South Australia has so much to offer tourists and residents alike. To help you choose your next destination, we have provided a little information about the areas in which our holiday rental properties are located.

ADELAIDE HILLS / BAROSSA

Torrelunga Country Cottage is located in the Barossa town of Mount Pleasant. The town is host to the weekly Farmer's Market, held at the Showgrounds each Saturday morning and the annual Mount Pleasant Show. Being on the doorstep of both the Barossa and the Adelaide Hills, you are spoilt for choice with the regions' attractions which boast some of the best wines of Australia, chocolate makers, distilleries, forest walks and tourist attractions such as the Warren Reservoir, Whispering Wall and the Maggie Beer Farm Shop.

FLEURIEU PENINSULA

Southern Comfort Lodge, located in Victor Harbor on the Fleurieu Peninsula. A historical township full of sights, tastes and events, Victor Harbor is the perfect base to explore the surrounding areas. Sail on the Coorong, visit wineries and distilleries, taste locally made cheeses and a world famous Port Elliot Bakery pie, and learn all about the area's marine life at the South Australian Whale Centre. There's a multitude of playgrounds scattered throughout the region and various forest and national park walks to explore. No visit to Victor Harbor is complete without a horse-drawn tram ride across to Granite Island followed by a slow stroll back to the foreshore.

MURRAYLANDS

The majority of our current holiday rentals are located within the Murraylands. Home to the Murray River, you will find many lookout points to take in the iconic and breathtaking cliff and river views. Explore Mannum by river on a historical paddle steamer, kayak or boat and visit Ngaut Ngaut Conservation Park (one of the most significant Aboriginal cultural sites in SA) to learn more about 'Black Duck Dreaming'. The Murraylands are home to the Murray River International Dark Sky Reserve, one of only 15 worldwide, which is rated as one of the darkest places on the planet. It is here that the stars shine the brightest and breathtaking 'shooting stars' are frequently observed.
