About our company

Analco Auxiliar Calzado

We are a company passionate about manufacturing soles, footbeds and sheets for footwear since 1970. From our beginnings, we have paid special attention to the needs of the industry, becoming the European leader in the manufacturing and sale of footwear components, covering almost all existing materials in the market.

Don't you know us yet?

1.

We manufacture in Spain

Proudly rooted in Elche, we offer products crafted with the craftsmanship and dedication of our land.

2.

High quality

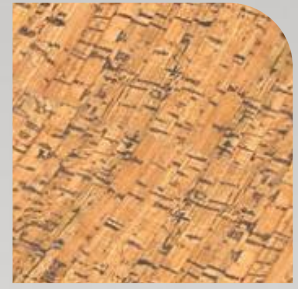

Every product that carries our brand is the result of a rigorous material selection process and meticulous quality control

3.

Customization

Our extensive experience and ability to work with a variety of materials and finishes allow us to customize the needs of each customer.

RUBBER-CORK FOOTBEDS

Rubber-cork footbeds are an ideal solution for the design and manufacturing of footwear, combining innovation, functionality and sustainability. This unique material, composed of blend of rubber and natural cork, offers exceptional properties that make it stand out in the footwear industry.

Characteristics	Description
Material	Blend of rubber and natural cork.
Properties	Impact absorption, flexibility and wear resistance.
Comfort	Adapts to the shape of the foot, providing ergonomic support.
Durability	Long-lasting even with intensive use.
Sustainability	Made from natural cork, a renewable and biodegradable material.
Thermal resistance	Provides thermal insulation, keeping feet cool or warm depending on the climate.
Moisture absorption	Cork helps absorb and regulate moisture, keeping feet dry.
Customization	Available in various thickness, sizes and finishes to suit different types of footwear.
Compatibility	Ideal for casual, technical, sports and high-heeled footwear.
Models available	Normal and with high heel (for high-heel shoes).
Certifications	Optional: Sustainability or quality certificates (if applicable).

Basic features of rubber-cork

Our basic line of rubber-cork models offers versatility and performance for a wide range of footwear needs. All footbeds are designed to provide a perfect fit and maintain their shape over time.
