BECAUSE STANDARD IS FOR EVERYONE ELSE.

FORWARD

You're receiving this because your clients expect originality, discretion and delivery without friction.

Artisan Collective supports elite concierge teams worldwide in sourcing and commissioning exceptional British art, sculpture and design for private clients, estates, yachts, jets, hospitality and architectural projects.

The Collective brings together over 150 leading independent creators, personally invited for the quality and range of works available - from intimate pieces to six-figure statements.

You access that network through one clear route, without having to build and manage those relationships individually.

We assess briefs early, test feasibility before anything reaches your client, and are clear when something is not achievable within the realities of time, budget or logistics.

That protects your time, your workload and your client relationships.

SIMPLIFYING THE PROCESS

Great art and design define environments.

But sourcing them can be time-intensive, fragmented and high-risk when deadlines are tight and expectations are high.

Artisan Collective exists to simplify that process for concierge teams.

We reduce research time, filter options early and present only work that fits the realities of budget, site, logistics and delivery from the outset.

No inflated pricing.
No vague timelines.
No surprises.

Work chosen carefully for the brief and delivered as agreed.
If a piece resonates, we help you move forward quickly.

HOW WE WORK

Sourcing high-value work should feel calm and controlled.

I've spent 35 years selling and overseeing six and seven-figure commercial projects, and that experience shapes how we run every brief.

We start with your brief

Budget, site, timelines, logistics and client expectations.

Early feasibility

We speak to the right creators before anything reaches your client.

Curated proposals

Single works or multiple options presented together in one clear, concise document with defined pricing, timelines and next steps. These can be client-facing and dual-branded if required and produced quickly to match your pace.

Transparent delivery

Pricing, production schedules and logistics confirmed upfront.

One point of contact

We manage the process end-to-end, so your team doesn't have to.

BESPOKE COMMISSIONS

Some clients know exactly what they want.
Others need something created specifically for them.

We translate ambitious briefs into considered, buildable commissions - from sculptural statements to architectural installations and bespoke design works.

**You define the vision.
We co-ordinate the creators.
In partnership, from brief through to installation.**

If a brief isn't achievable within the realities of budget, engineering or site constraints, we say so early and propose alternatives that are.

This keeps projects moving and avoids problems later.

LET'S TALK

After 35 years selling and overseeing six and seven-figure commercial projects, I set out to build something calmer, more transparent and focused on long-term relationships.

Deadlines matter.
Communication matters.
Reputation matters.

For concierge teams, that means fewer variables, cleaner decisions and a partner who understands what's at stake for your clients and your reputation.

Let's talk if you have a brief or a client who expects something exceptional.
