MadeInItaly

With H+SuMisura, you can discover compatible modules and alternatives: food warmers, temperature-controlled display cases, flambé sets, roasts, boiled meats, and even room service

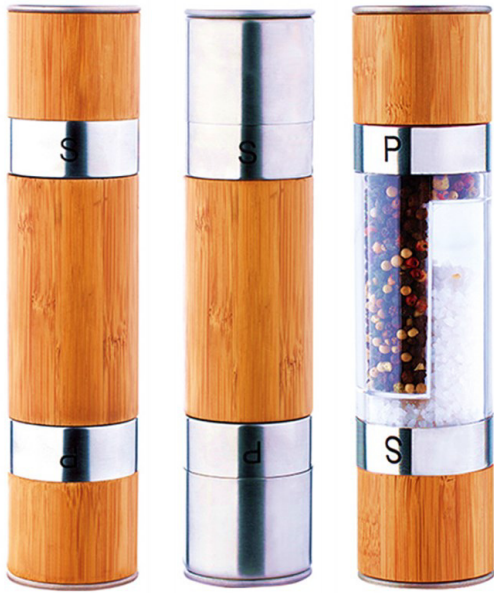

A bamboo table with various items including blue plates, glasses, and cutlery. The table is made of light-colored bamboo with a visible grain. On the table, there are two blue plates, two glasses (one with a fish pattern), a silver fork and knife with wooden handles, and a small blue rectangular object. The background is a dark, textured surface.

BambooTable

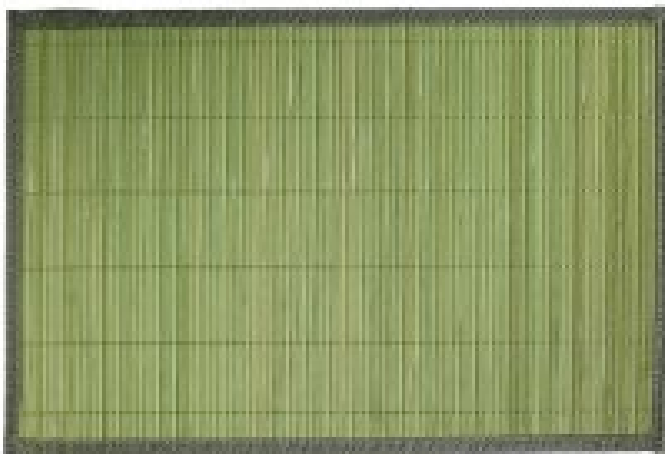

In the intro catalog you can find out why bamboo is eco friendly and versatile, perfect for creating a variety of objects including table accessories promotable with EcoHero

EcoHero

In the BambooTable collection, we have concentrated the best solutions for decorating your table and organizing your buffet with next-generation eco-friendly items, all 100% customizable

Placemats

Made of Bamboo 30x45cm, rollable

H+GG280251	2	Natural color
H+GG280251	2	Green

With H+SuMisura you can customize them, choose from dozens of alternatives or create new models exclusively for your facility, with custom sizes and designs, including 3D effect

Not only placemats but also runners, centerpieces, coasters, and everything you need for an eco-friendly mise en place with a bamboo heart

With H+Contractor you can also create furniture elements such as, tapestries, rugs, curtains, partitions and even sliding doors, for indoor and outdoor use, even with anti-UV treatment, always 100% customizable

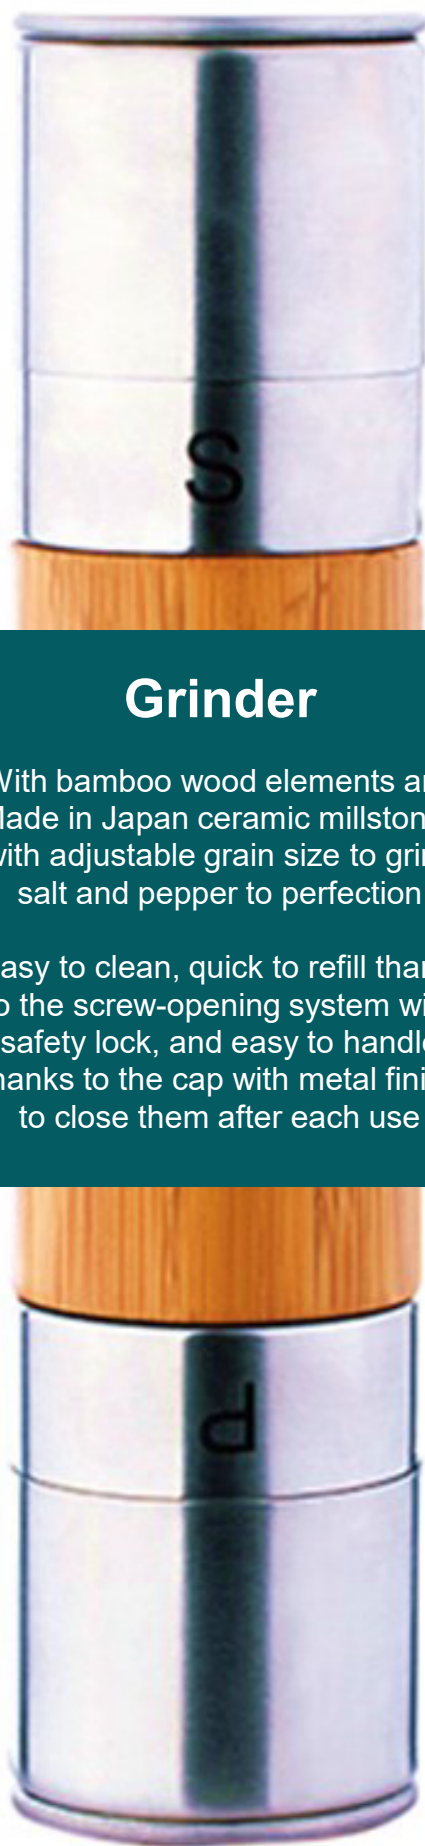

Grinder

A close-up photograph of a hand squeezing an orange peel over a glass. The glass is filled with an amber-colored liquid, ice cubes, and a slice of orange. The background is dark, and the lighting is warm, highlighting the textures of the glass and the orange. The text "BarmanLand" is centered in the middle of the image.

BarmanLand

Everything you need to serve perfect coffee,
beers, cocktails and spirits

State-of-the-art solutions for chilling glasses,
preserve important bottles of wine, and making
delicious self-made drinks

A Bormioli Rocco double-walled glass filled with espresso, sitting on a wooden table with coffee beans and a spoon. The glass is made of tempered opal glass and is part of the Luigi Bormioli Collections in ThemicGlass. It is 100% made in Italy and customizable. The background shows a rustic setting with a wooden table, coffee beans, and a dark wooden container.

Coffee Time

Bormioli Rocco selection
in Tempered Opal Glass

Luigi Bormioli Collections
in ThemicGlass

Both 100% Made in Italy
and customizable

Rocco Bormioli patented tempered opal glass, the same as the plates, designed to withstand heat and temperature changes and intensive professional use

MadeInItaly

Thermic Glass is Luigi Bormioli's patented double-walled borosilicate glass designed to preserve aromas and temperatures of hot or cold beverages, to prevent condensation and to resist microwave

The background of the entire image is a still life composition. It features a rustic wooden crate filled with a bouquet of white and yellow lilies. In the foreground, three double-walled glass mugs filled with espresso are arranged on a light-colored, textured surface. To the left of the mugs, a small burlap sack is spilling dark coffee beans. The Luigi Bormioli logo is positioned in the upper left, and a red banner with the text 'THERMIC GLASS food&design' is placed below it. A teal box with text is on the right side.

IceGlass

Hot glasses are not the best, cocktails and soft drinks get watered down quickly, beers and white wines get hot too soon

IceGlass thanks to the patented VorTEX centrifugal Co2 delivery system, freezes all kinds of glasses down to -40° in just 5 seconds

Antibacterial and sanitizing eliminates 88% of the microbial load normally present on glasses and also any odors and aftertastes caused by ineffective washing cycles

Environmentally friendly and economical, reducing ice use and consuming only 5gr/sec of Co2, 50% less than competitors

Scenic, LED lights illuminate the vapor emitted from the Co2 creating a striking effect

Sturdy and practical, built with 18/10 Stainless Steel components and case, can be operated with only one hand to optimize working time

MadeInItaly

H PLUS

SAFEZONE

Easy to install you can place it wherever you want and use it even outdoors since it is waterproof and with the lithium battery pack, available separately, a full charge lasts about a week

It works with food-grade Co2 cylinders, the same as the EcoDrink system that you can also use at the same time. You will be able to place cylinders up to 2.5m and with the patented ERT system, up to 12m away

100% Made in Italy, guaranteed 24 months, CE and NSF certified. The bactericidal action of IceGlass has been verified by tests conducted by the University of Udine, and you can promote it with SafeZone

MadeInItaly

With H+SuMisura, you can discover the entire Vema catalog: other versions of the monoblock, juicers, extractors, hotplates, ovens, roasters, pasta cookers, leavening machines, cutlery dryers and everything you need for perfect Food&Drink service
100% Italian Quality

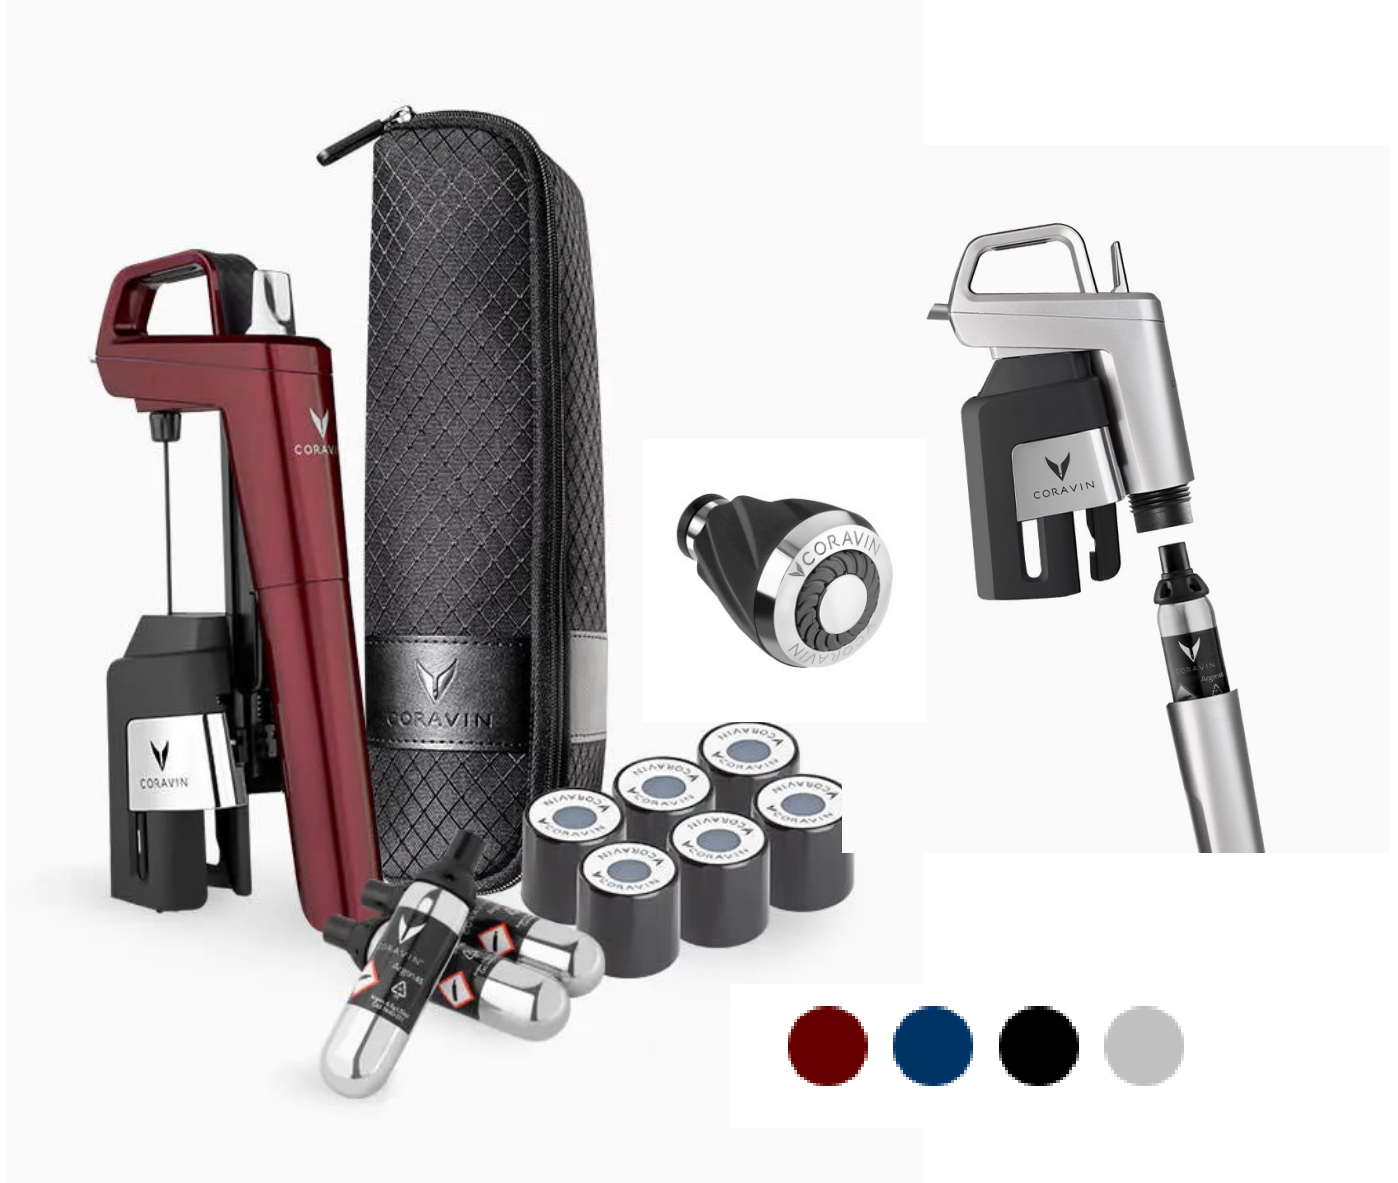

Bottles Sealing

Serving the finest bottles at the bar is always a dilemma, you risk having to go self-consuming to avoid wasting leftovers or to limiting your choice of wines by losing customers

Coravin is the solution that solves the dilemma, preserving open bottles intact for long periods thanks to its unique systems that seal the bottles and replace air with argon gas, the only preservative allowed in oenology

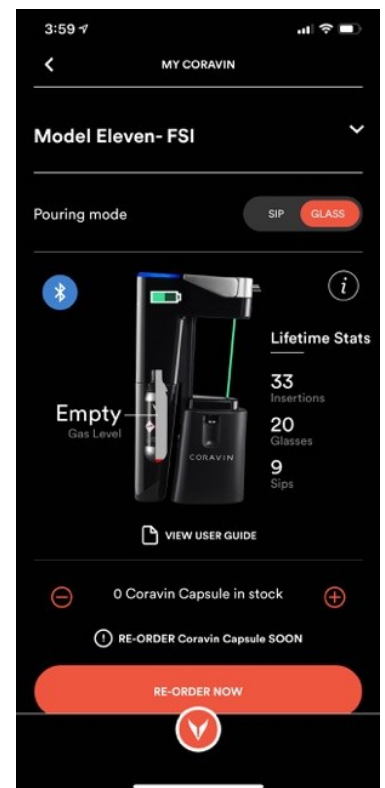

Timeless

H+ LE8349491 Timeless Kit Bordeaux

It can store an open bottle for up to 3 years because the wine never comes in contact with air thanks to the innovative needle system that penetrates any type of cork without puncturing it and, after pouring the necessary doses, seals the empty space with Argon gas. After pulling out the needle, the cork will reseal itself perfectly, keeping the bottle intact until the next goblet

The kit contained in the elegant case you will find: the special aerator accessory that allows you to oxygenate wines perfectly in the few seconds of pouring, silicone stoppers for screw-cap bottles, and 3 Argon gas bottles that allow you to seal up to 100 bottles

Customizable and also available in blue, black and white and in a Pro version that can be connected to a dedicated App that allows you to monitor the timing on open bottles and adjust the pouring speed to make perfect milliliter doses. Additional cap and needle sets are also available

With H+SuMisura you can
customize it and choose
Coravin Pivot the most
efficient alternative version

And Sparkling, to keep
the finest bubbles intact

Not only Coravin, with H+SuMisura you can also discover WineSeal the system that preserves bottles for 4 weeks and allows you to serve them with precise doses and aerate them with the special aerator attachment. Also available in 4-bottle or 1-bottle refrigerator versions for the finest sparkling

EcoDrink

The beverage industry's impact on the environment is monstrous: every year a volume of about 50,000 colossii of plastic bottles are produced and thrown into the environment. If we also consider the logistical impact, we can say that we are facing a real environmental catastrophe

You certainly can't stop offer drinking however there are 2 innovative solutions to continue to offer your guests tasty drinks and be sustainable, lowering operating costs, storage volumes, plastic consumption, logistical impact and your environmental footprint

Both Made in Italy promotable with EcoHero

EcoDrink Pro

The system to self-produce over 200 types of beverages using patented dispensers that filter and if necessary gasify tap water and mix it with tasty concentrates, all 100% Made in Italy, made with exclusive recipes and selected ingredients

With EcoDrink pro you will be able to serve your guests the following

Microfiltered still or sparkling water, cold or room temperature, also alkalized

Carbonated soft drinks in over 40 flavors and the Italian style selection, regional recipes with Italian citrus fruits

Classic and spice-added fruit juices

Multivitamins and sugar-free health drinks

FairTrade-certified beverages

Alcoholic and non-alcoholic beer

MadeInItaly

With H+SuMisura you can choose your favorite concentrates and dispensing device: countertop models from 2 to 10 plugs or the Trolley version, which can also be used outdoors and are perfect for caterers, planes and trains. All also available in NoTouch versions with dispensing triggered by motion sensors

Dispensing devices will be provided to you on a loaner basis tied to the purchase of the concentrates and will never leave you stranded thanks to scheduled periodic maintenance and extraordinary interventions within 48 hours of problem report, including holidays

Also available upon request are dispensers for coffee, cappuccinos, herbal teas, frozen yogurt, hot soups, and even bulk wine from Italy's best regional wineries

To gasify water and beverages, food-grade Co2 cylinders are needed, preferably with a dip tube. If you are not already using them, we can provide a refill service whereby we will deliver cylinders from 1 to 30 kg directly to your facility by picking up the empties

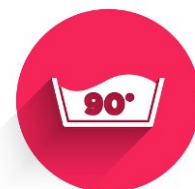

EcoSafe Dish Dryer

NoMorePinch

HPLUS
SAFEZONE

The NoMorePinch system that eliminates mosquitoes effectively, lastingly and environmentally sustainable thanks to the innovative patent based on sensory attraction: the bait spreads 60-meter radius attracts mosquitoes and, once in the vicinity the in the interchangeable bag

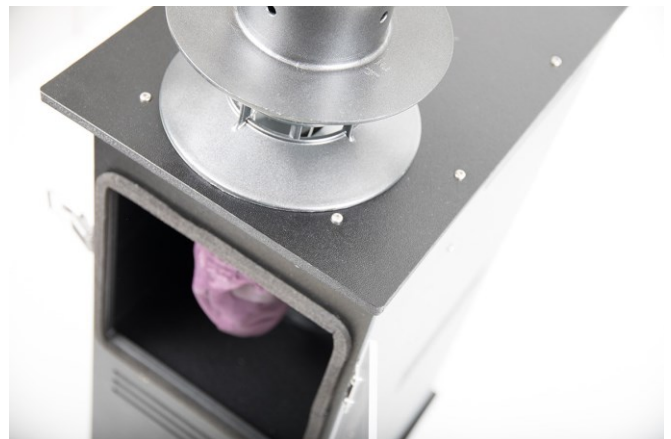

Ecofriendly, uses no chemicals, captures only female mosquitoes and only in covered areas protecting the environmental balance and other harmless insects. The cylinders also are refilled with Co2 derived from pollutant emissions from factories

Low maintenance, you will only have to change the collection bag regularly, every month the Co2 canister and bait, every year the aspirator filter

Smart wireless connection with dedicated App that allows you to turn devices on or off remotely, monitor capture statistics, and receive Alerts reporting maintenance needs or malfunctions

It works indoors and outdoors and has an incredible range of 60 meters: by placing multiple devices strategically you can cover very large areas such as gardens, swimming pools, resorts or even entire towns

With H+SuMisura you can install the perfect system for your your needs
