Our basketball hoops are designed with a curved shape, available in white color, and coated with weather-resistant fiberglass plastic. The basketball hoop is positioned at the official NBA height.

The MUGA is made of high-quality S235 steel, featuring vandal-proof stainless steel screws and nuts. It undergoes sandblasting for cleaning and receives a corrosion-resistant powder coating finish. Additionally, a galvanized surface option is available for enhanced protection and longevity.

Our MUGA features reinforced base plates fixed to a concrete base, ensuring stability and durability. This design can withstand intense sports activities, maintaining its structural integrity due to the solid foundation provided by the concrete base and the added strength of the reinforced base plates.
