## Quick Tips:

► **Cover means card stock (thick paper).**

Book or Text means paper (not as thick as card stock.)

► High Gloss UV is a high gloss coating, Aqueous is a glossy coating, and Matte Finish is a non-glossy, flat finish.

► You cannot write or print on High Gloss UV-coated stocks, and we do not guarantee that you will be able to write on Aqueous-coated stocks.

► We do not recommend using heavy, dark ink on uncoated stocks due to offsetting.

► Glossy stocks provide brighter colors, whereas dull and uncoated stocks provide softer colors.

► C2S indicates gloss coated on two sides.

## Supplies for Home or Onsite Workplaces

Research shows work-from-home policies will become permanent for many and others will continue working remotely for at least the long-term.

Replenish key office supplies like letterhead and envelopes for day-to-day communications.

Update business cards, stamps and address labels with current contact information and correct mailing address.

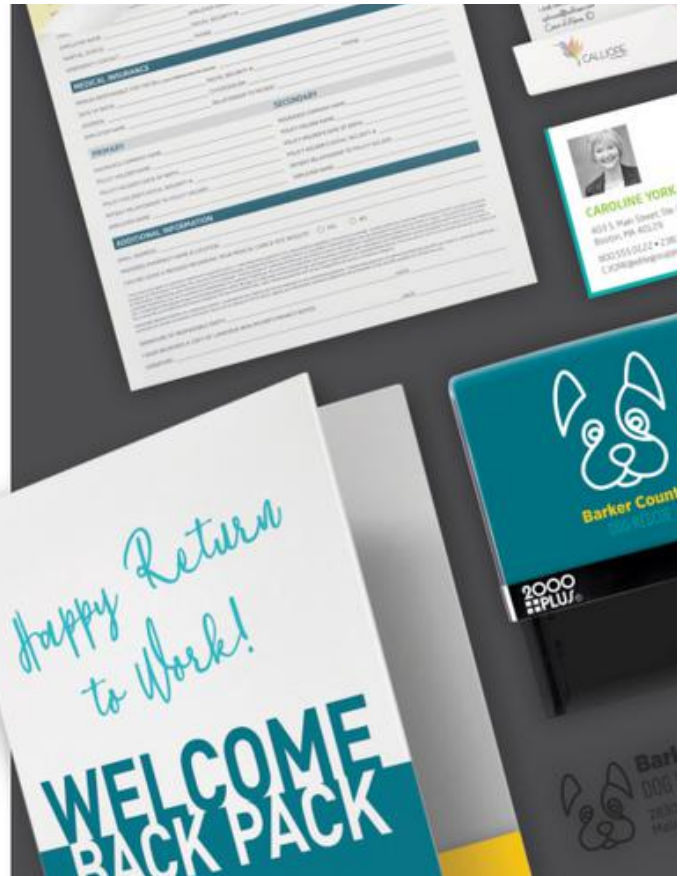

Help employees stay organized with Post-it® Notes, for daily reminders and to-do lists.

Equip employees with branded pocket folders to keep important materials organized, filed and easily accessed.

Promote efficiency with custom whiteboards, wall calendars and communication boards that help teams track projects and tasks.

Employers are doing what they can to make office spaces safer for their employees, keeping them well-informed, and helping them maintain safe distances and practice diligent hygiene protocols.

Staying organized is essential for the remote workforce. Providing the right tools to remote employees helps keep them on task and on target. Consider updates to contact information if extended at-home work is foreseeable.

### The Note You Know

..Unlike knock-off notes, genuine Post-it® Notes stick securely, remove cleanly and make a lasting impression for your client's business.
