MILOLA
WALLPAPER & FABRIC

I believe everything in a home should tell a story and bring quiet joy to the people who live there. My designs are rooted in a love for art and history, especially where cultures and eras meet in unexpected ways. By weaving these influences into wallpaper and fabric, I hope to help you create a home that feels layered, beautiful, and deeply inviting.

To me, that's the true luxury in interior decorating: a space that feels personal, storied, and full of life.
