SUPER CREATOR | 8+

This series is a small departure from the normal Robotime DIY Miniature House sets as the walls and accessories are made from plastic materials. The result is still a detailed house but the building time is shorter so you will have a completed project quicker. You will end up with a great looking house and check out the optional windows and roof making them dustproof. The biggest feature of the Super Creator series is the ability to attach and stack houses. Create your own condominium or row house. Add miniature figures for that final lived-in touch!

Enjoy building the dream corner.

Blind Box Dolls refer to the doll in the box and consumers can not know the specific product style in advance. Therefore, it is like a surprise to open the box like opening a gift. Usually, there are basic and hidden styles that have different probabilities to get.

Nanci is a charming girl who always has twin buns, her eyes closed, her head tilted, and a big bubble of snot coming out of her nose. She always maintains her curiosity about the world, holding onto her precious childlike innocence, and is filled with kindness and a belief in goodness. Her adorable and gentle nature continuously radiates warmth, healing, love, and peace to the world around her.

Suri is a little fairy. Her long ears and adorable button nose are signature features. Beneath the dazzling and beautiful appearance, she carries a curious heart, full of expectations for the world. With a positive and optimistic attitude, she conveys poetic beauty to the world.
