Sunglasses by photographers.

**Imagined on a road trip through the Scottish Highlands,
Tens was conceived by three photographers experimenting
with lens filters designed to transform dull, muted
landscapes to images rich in emotion, colour and warmth.**

Tens are far from just protection from the sun. Our unique lens filters are combined with the highest quality materials, to take you out of the mundane and enhance your view of the world. Inspired by photography, film and travel, Tens are less about how you look while wearing them, but more so what you see and how they make you feel.

Proudly designed from the ground up at home in Scotland, we work with development partners in France, Italy and Hong Kong to bring you eyewear collections of the highest quality, value and style. Dedicated to the incredible community of friends we have gathered from all corners of the globe; to those who pride themselves in seeing things differently.

LENS EXPERIENCE: **ORIGINAL**

“Tens enhance your field of view to the extent that a clunky device never could. In a sense, they’re Instagram to the second power”

VICE

BOULEVARD

UNUSUAL, BUT MOST DEFINITELY WEARABLE

Inspired by late night drives and early morning sunrises in Los Angeles, Boulevard is an unconventional visual experience delivering a subtle and pleasing immersion of magenta and violet blue hues. Reminiscent of being a character in a gritty, neo-noir cinema classic, Boulevard comes to life at sunrise and sunset.

**“Turn any outdoor adventure into
a trip down Hollywood Boulevard”**

GQ

A photograph of a tropical scene. In the foreground, a large, dark green banana leaf with prominent veins is curved across the frame. Below it, a lighter green leaf shows some yellowing and damage. In the background, several palm trees are visible against a bright, clear blue sky. A strong light source in the upper right corner creates a lens flare and casts a soft glow over the scene.

TROPIC HIGH

ESCAPE TO PARADISE

Tropic High delivers a nostalgia inducing and uplifting lens tint, featuring rich golden tones that blend seamlessly into a mood enhancing viridescent. A stunning lens that is versatile in wall-to-wall sunshine and flat light conditions. Escape to a poolside paradise no matter your surroundings.

**“Nostalgia tinted vibes of not-
forgotten summers”**

WIRED

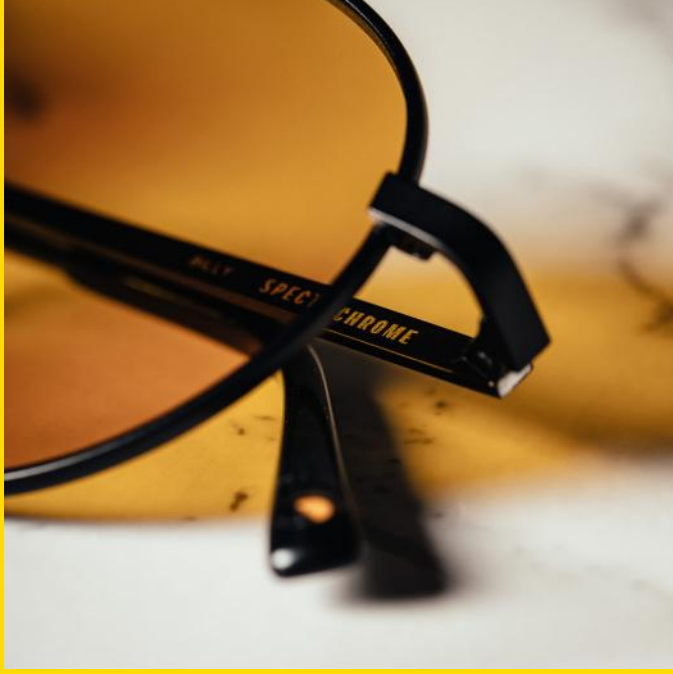

SPECTACHROME

DELIVERING A MESMERISING COLOUR SHIFT

Inspired by the distinct colour palette of Wes Anderson films such as "Moonrise Kingdom", Spectachrome combines rich emerald greens with accentuated citron tones. The ideal lens for flat-light conditions and urban environments, Spectachrome will transport the user to a whimsical world of vintage and celluloid film. It has to be worn to be believed.

**“Anyone who’s wondered what
real life might look like through the
whimsical technicolour tinge of a Wes
Anderson film may have a chance to
find out”**
