## SUPER CREATOR | 8+

This series is a small departure from the normal Robotime DIY Miniature House sets as the walls and accessories are made from plastic materials. The result is still a detailed house but the building time is shorter so you will have a completed project quicker. You will end up with a great looking house and check out the optional windows and roof making them dustproof. The biggest feature of the Super Creator series is the ability to attach and stack houses. Create your own condominium or row house. Add miniature figures for that final lived-in touch!

Enjoy building the dream corner.
