VOX

The Young Users Range p. 06

The Spot Range p. 24

The 4 You Range p. 32

The Smart Range p. 40

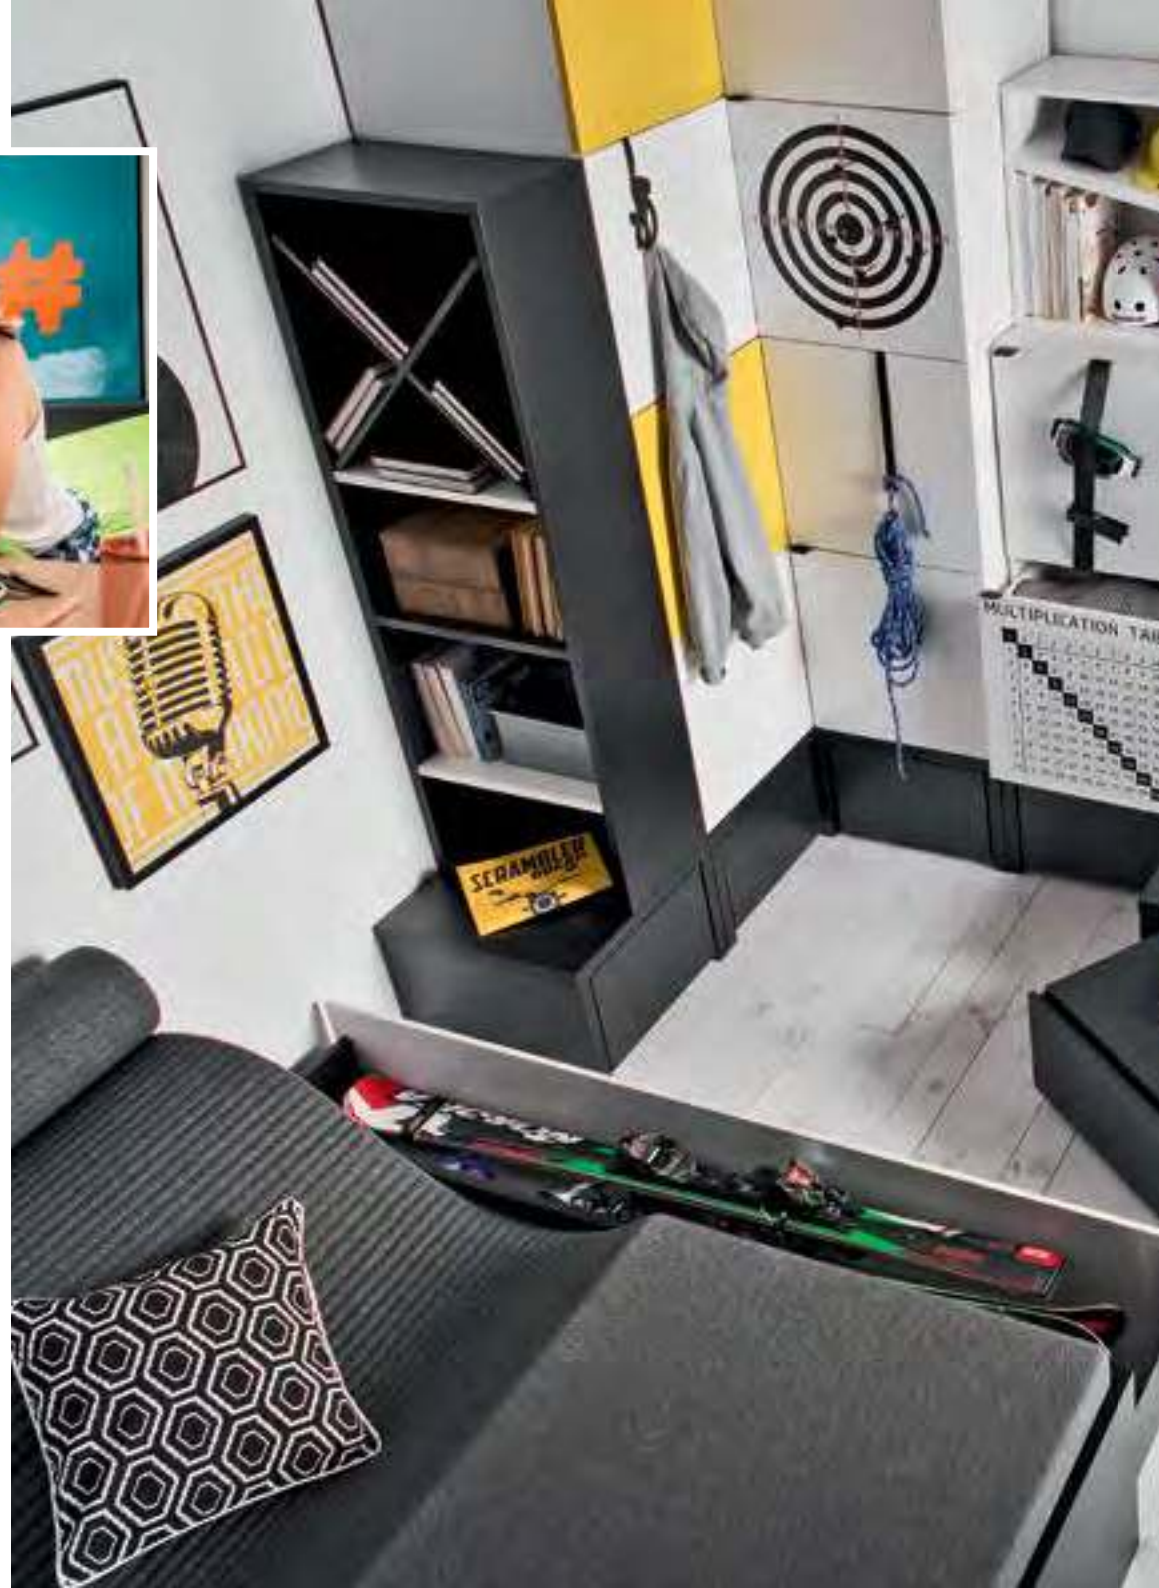

The Evolve Range p. 50

To design furniture fit to stimulate young minds we draw inspiration from observing children.

Well designed and functional furniture will mature with children to adjust to their growing needs.

All children are creative!

Our furniture allow them to flourish and stimulate their imagination, enabling them to create their own space and enjoy it.

The Young Users Range

Marta Krupińska

Graduated from University of Fine Arts in Poznan. A winner of "Design Ideas" - HANSGROHE 2006 and Maria Dokowicz Grand Prix XXVI edition. Worked in design studio PHOENIX DESIGN in Stuttgart. Member of Industrial Form Designers Association in Warsaw. Her designs style is expressed by "Less is more" motto. She is the author / creator of The Young Users range and HIFI by VOX.

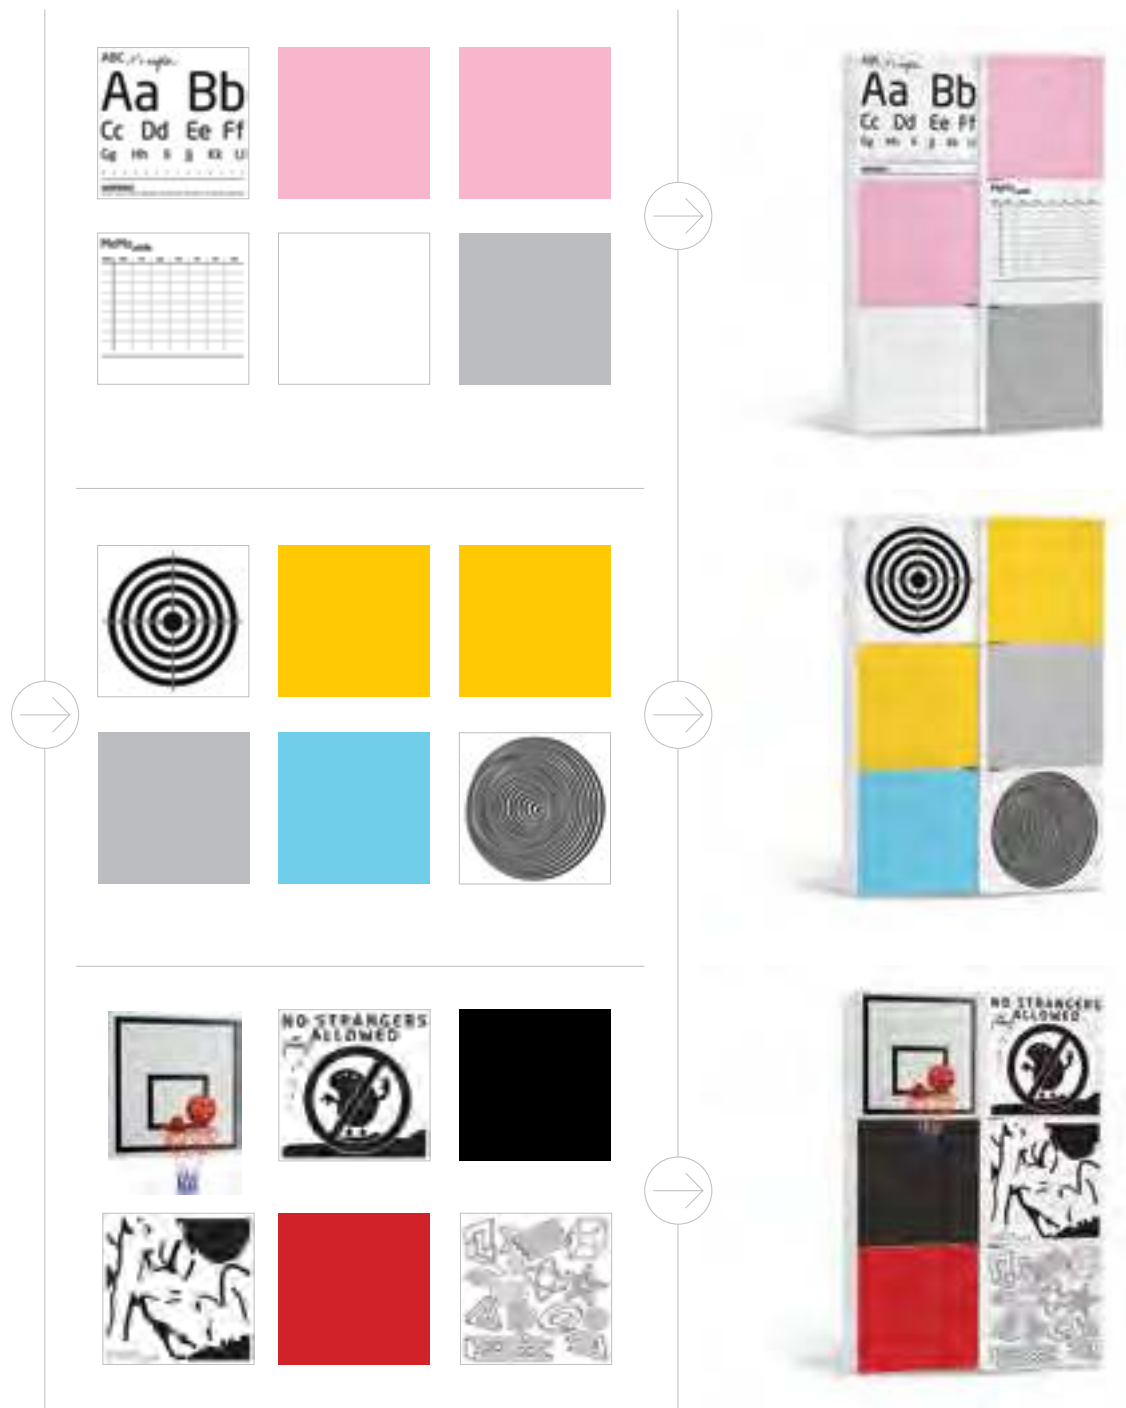

45

Over

available accessories
and overlays to play with!

Growing up children go through various
stages and their room can change with them.

The same furniture – different rooms. All children are individuals

It's easy – check how to create the room to suit your child's preferences.

Emma's room,
age 8

I like playing in my room
with friends but I also enjoy
just hanging around.

Jacob's and Mia's room,
age 11 and 7

I am full of new ideas
and they come to live
in here.

Matthew's room,
age 16

My younger brother's furniture
are the same. Luckily mine
look different.

The Young Users range design was influenced by children and their parents, who were working with us to create fun, responsive furniture to suit children's needs.

Jacob, age 11 and Mia, age 7

We grow up here
and our ideas
flourish.

The overlays change with developmental and educational needs, accessories and arrangements follow - the quality, safety and ease of use stay the same.

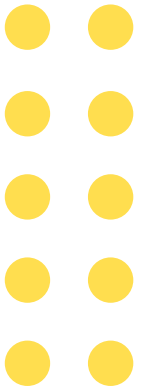

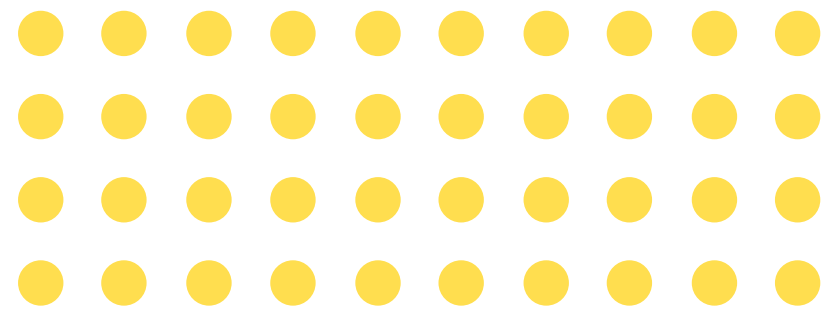

The most personalized furniture in the world.

The spacious corner wardrobe is able to accommodate all stuff children need. Sliding, wheel mounted, capacious bottom drawers are a perfect wardrobe base and available in 2 colors – white and black. You can easily change the whole look – even on a daily basis.

Matthew, age 16

This is
my unique
world.

Innovative and versatile crawling mattress is designed to ensure resting comfort whether you choose to sit or lay down.

Ashley, age 19

Decorating used to be a great fun which now became my life.

From a colorful kingdom of a princess into living space of an ambitious student – all transformed with the same furniture aiding the development of talented and passionate young person.

Desk. Have one or two. Pull in or out but remember – make it yours.

Mobile and multifunctional construction that you can slide apart. Desk and spacious shelf in one.

Designed in a range of interesting colors easily adaptable to maturing children's tastes.

The modern laminated MDF material prone to scratches, damages and wear ensures that it will last years.

Variety of available desk models make it easy to adapt to any space.

Let your child arrange their own space.

The Spot Range

Wiktoria Lenart

Lenart Studio designer, educator in Working Environment Tools at Wrocław Academy of Fine Arts. Winner of Distinction in competitions: Make Me!, Young Design, Design 28- the best designs. Author of VOX Spot Range.

Furniture, that enhance children development from the start.

The SPOT Range design is inspired by childhood memories of hours spent at the playground, swinging, den building and playing hide and seek. They fill the room with breezy, fresh energy and lightness.

Emily, age 6

My room – my magic!

By using this practical, pendant
furniture accessories you can
create the magical world your
child will enjoy.

Daniel and Michael, age 8

This place stimulates our ideas.

This special wardrobe bunk bed is a real multitasking piece of furniture. It is perfect for sleeping, storing and hanging. Equipped with bed, two bookcases, storage compartments and mobile hangers. True inspiration for endless play.

Joshua, age 10

I focus on the project.

If your child needs a place to work on their hobbies, the answer is the SPOT desk ideal solution that will last for years.

This double sided, really functional desk will adjust to the ever changing needs of your growing learner.

The drawers are removable and can be used as separate storage units. The railing is perfectly positioned to show off your child's projects, or to hang practical pendants like drawing board.

Natalie, age 17

The way I live
mirrors who
I am.

The ideal furniture should change their functionality according to user's needs. The double-sided desk for brother and sister can transform, with time, into a dressing table for teenager. Choice of materials and lighting make it easy to customize the room and make it truly Yours. But don't feel stuck – it's easy to change whenever you feel inspired to do so.

Let your child arrange their own space.

The 4 You Range

Piotr Kuchciński

Architect, designer, graphic, illustrator. Experienced in working with acknowledged furniture producers. He won many prestigious awards e.g. The Product of the Year, Prodeco Emblem, and Golden Medal at International Poznan Tradeshow. He designed 2pir, Inbox and 4 You by VOX.

Joanna Leciejewska

Graduated from University of Fine Arts in Poznan where she studied at Industrial Design Faculty. Winner of Philips EK0design. Winner of Gold Medal DOMEXPO at International Tradeshow in Poznan. She has designed 4 You by VOX range.

My Big small Decisions.

Child's room is their small kingdom.
The 4 You furniture range inspires
to experiment with surrounding
space and take own decisions.

Olivia, age 13

Everything here
is arranged my way.

The 4 You Range is a proof that perfectly
organized space can boost the creativity.

Ryan, age 10

One ideal place for my passions.

The 4 You functional range of beds is equipped with many small and big treasure hiding places. The special canopy option can also serve as home theatre or video games screen.

Let your child arrange their own space.

The Smart Range

Marta Krupińska

Graduated from University of Fine Arts in Poznan. A winner of "Design Ideas" - HANSGROHE 2006 and Maria Dokowicz Grand Prix XXVI edition. Worked in design studio PHOENIX DESIGN in Stuttgart. Member of Industrial Form Designers Association in Warsaw. Her designs style is expressed by "Less is more" motto. She is the author / creator of The Young Users range and HIFI by VOX.

Packed with brilliant ideas to boost the creativity from the start. SMART furniture are extraordinary – it's great fun.

The SMART Range designers drew from expertise of psychologists, ethnographers, sociologists but most importantly parents. Children adore SMART furniture!

To begin with the very process of assembling is great fun. The manual is designed to reflect simple game that boosts creativity and is enjoyable for the whole family.

Jonathan, age 5

This desk is mine world.

During autumn 2014, SWSP have conducted an experiment to check how possession of desk influences a 5 year old child. The research shows that working at their own desk enhances children autonomy and motivation to learn plus the satisfaction from achievements is higher. The desk is child's first independence zone.

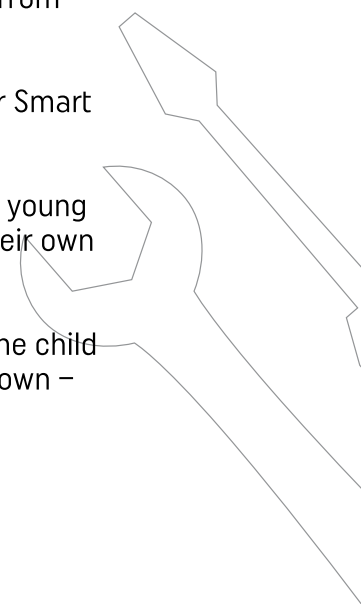

Source: „Own desk vs school readiness at 5 year olds”,
Domasfera.pl, 30.06.2015, 09:23

Is it just a desk or
a future Nobel Prize
winner workshop
- check it yourself.

- Unique construction with predesigned holes to support creative play from young years
- Adjustable height ensures your Smart desk grows with child
- The understated design allows young owner to decorate the desk their own style
- Simple construction enables the child to assemble the desk on their own – with a little help of a parent.

Chloe, age 8 and Christian, age 7

We have
built the bed
ourselves,
dad helped a bit.

The assembly of SMART furniture range is childlike easy. The simple mounting system makes it easy to create new inspiring designs.

Flexible SMART mounting solution is perfect for siblings' room.

They can decide the optimal height
and the color of the top.

Sarah, age 15

Put your
artistic hat on
– be inventive.

The wide variety of SMART accessories
allows to put your own mark on the
furniture.

William, age 17

Resourceful arrangements suit me!

The characteristic predrilled holes make it easy to change the look and functionality of furniture.

Let your child arrange their own space.

The Evolve Range

Michał Biernacki

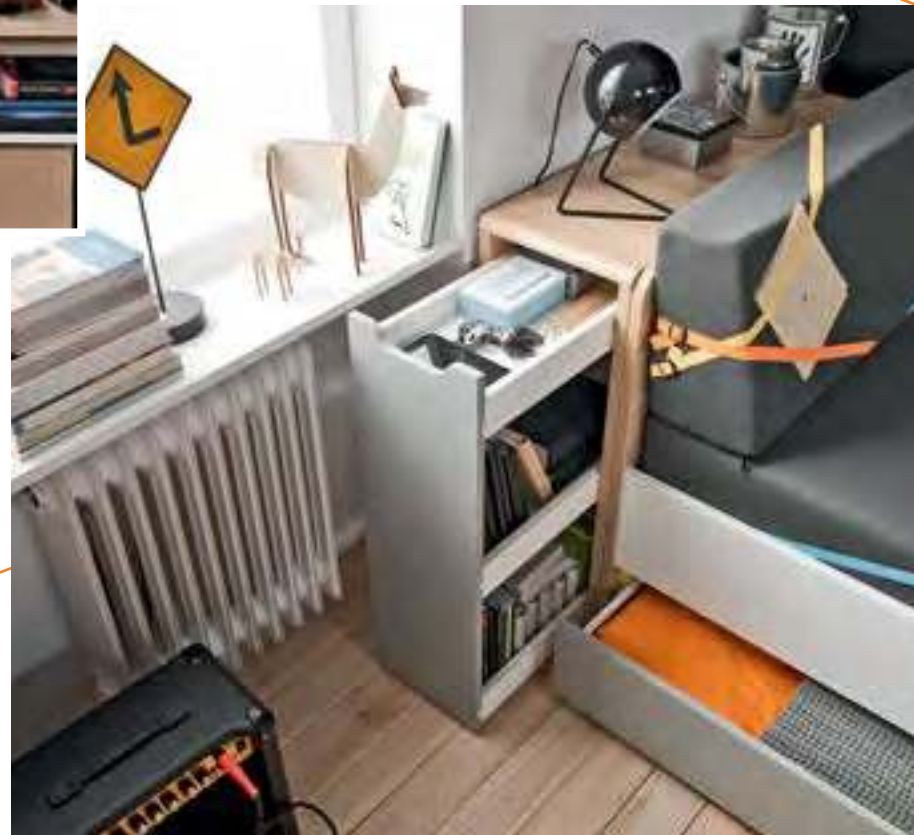

Cofounder of Moho Design brand – first Polish company to be awarded Red Dot Design Award in Product Design 2008 and Design Management Europe Award in New Camers' 2008 category. He designed The Evolve Range for VOX.

Inimitable, distinctive furniture.

Elastics, magnetic fronts and blackboards are some of unusual EVOLVE furniture range solutions that allow to express yourself and use own imagination.

Nathan, age 7 and Ethan, age 8

Play is our game.

Your little artists will truly enjoy furniture they can play with, draw on and build like blocks – finally, EVOLVE is within your reach.

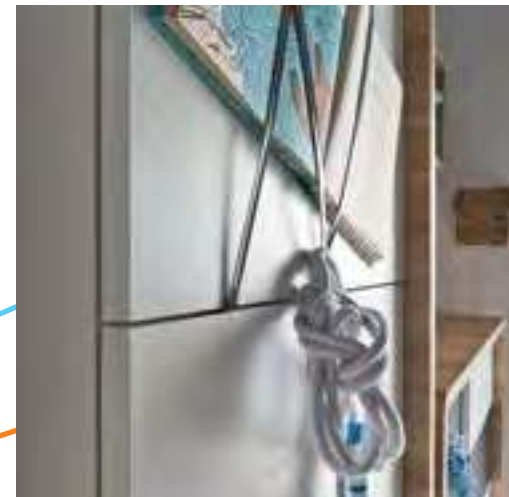

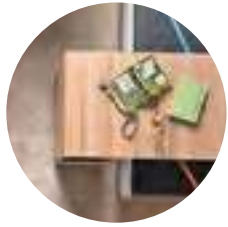

Tyler, age 17

My command center / headquarter.

The innovative bookcase that suits the sofa and gives you freedom to decorate the fronts with pictures and accessories you enjoy looking at by the help of elastics.

Just one push and your bed becomes a sofa or a desk.

The modular design of Evolve range makes it easy to personalize the furniture arrangement – one push and the desk on wheels changes the room's functionality.

Let your child arrange their own space.
