

## From hospital to home care

### Personalised care that supports your recovery

We all want to feel safe and comfortable at home after a hospital stay. At The Good Care Group, we're here to help you get there.

With award-winning home care, you'll receive support that's designed around your unique recovery journey, in the comfort of home.

#### Live-in care

A carer will move in with your loved one to provide 24/7 support.

#### Hourly care (London only)

Flexible visits throughout the week to assist with day-to-day life.

#### Respite care

Short-term support during illness, recovery, or carer breaks.

#### Palliative care

Expert home care focused on maintaining dignity and comfort.

# Why families choose The Good Care Group

## Fully regulated

We're regulated and rated 'Outstanding' by the Care Quality Comissions (CQC) in England.

## Experienced carers

All of our carers are trained in our five-day course which has been developed by our in-house clinicians.

## Better outcomes

We monitor the outcomes of all of our clients, which helps us to reduce hospital re-admissions.

“

*I am a short-term client of The Good Care Group due to an injury. I have been tremendously impressed with the efficiency of the whole organisation involving my care. The admin, the assessment process & the care itself has been wonderful.*

– Joanna ★ Trustpilot

”

## How to arrange home care

Follow our three simple steps for high-quality care at home:

1

### Get in touch

Call us today to have an initial discussion with our client services team: **0808 134 9281.**

2

### Free consultation

Book a free care consultation with a local care manager who will visit you in hospital.

3

### Care at home

We'll carefully match you with a carer who understands what matters most to your recovery.
