# Waxing with HydroSilex

---

*Protect your Marathon Coach's finish with a ceramic-infused wax that bonds to the surface, providing long-term protection against UV rays, oxidation, and environmental damage — all while enhancing gloss and depth.*

HANDY INFORMATION FOR YOUR STAY AT THE MARATHON COACH SERVICE DEPARTMENT

## HydroSilex Ceramic Hybrid Wax Service

Before applying Ceramic Hybrid Wax, your Marathon Coach will be fully washed and detailed to ensure the coating bonds correctly. A clean surface means better protection, a smoother finish, and long-lasting results — and we handle every step.

**Advanced Surface Protection:** Hydrosilex combines the deep gloss of traditional wax with the durability of ceramic technology. It forms a protective barrier that defends your Marathon Coach against UV rays, bug splatter, road grime, and environmental contaminants — all while preserving the finish for years to come.

**Hydrophobic Performance:** Enjoy the benefits of true ceramic hydrophobicity. Water beads and rolls off your coach with ease, reducing water spotting and making washing your Marathon quicker and more effective.

**Signature Shine:** This treatment enriches the paintwork, bringing out the depth, clarity, and mirror-like finish that define the Marathon standard — leaving your coach with a striking, polished look from every angle.
