our highly skilled joiners to
ensure a perfect finish.

Our choice of timbers, combined with expert
craftsmanship, brings unmatched elegance to
your home.

As an alternative to our American timbers we
can offer a bright white finish to complement
a sleek, minimalist interior.

The difference is interior styling.

Choosing the *perfect finish.*

At CR Smith, we pride ourselves on offering an exquisite selection of American hardwood timber finishes, meticulously curated to enhance the beauty and warmth of your home.

Our collection, featuring royal oak, American cherry, natural ash, and engineered white finishes, represents the ultimate in luxury and natural elegance.

Full finish

Traditional style timber finish including sill, apron, facings, and ingoes.

Trim finish

The difference is kerb appeal.

Elevate the *style* of your home.

We believe new windows and doors will make the biggest difference to the appearance of your home and how it is presented to the world - more than anything else you could do. Choosing the right style and finish is one of the most important decisions you'll make, to ensure they enhance its exterior.

All Lorimer windows are carefully designed to add kerb appeal and match your home's period and style while delivering innovative functionality. Our design consultants are on hand to advise you on style, colour and function when choosing the right windows to help bring out the best in the exterior of your home.

Available in white, American light oak, rosewood, and anthracite grey.

Manufacturing

LORIMER WINDOWS

Made in Scotland for *Scottish homes.*

Most of the Lorimer range is built here in Scotland using the best of Scottish manufacturing skills combined with the finest machinery. For certain specialist products, we work with hand-picked suppliers so we provide only the best home improvements for you.

Our latest investment of over £3 million in new machinery and equipment means that the products we manufacture continue to be the best we can build and a solid investment for you and your home.

This is why we offer our industry-leading comprehensive and fully transferable 10-year triple guarantee across the full Lorimer range.

The difference is precision

Made to *measure* not made to fit.

Comprehensive fitting instructions and extensive training is given to all our joiners, who are fully qualified and time served, not unskilled 'window fitters'.

Every Lorimer window is precision manufactured and installed into the opening. The meticulous measurements taken during our survey ensures a snug fit and any minor gaps are sealed to enhance weather resistance and thermal efficiency. Every screw is countersunk to get a flush and neat finish.

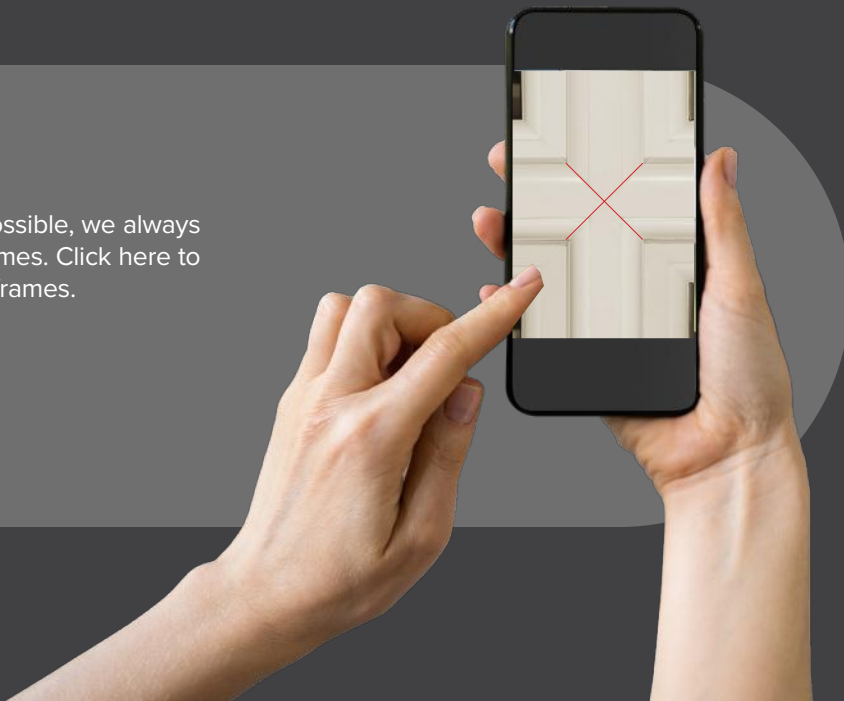

All the hardware is inspected and adjusted, as required, to ensure smooth operation of the window. The internal timber sills and surrounds are hand-finished to our 'perfect finish' standards. Where possible this provides a symmetrical appearance around the window, ensuring an even display of the outer frame.

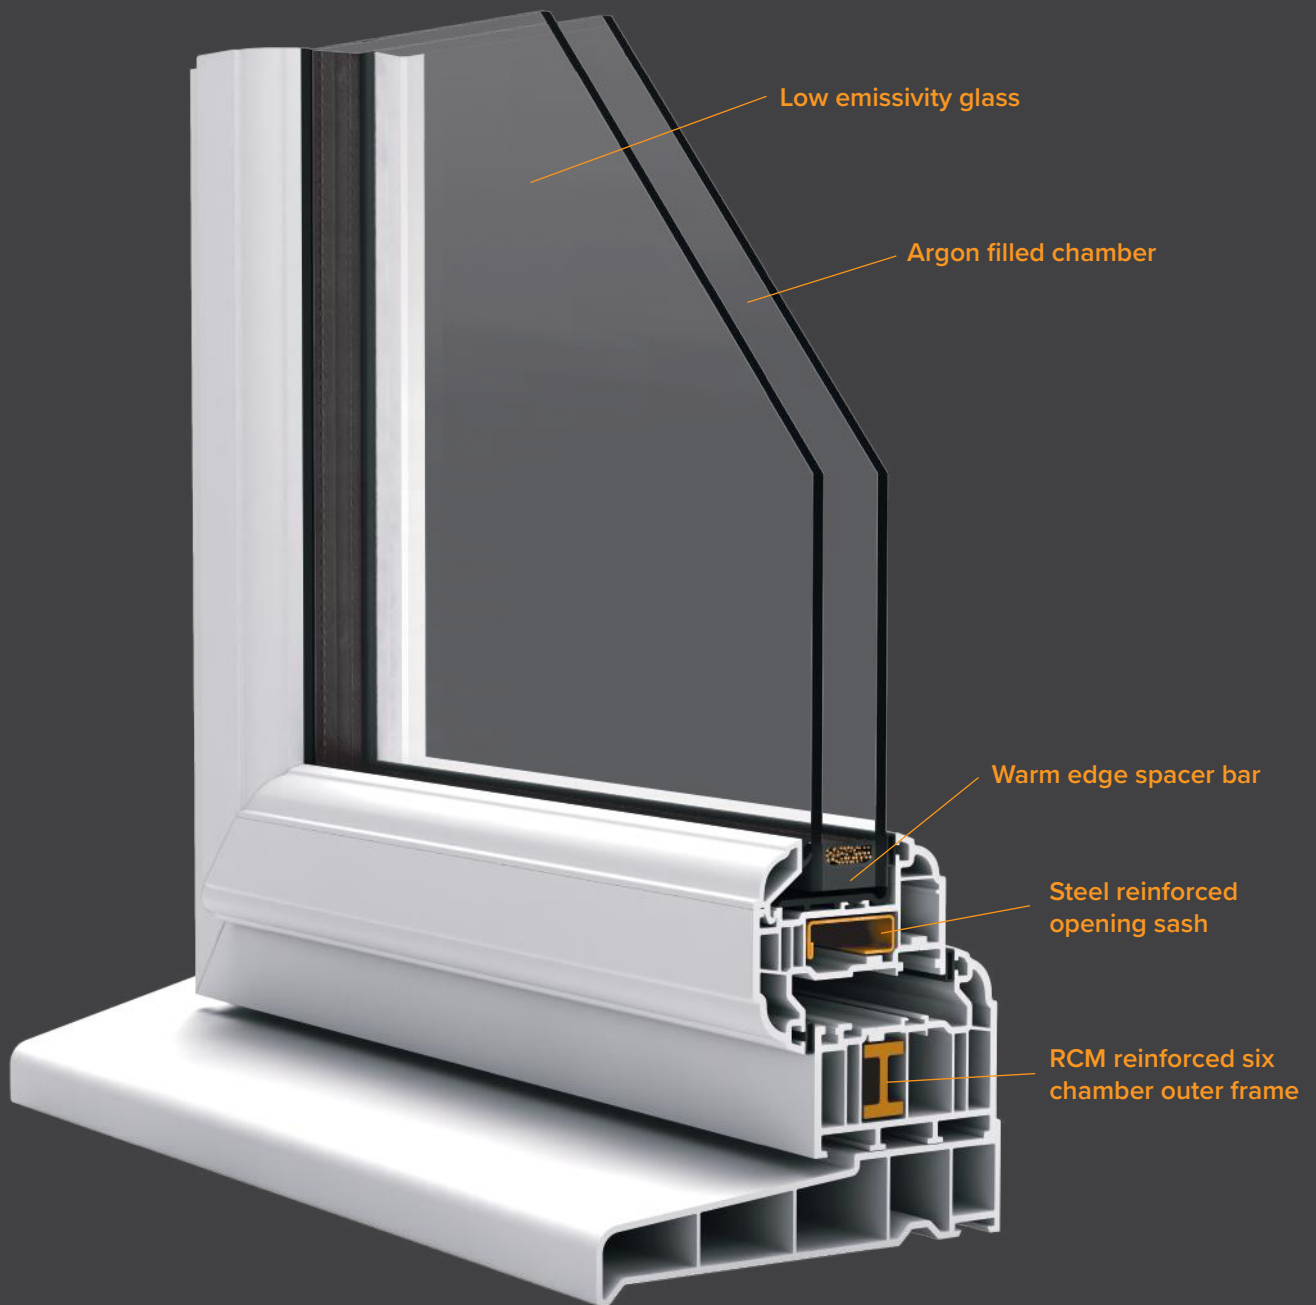

See the difference...

For the best appearance, where possible, we always recommend mechanical jointed frames. Click here to discover the benefits over welded frames.

Watch Now

Lorimer & TimberLuxe®
RANGE OF DOORS

Nothing says *welcome home* better.

Whether you need a front or back door, French or patio doors, we'll have a door style to suit.

As well as our Lorimer range of uPVC doors, we also offer beautifully engineered timber doors in our TimberLuxe collection. All our doors are bespoke and made-to-measure, so you can give your home a truly personalised look, to suit your individual taste and style.

Our Lorimer doors are available in the same colours to match the Lorimer window range and the TimberLuxe door has a selection of 19 colours to choose from. Each has a multi-point locking system and our unique 10-year CR Smith triple guarantee.
a sleek, minimalist interior.

The Lorimer range of PVC doors

Modern function with a *classic style.*

The Lorimer range of PVCu doors has been specially designed to complement our Lorimer window, with its unique contoured shape and elegant sight lines. Plus, the doors have a range of security features and accreditations, including British Standards PAS24 and Secured by Design, which means they not only look great but are very secure.

With the addition of side screens and fanlights, you can design your door to your exact requirements, as well as choosing from a wide range of decorative features to achieve a unique, characterful look. Whether it's a front or back door, French or patio doors, the Lorimer PVCu range will have an option and colour to suit your home and needs.

Secure & Efficient

Engineered strength

Designed for Scotland

Single doors

The Lorimer range of PVCu doors is extremely flexible and can be single, French or patio in design.

Maintain your privacy with a solid door, transform a dark hallway with a full glass door or opt for a partially glazed door to enjoy the best of both. Available in the same range of colours as our Lorimer window, the Lorimer door can also incorporate details like obscure, stained, bevelled and leaded glass.

The following illustrations are for reference only to demonstrate door styles.

Your door, your way

Our product experts will guide you through our bespoke design software, creating a personalised image of your perfect door.

Features

Door panel construction

Panels are manufactured using two PVCu skins which are pressure bonded to a specially formulated core and MDF reinforcement which provides a high degree of thermal efficiency and security.

Structural strength

For structural strength, all Lorimer doors are fitted with a combination of steel, aluminium and RCM reinforcement.

Slim sight lines

Lorimer doors feature a discreet, slim hinge that is unobtrusive in appearance and colour-coded to match your new door.

Glass options

Your door can be designed with clear or obscure glass, or you can choose a decorative design, including leaded, sandblasted, bevelled, brilliant cut and stained options.

Security

The Lorimer door has a multi-point, high-security system with a tandem bolt, offering a superior locking solution for PVCu doors. It includes five lock and latch features two bi-directional parrot hooks, two deadbolts and a centre hook.

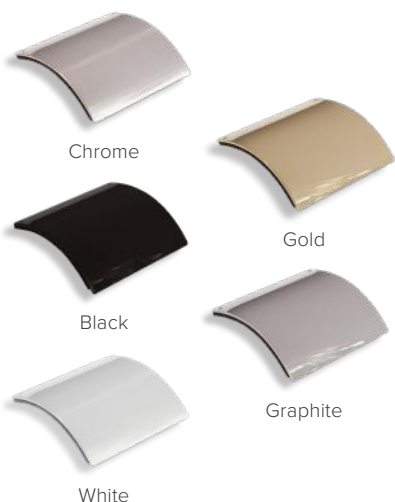

All Lorimer doors feature an advanced 3-star security cylinder which offers maximum protection and safeguards the lock from all forced methods of attack and includes anti-pick, anti-bump, anti-drill and anti-snap technology.

Finishes

In addition to our white finish, Lorimer PVCu doors can also be foiled in rosewood, anthracite grey and American light oak wood grains. They can have a matching wood grain finish on the inside or, if you want to make the most of the light in your room, you can choose white instead. Anthracite grey is only available with white inside.

TimberLuxe[®]

Durability and *distinction.*

TimberLuxe is an industry leading, engineered laminate timber core door that combines classical or contemporary styling with a range of multi-point locking options to provide a stunning, high quality and secure entrance to any home.

Each unique engineered timber core is completely encapsulated within a highly durable PVCu edge banding with a heat reflective door skin, so you will never have to worry about painting or varnishing your TimberLuxe door.

Available in an unrivalled range of styles and colours across our Classic, Country and Urban collections, they are also available as stable doors and French doors. They can be styled with a PVCu sidescreen, engineered timber side panel or fanlight to complement the look of any property.

Design Your Door

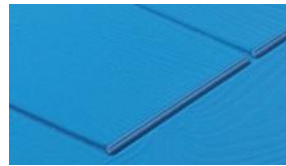

Colours

TimberLuxe doors are available in your choice of 19 different colours, with the option to choose an alternative colour for the exterior and interior of your door. Most of our customers choose a white finish on the inside to maximise light in their home.

Externally, the outer frame of your door can be finished in seven different options, denoted by the *.

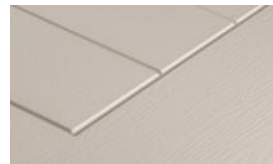

The inside of the door frame is always smooth white PVCu (not wood grain) and the exterior white option is also smooth white PVCu. The coloured external outer frame options have a wood grain finish.

Features

Solid to the core

The core of a TimberLuxe® door is made up of 17 crossed layers of engineered timber, giving them unrivalled strength and a reassuring feel of quality. Choose a TimberLuxe door to make would-be burglars think twice.

Hard wearing door skin

CoolSkin technology used to produce the TimberLuxe door skin offers a beautiful woodgrain texture, whilst protecting against fading, cracking and warping.

Built to last

Every TimberLuxe door is made with an integrated Moisture Barrier Strip at the foot of the door. This unique feature means that the timber core of a TimberLuxe door is protected from water ingress, minimising the risk of warping and swelling.

Security

Every one of our TimberLuxe doors is supplied with the innovative ABS ultimate high security locking cylinder, one of the most secure locking cylinders in the UK. The clever locking system of the ABS Ultimate knows when it's being attacked, with a hidden locking mechanism that automatically engages to stop would-be burglars in their tracks.

Furthermore, the cylinder features a sacrificial cut so should a would-be burglar try to snap the lock. When the front is grabbed the end of the cylinder just snaps off, leaving more metal in front of the central locking mechanism as protection.

Having been tested to Sold Secure 'Diamond Grade' standards, the ABS ultimate locking cylinder has achieved a level of security that far surpasses other locking cylinders on the market.

Why choose TimberLuxe®?

1

PVCu door frame

Our door frames are reinforced with RCM making them strong, secure and energy efficient.

2

Toughened and laminated glazing

Our range of stylish decorative glazing has been toughened and laminated, offering the best in security whilst also looking beautiful.

3

High security multi-point locking system

Our locking systems are tested to Secured By Design and PAS 24 security standards.

4

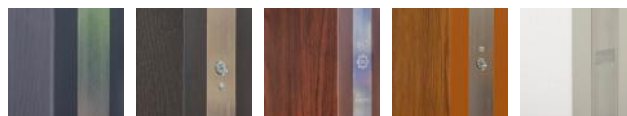

Hardware accessories

Our hardware accessories have been rigorously tested to ensure their durability - so you can count on them to look great for years to come.

5

Edge banding

Discretely wraps around the front edge of your door to protect the engineered timber core from exposure to the elements.

Available through our third-party lenders, you can tailor your finance package to suit your home improvement budget, with rates better than most banks and building societies.

Market leading finance

Invest in your home with *flexible* finance options designed around you.

Choose from a deferred plan with no deposit or interest-free credit. With rates better than most banks and building societies, our packages make it easier to upgrade your home while staying in control of your budget.

Option 1

Order now, pay 2027

Enjoy your new windows and doors now, then start paying in 12 months. Our APR starts at just 3.9%, with a flat rate from 1.59%, depending on your loan amount and term.

3.9% APR

- Defer your payments for 12 months
- Order now with no deposit required
- Terms available from 24-54 months

Option 2

Interest-free credit

Borrow between 70% and 100% of the contract price with no interest and no hidden charges. Terms available from 12-30 months with no deposit and up to 48 months with staged payments.

0% APR

- Staged payments based on term
- Repay with zero interest
- Terms available from 12-48 months

Why choose finance with CR Smith?

Make overpayments or pay off early with no added charges.

You get the rate as shown, we don't use headline rates.

Budget with confidence, knowing fixed payment rates are in place.

Representative example: Total Price: £7,000. Deposit: £0. Amount of credit: £7,000. Interest rate p.a: 1.59%. Representative APR: 2.9%. Total term: 66 months. Deferred period: 6 months. 60 monthly payments: £126.88. Total amount payable: £7,612.80. CR Smith Glaziers (Dunfermline) Limited acts as a credit broker and is authorised and regulated by the Financial Conduct Authority. The credit advertised is provided by a panel of lenders with whom we have a commercial relationship.

With buy now pay later finance the interest is calculated from the start of the agreement, which means interest will accrue during the holiday period. Deferral commences on the date of purchase. Credit is subject to status and affordability. CR Smith is a credit broker and not a lender, and is authorised and regulated by the Financial Conduct Authority. Credit is provided by a panel of lenders with whom we have a commercial relationship (so we cannot provide independent advice).

“Careful, thorough and *attentive to detail.*”

Hear from Mr & Mrs Coates, on how their Lorimer windows transformed a home for future generations.

Facing the need to accommodate future changes in their family dynamics, the Coates sought to enhance their new residence to make it more suitable and comfortable. Having had a CR Smith orangerie at their last home, they once again turned to the trusted company to upgrade the windows in their new home.

The Coates needed to integrate high-quality, modern windows into their house that would not only complement its existing architecture but also improve its thermal efficiency. The challenge was to ensure these installations matched the aesthetic of the home while providing the functionality needed for a comfortable living environment.

[Watch Now](#)

Our no quibble guarantee is in its 5th generation.

Lorimer 10-year emergency call-out service

We're available 24/7, 365 days a year, so we'll always be there when you need us most.

Lorimer 10-year security guarantee

We will replace any window or door, free of charge, should someone illegally gain entry.

Lorimer Building Regulations certificate

We meet the exacting standards of Building Regulations (Scotland) for all windows and doors at the time of installation, most importantly for safety glass, safe cleaning, protective barriers, and emergency escape windows.

Health and Safety

We conduct a site specific risk assessment of every customer's home to ensure safety at all times for our tradespeople and to protect you.

The difference is expertise.

Making *the difference* in our communities.

CR Smith has always been about more than windows and doors. We back initiatives that give people a start in life, recognise those who give the most, and support projects that bring lasting change. It's our way of giving something back and helping to build stronger communities across Scotland.

Apprenticeship Programme

In partnership with Fife College, we train the next generation of Scottish tradespeople, keeping traditional skills alive and investing in the future.

Hand Picked

Working with local employers to give young people valuable experience and the opportunity to build a strong start in their careers.

NHS Staff Benefits

As a thank you for their vital work, we provide exclusive discounts to NHS staff across Scotland, recognising their commitment and contribution every day.

Social Bite Village

We supplied all the windows and doors for the first Social Bite Village, supporting people affected by homelessness and creating safe, welcoming spaces.

Proud to support

The Shoot Charitable Trust

The Shoot Charitable Trust was founded in 2001 by CR Smith Chairman, Gerard Eadie CBE, and has grown into a major annual fundraising event. Since then, it has raised over £4.75 million for vital causes, from national charities such as Maggie’s, MND Scotland, Breakthrough T1D and Beatson Brain Tumour Research, to smaller community projects through the Shoot Community Fund.

Each August, more than 400 guests gather at Auchterhouse Country Sports for a day of clay shooting, entertainment, and fundraising. The event is now a firm fixture in Scotland’s social calendar, combining sport, hospitality, and generosity to deliver life-changing support where it is needed most.

If now isn't the time to replace your windows or doors, why don't you refurbish them instead?

Whether you have misted double glazing, difficult doors, a leaking conservatory, or just a niggling problem like a loose handle, our trained technicians are fully equipped to repair, replace or upgrade.

It doesn't matter who fitted them or how old your products are – we can help put the value back in your home.

Whoever fitted it, we can *FIX it!*

- ✔ Misted or broken glass
- ✔ Draught proofing
- ✔ Handles, hinges, and locks
- ✔ Door repair and security upgrades
- ✔ Replacement sills and surrounds
- ✔ Gutters and rainwater goods
