HARDWARE OPTIONS

For the finer details, it's all about combining your windows with colour, handles and that perfect sleek or woodgrain finish to match your style.

FLUSH CASEMENT WINDOWS

Everything you've come to expect from our contemporary aluminium range, but with a classic, stripped back appeal for a more refined taste.

Without any of the perceived 'bulk' of a standard casement, our Lusso flush casement sits flush against the frame inside and out for a muted, graceful appearance. Our adaptable designs will suit any property, from rustic-style new builds and contemporary, minimalist designs to genuine heritage properties.

To explore our range of hardware, please see page 30.

Sleek window lines that sit flush to the frame create a simple, elegant aesthetic.

TILT & TURN WINDOWS

Bright and airy, Lusso Tilt & Turn windows are perfect for keeping rooms well ventilated, allowing fresh air to flow freely through your home. Turn the handle once to tilt the top of the window inwards, turn further and your whole window will open inwards to permit fresh air to circulate.

Our Tilt & Turn window is perfect for single openings with a large expanse of glass and allows for easier cleaning both inside and out.

A unique, two way turning function allows the windows to be opened inwardly, hinging from the side.
