NESPRESSO

Customer Feedback

„Xvise acted in our “warehouse concept new” project as an innovative and flexible partner from project definition to implementation, and subsequently to support the Nespresso organization as a temporary supply chain manager.“

Throughout the collaboration that, it was the understanding of Nespresso’s specific requirements that led to a perfect solution.“

Marianne Neumüller-Klapper -
Operations Director

Customer Feedback

„Working with Xvise, we were most impressed by their efficient project execution and how the different fields of expertise were taken into consideration so comprehensively.“

Dipl.-Ing. Tobias Frank –
Managing Director

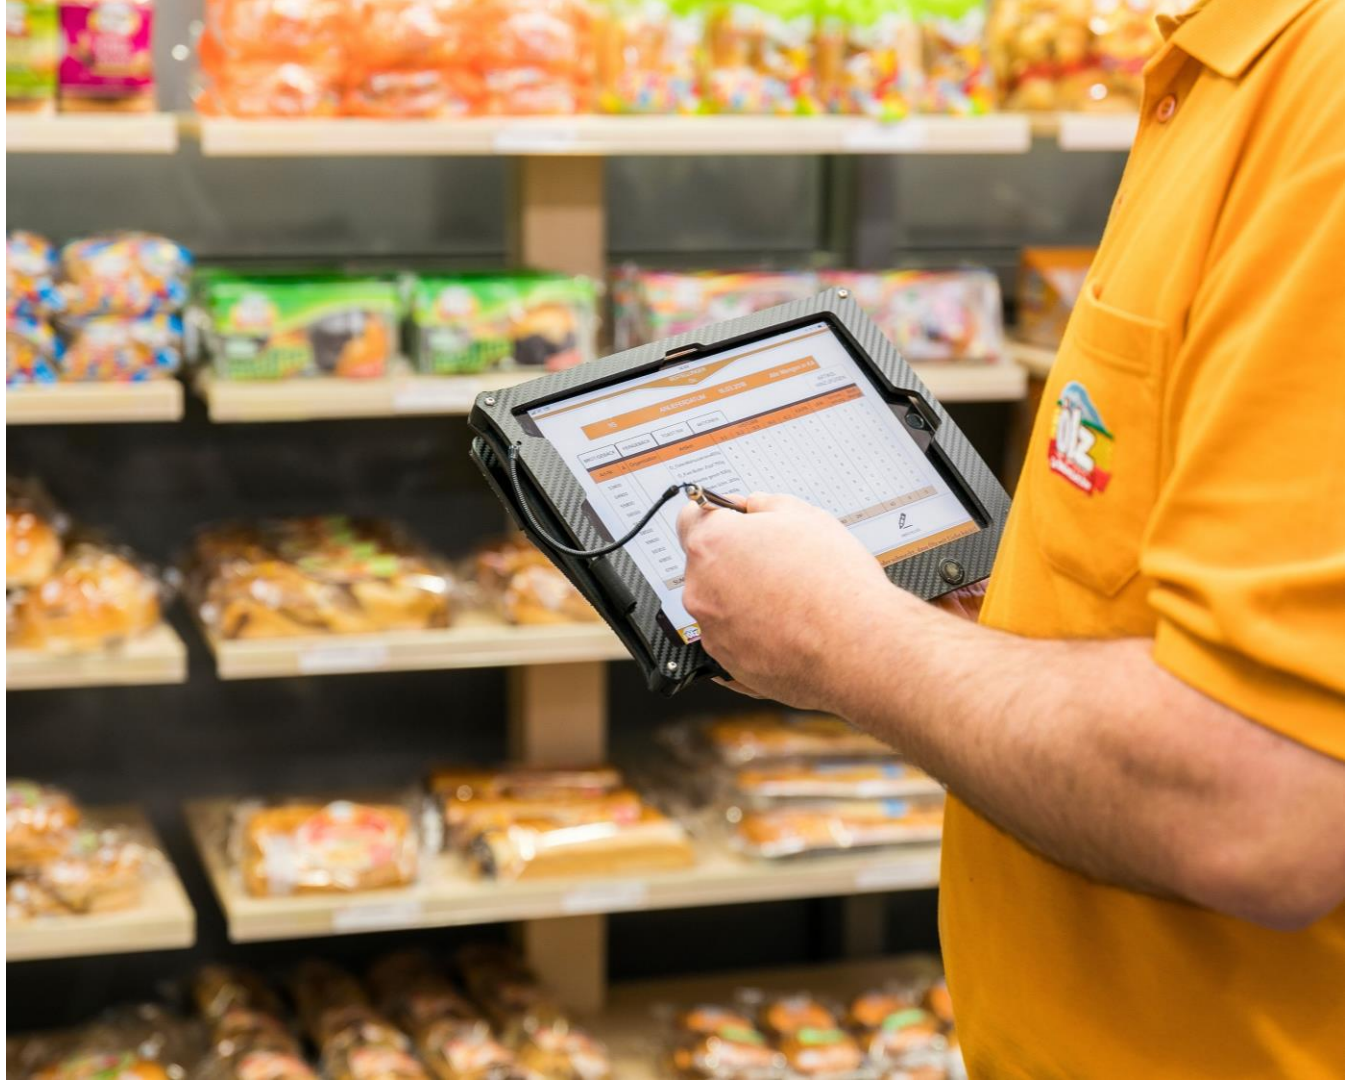

Customer Feedback

„The insight of a logistics expert – which is far beyond our own perspective – complements our planning approach and thus results in a high-quality project“.

Markus Stammen –
Managing Director
Production, Logistics and IT

Customer Feedback

„For the planning of a high bay warehouse including intralogistics at the manufacturing base, substantial know-how and power of endurance were required for our project as implemented by the Xvise consultants.

The Xvise consultants proved their knowledge and mettle, as many concepts were essential to plan the optimal flow of goods at the site.”

Ing. Reinhard Deimel –
Supply Chain Manager
