

FUTURE READY SERIES

No prep, downloadable and printable lessons!

Theme:

Overview:

AI Literacy: Understanding AI with a Critical Eye

Gives educators with age-appropriate lessons on how AI works, its uses, and its challenges.

Critical Thinking: Building Healthy Decision-Making Skills

Focuses on essential themes like asking deeper questions, spotting bias, avoiding thinking traps, making healthy choices, and practicing reflection.

Emotional Intelligence

Helps students understand emotions, manage frustration and stress, and practice calming techniques like mindfulness and positive self-talk.

Digital Citizenship and Literacy

Guides students in being safe, smart, and responsible online. Themes include protecting privacy, recognizing reliable information, practicing respectful communication, & more.

Friendships and Healthy Relationships

Explores what makes relationships supportive and respectful. Themes include setting healthy boundaries, resolving conflict, and showing kindness.

Resiliency and Perseverance

Empowers students to face challenges with determination and perseverance. Themes include overcoming setbacks, embracing mistakes as learning opportunities, & more.

Mental Well-being and Self-Care

Supports students in maintaining balance and well-being. Themes include stress management, healthy routines, positive self-talk, and coping with anxiety.

Time Management and Executive Functioning

Equips students with strategies to plan, prioritize, and stay focused. Themes include setting goals, creating routines, avoiding procrastination, and managing distractions.

Communication and Leadership

Helps students build confidence in sharing ideas and guiding others. Themes include active listening, clear expression, persuasion, and collaboration.

Teamwork and Collaboration

Teaches students how to work effectively with others. Themes include cooperation, valuing diverse perspectives, conflict resolution, and shared responsibility.

NEW
