# Text Your Ex Back PDF Example Texts (Michael Fiore's Book)

This detailed review is about The Text Your Ex Back PDF by Michael Fiore and includes example texts and the link to download the book below. Text Your Ex Back (PDF) can be considered the best-selling “Ex Back” program of all time. Michael Fiore's book contains plenty of text examples and is specifically for the broken-hearted (both men and women) who lost their relationship and want it back more than anything in the world.

I downloaded The Text Your Ex Back PDF program by Michael Fiore around 4 months ago, about a week after my girlfriend of 4 years dropped the bomb with the “I need space, it's not you, it's me” song and dance. Needless

to say, I was completely heartbroken and destroyed and didn't know who to turn to or ask for advice because everyone was saying different things and nobody actually knew our relationship.

Then the No contact rule came into play!

I followed The Text Your Ex Back PDF program basically chapter to chapter, and applied the example texts, with unbelievable results.

Everything happened exactly how this program said it would...

And now we are dating again and taking things day by day and our relationship is honestly the best it has ever been in 4 years (just started the [Text The Romance Back Program](#) too).

The thing that amazes me about Michael Fiore's book in addition to getting your ex back with certain hot buttons and phrases is the fact that...

At the end of everything, it still gives you a choice whether you really want to get back with your ex or not.

Showing you that you may not want to get back with your ex because you have been doing so great the time you were away from them.

Showing that you don't "need" them at all.

Personally, I made myself better every day during the 30 day no contact, and am still going strong with my new hobby "my gym membership".

I lost 30 pounds since I started the program and care much more about my appearance than I ever have.

Appreciating people and the little things more.

People who have been around me have said how much I am “glowing” now, being more confident and bright.

I hope you actually read this letter yourself.

Not only did Text Your Ex Back PDF change my relationship with what I feel is the most incredible and unique girl I have met so far in my life.

But Michael Fiore actually helped me change my life for the better.

Ever thought this could be a life-changing event for someone?

Not to mention how inexpensive and how user-friendly the program is, no amount of money or words could express how truly grateful I am for what you have done for me as a man.

The 30 days of no contact was crucial – helped work through myself, thoughts and feelings and work on my physical side – mind body and spirit.

The “I like myself” exercise (like other example texts) is extremely insightful as it reminds ourselves of who we are. My ex and I are giving at another go – small steps, but all great journeys start with small steps.

Talk was the game opener – being in our 50’s we did more talking face to face than texting but adapted some of the principles in this program.

I took up the Text Your Ex Back PDF program some months ago, applying different example texts, but was busy and could not really write back. Well, I wanted to tell you that I got my ex back.

That happened two months ago, what happened was that she called me, and we kinda nagged at each other at first...

Because of a little misunderstanding.

Afterwards, however, she told me that she had missed me, that after having a rebound (who she called a retard) she realized that she wanted me in her life and that I was perfect for her.

I had a rebound myself and that didn’t work either.

We cried on the phone and then on Skype... and got back together with tears of joy.

The break-up actually made us realize that we are truly meant to be together and that we are perfect for each other.

It all started with some example texts, and now we are getting prepared to celebrate New Year together.
