About Us

Unleash Your Inner Strategist with AC Global Chess Academy

Welcome to **AC Global Chess Academy**, where the ancient art of chess transforms into a modern journey of intellectual discovery and personal empowerment.

As a dedicated partnership (SSM Reg: PG0465893-V), we are more than just a chess academy; we are a crucible for brilliance, where every move on the 64 squares builds a foundation for life's grander strategies. We've coached children as young as four, helped adults rediscover their confidence, and walked alongside young champions in their first big tournaments.

AC Global Chess Academy was born from a simple belief: *that chess builds more than just skill—it builds character*. Our iconic logo, embodying Dominatio, Potestas, Ars Imperatoria (Dominance, Power, and the Art of Command—Strategy), perfectly encapsulates the strategic mastery we cultivate in every student.

Whether you are playing for fun or aiming for FIDE ratings, our mission is to coach with care, strategy and heart.
