

# THE COLLECTION EDIT

DORN  
BRACHT

Dornbracht's unique products appeal to those seeking individualistic solutions that stand out. Having enduring appeal, the brand's perpetually stylish luxury products are designed to transform everyday routines by promoting vitality and happiness.

Having achieved worldwide recognition for its clearly defined design principles, Dornbracht's expert design team focuses on sustainable aesthetics inspired by artists, architects, philosophers and designers, whilst being detail-focused and relentless in the pursuit of perfection. State-of-the-art production technologies are used to create innovative products that meet the highest quality standards.

Founded in 1950, Dornbracht is based in Iserlohn, Germany. The company has a global presence with a product portfolio in over 125 markets.

Integrity is the basis for a corporate culture characterized by trust, respect, fairness and honesty. For Dornbracht, these are the prerequisites for valuable and collaborative cooperation - both internally and externally.

Dornbracht has a rich history of engaging with the arts, initiating various cooperative ventures with visual and creative artists. These collaborations have led to projects exploring themes such as water, cleansing, rituals, and culture in the bathroom. Notably, Dornbracht has sponsored exhibitions in renowned museums, including the Guggenheim Museum and MoMA in New York City, and has been the main sponsor of the German contribution to the Venice Biennale in multiple years.

Dornbracht's unwavering commitment to design excellence, innovation, and cultural engagement continues to set it apart as a leader in the luxury fittings industry, offering products that stand out and enhance the quality of daily life.

# The Design Principles

## 1 Proportion

Dornbracht fittings have perfect proportions. Their designs are in keeping with a timeless form – balanced, harmonious and precise. It is this perfection that explains their iconic and aesthetic appeal.

## 2 Precision

Dornbracht fittings epitomise uncompromising precision. Their form is characterised by clean lines, precise radii, and superb workmanship to the highest quality of manufacturing, that even the smallest details are accomplished with care.

## 3 Progressiveness

Dornbracht fittings are progressive. They show an enlightened attitude that is receptive to anything new by providing visionary inspiration for architectures and interior designs. They set current and future benchmarks by being in constant dialogue with the spirit of age.

## 4 Performance

Dornbracht fittings demonstrate excellent performance. The highest standards of functionality and application focus on the diverse forms of water presentation, which creates unique water experiences.

## 5 Personality

Dornbracht fittings are originals, with personality. They always embrace a unique character – making an individual and bold statement as they do so. Their unmistakeable identity is the result of combining distinctive forms and expressive finishes together.

# Project Reference

With SANIPEX GROUP

At Sanipex Group, we pride ourselves on offering exceptional products and services to meet the needs of architects, designers, developers, and consumers across the globe. Established in Dubai, UAE, in 1995, we have grown to encompass flagship showrooms in key locations including Dubai, Abu Dhabi, and London, with an established presence through partner retailers worldwide. Our prestigious product portfolio and unwavering commitment to customer satisfaction have enabled us to build strong relationships across the Middle East, Africa, Europe, Asia, and Oceania.

We are delighted to present Dornbracht, a leading specialist in superior designer brassware fittings and accessories for bathrooms, spas, and kitchens. Known for its innovative technology and outstanding quality, Dornbracht challenges the status quo of architecture and design with a superb range of finishes, shapes, and styles. With its production facility in Iserlohn, Germany, the brand sources the majority of its raw materials and preliminary products regionally, ensuring a sustainable approach with 80% sourced from Germany and 98% from Europe.

We combine the highest quality bathroom, kitchen, tile, lighting, and outdoor living solutions with exceptional customer service. Whether working on commercial projects or residential developments, we are dedicated to assisting our clients in creating beautiful spaces with market-leading brands and our own strong portfolio of products. With strategically placed logistics centers and consistently high service levels, Sanipex Group is ready to deliver for your next project.

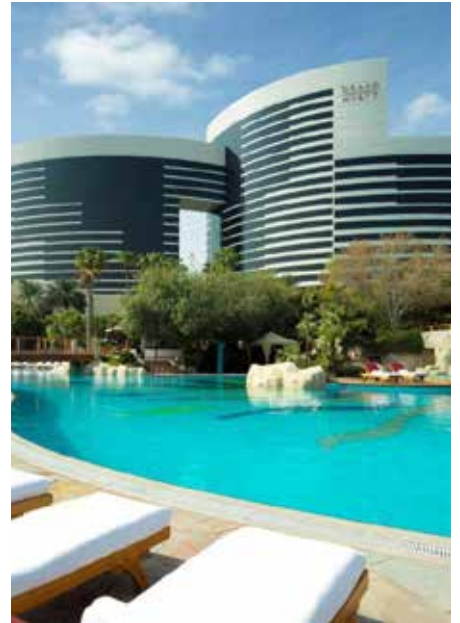

Discover the elegance and innovation of Dornbracht with Sanipex Group – where the customer always comes first.

# AQUAHALO

## Follow your Bliss

An innovative and unprecedented design solution for the bathroom and spa: AQUAHALO makes the shower the focal point of your architecture.

This ring-shaped water sculpture sets new standards in the way water can be experienced.

AQUAHALO

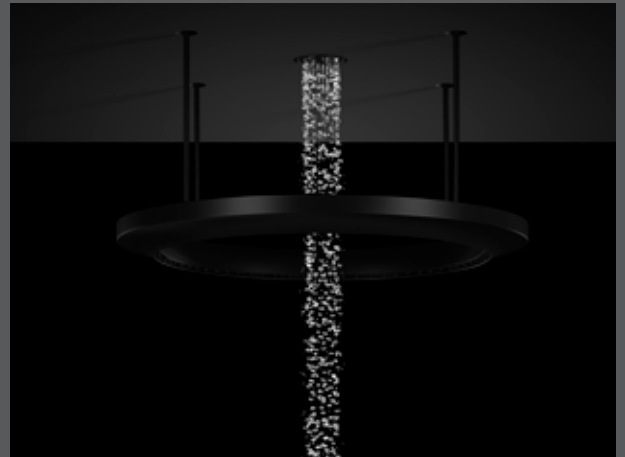

# AQUAHALO

## Spray Types

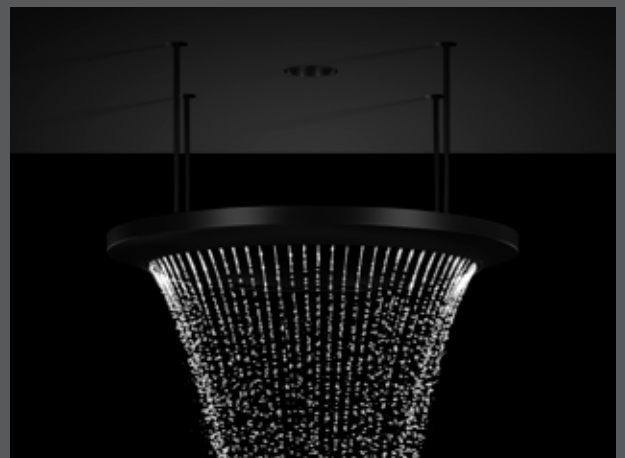

### DIAMOND RAIN

The flow mode combines gentle lighting and crystal-clear water into a refreshing experience for the body and mind. The dense and powerful jet flowing from the spot for light and water cleanses and invigorates. DIAMOND RAIN is ideal for focusing on refreshment, and for hair washing.

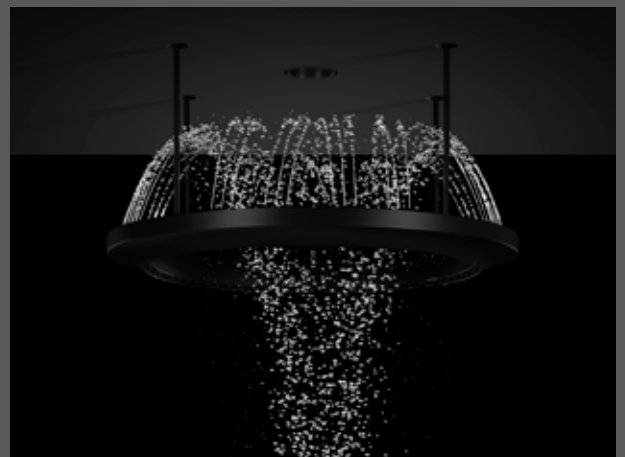

### AQUACIRCLE RAIN

AQUACIRCLE RAIN covers your body with gentle jets of water. With larger quantities of water, the jet is concentrated, and creates an energizing effect. With less water, your mind stays clear and the water falls relaxingly and evenly onto your shoulders, like a curtain of rain – in a meditative and strengthening moment of bliss.

### TEMPEST RAIN

The TEMPEST RAIN flow mode is like having a natural experience of a wild thunderstorm that invigorates, refreshes, and creates clarity. The flow mode does not follow logic, it follows the nature of water, with the feeling of full-bodied droplets on the skin sharpening the senses.

# Customizations

## Glass Customization:

In collaboration with our long-standing partner Glass Design, we offer luxurious glass handles for the MEM range as part of the x-tra service. The “Clivia” and “Ice” design variants produced by the Italian manufacturer are available in two heights and in all MEM standard surfaces.

# MEM

## Pearl Customization:

Exclusively for the MEM range, our partner Nature Squared manufactures unusual handles from natural materials - such as shells, mother-of-pearl or eggshells. In combination with our tap surfaces, this results in a variety of unique combinations that can be requested via the x-tra service.

# CYO

## The Sophisticated

CYO embodies universal exclusivity. Its extravagant form: a commanding statement in both progressive and classic bathrooms.

# Sustainability

## CO<sub>2</sub> Reduction

Since late 2021, Dornbracht has achieved CO<sub>2</sub> neutrality in Scope 1 and Scope 2 emissions through reduction and offsetting measures. Comprehensive initiatives in production and distribution have been implemented to minimize our carbon footprint, reinforcing our dedication to environmental responsibility.

## Production Management

Dornbracht prioritizes resource efficiency and sustainability in production. Excess materials are recycled at a 96% rate through an advanced waste management system. High-tech extraction and filtration systems ensure liquid and dust pollutants are captured, preventing environmental contamination and maintaining clean operations.

## Water Management

Since 2010, Dornbracht has significantly reduced water consumption across its product range. Washbasin fittings now use considerably less water, with reductions of 50% for overhead and rain showers and 45% for hand showers. These efforts demonstrate our commitment to water conservation and sustainable design.

## Energy Management

In 2015, Dornbracht introduced a compliant ISO 50001 energy management system, helping the company to save 1.7 million kWh per year. This corresponds to a reduction of 12% compared to the baseline for the years 2012 and 2014. Since the end of 2021, all electricity used at the Dornbracht locations has derived exclusively from the renewable energy plants.

## Material Management

Dornbracht leads the way as the first European manufacturer to adopt entirely lead-free materials for water-related products, meeting the stringent standards set by the German Federal Environment Agency (UBA). Our products exceed global safety benchmarks, offering unparalleled quality and environmental compliance.

## Supply Chains and Procurement

With our production base in Iserlohn, Dornbracht is committed to high-quality, sustainable manufacturing. We emphasize short procurement routes, sourcing 80% of materials from Germany and 98% from Europe. Most raw materials and components come from within a 200 km radius, minimizing environmental impact and supporting regional suppliers.

Dornbracht is committed to sustainability from the very beginning. As a supporter of the UN Sustainable Development Goals, the brand not only creates long-lasting products and designs but also advocates for sustainable production and responsible product usage. This commitment is evident in their use of high-quality materials, a spare parts guarantee, and the reparability of their products. A prime example of their sustainability efforts is their circular business model, Dornbracht ReCrafted.

# Customizations

## Tailored to Your Needs

Dombracht offers a wide range of customization options, allowing you to personalize every detail of your fittings and fixtures. From structural modifications to exclusive, bespoke designs, we make your vision a reality.

## Surface Variety

Achieve the perfect finish with endless possibilities, even beyond the standard options. Using advanced techniques such as electroplating, PVD, powder coating, or wet painting, we can deliver your desired finish.

## Custom Handles and Levers

Express your unique style with fully customizable handles and levers. Any shape, colour, or finish can be created upon request, giving your fittings a distinctive design.

## Exclusive Colour

Looking for a specific colour? Many series can be finished in the full spectrum of RAL colours, starting from a single unit.

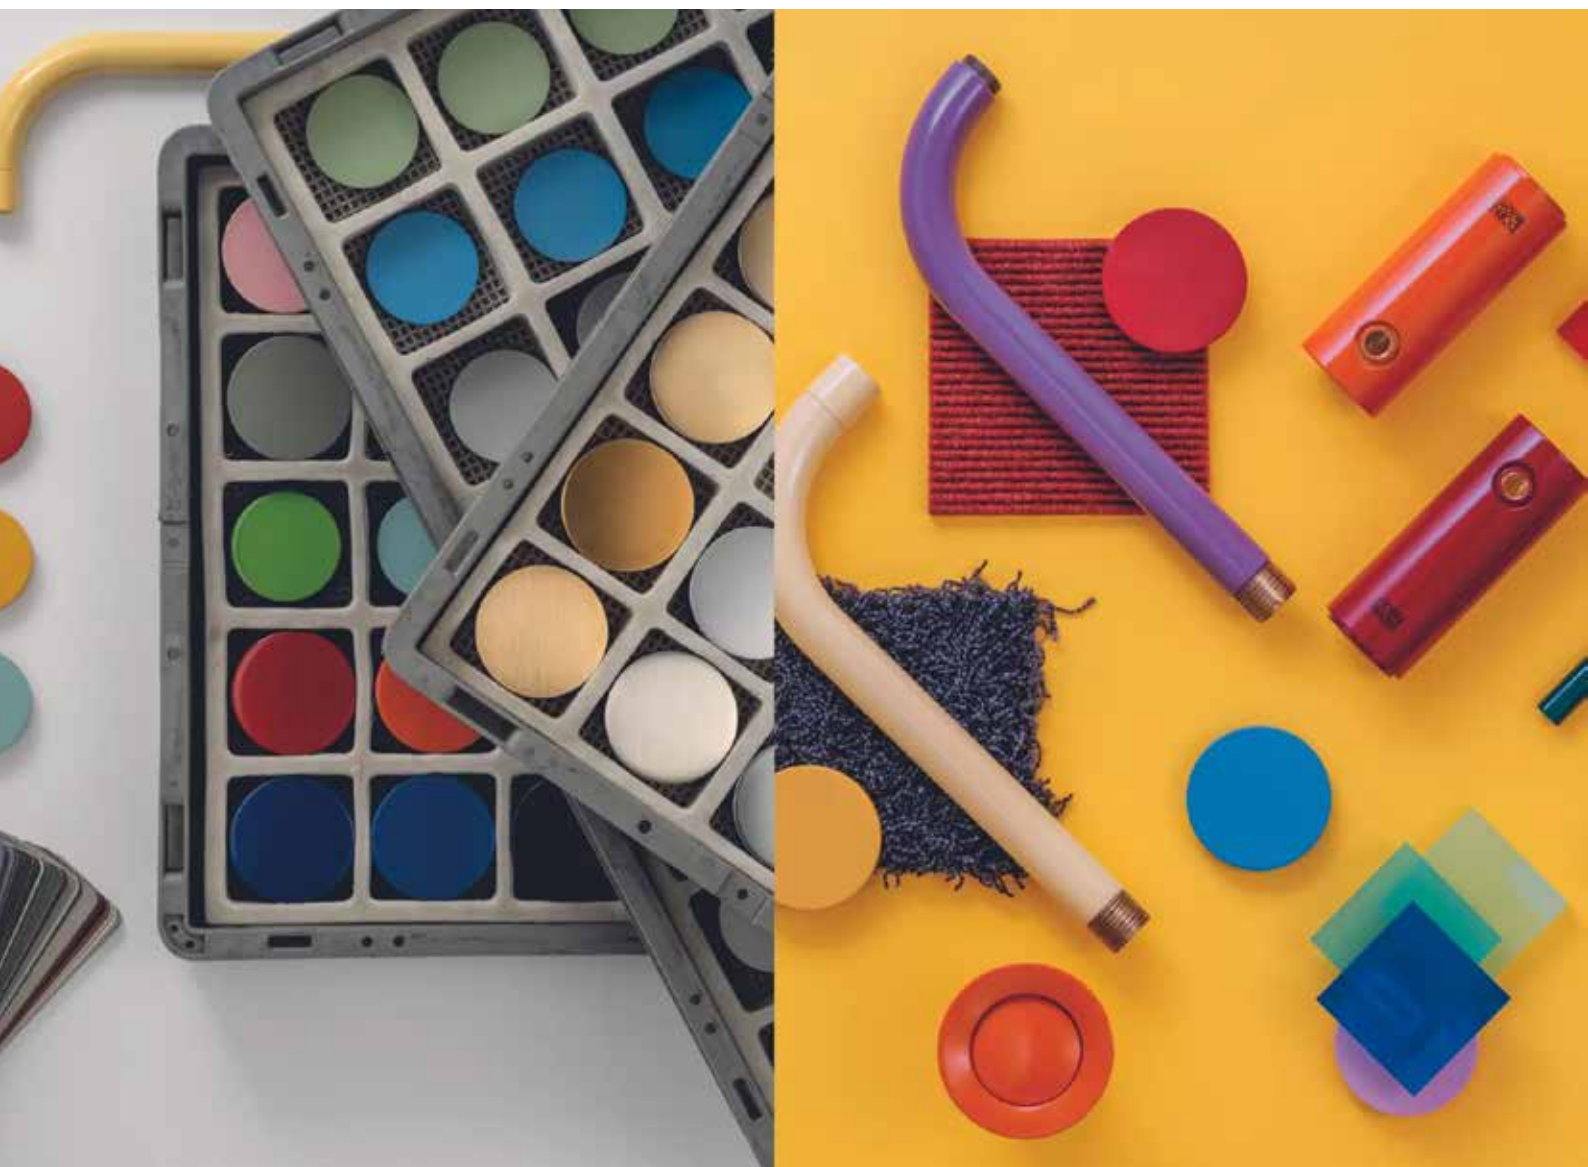

## Logos and Symbols

Add a personal touch with custom logos, symbols, or engravings—perfect for both private bathrooms and commercial spaces. From family crests to initials, the options are limitless.

## Textures and Structures

Enhance your fittings with unique textures and tactile finishes on tap bodies or handles. Bring your creative ideas to life with custom surface textures.

*For more details or to discuss your customization requirements, please contact our sales representative.*

# Dornbracht

## Manufacturer Warranty & Product Care

**5** YEARS  
WARRANTY

Ten-year spare parts service  
Terms & Conditions Apply\*

The Dornbracht Manufacturer Warranty comes into force on 01/01/2022 and applies only to the "Dornbracht" brand products

Valid for the end customer, purchase must be proven by submitting the original invoice (including date of purchase) Dornbracht guarantees Consumers that "Dornbracht" brand products are free from material, manufacturing or design defects in order to claim under the Dornbracht Manufacturer Warranty, the defective product must already have exhibited the defect causing the damage at the time of dispatch

Manufacturer warranty applies to all "Dornbracht" brand products for a period of 5 years from the date of purchase as shown by the original invoice, but for a maximum of 6 years after manufacture

The warranty period is not extended by the provision of services under this warranty, in particular not by repair or replacement

The warranty for spare parts also ends on the date defined above Under no circumstances does the warranty period start a new.

By choosing a Dornbracht product, you've selected exceptional design and quality. To ensure long-lasting enjoyment, follow these care and maintenance tips:

### Cleaning & Care:

Use a soft cotton cloth or polishing cloth for cleaning. Avoid abrasive materials or harsh chemicals.

For daily cleaning, use a mild, alcohol-based cleaner. For light scale, use a citric-acid-based cleaner.

Always rinse thoroughly and dry after cleaning.

### Special Finishes:

**Gold Finishes:** Plated with 24-carat gold; avoid coarse cloths or abrasive materials to prevent scratches.

**PVD Finishes:** Apply stainless steel care oil sparingly for a protective film. Avoid contact with sensitive surfaces.

**Crystal Handles:** Clean with a soft cloth, lukewarm water, and mild dish soap.

### Aerators & Shower Heads:

Regularly clean and descale aerators and shower heads using a mild citric-acid solution for optimal performance.
