WHAT MAKES US GREAT

Bi-weekly Training

Ed Huck Team agents must attend 4 hours of training, accountability, and coaching each week.

Negotiation Expertise

I'll put my experience to work while navigating the complexities of the real estate transaction, making it a seamless experience for you.

Full Time Agents

Our agents are full-time professionals. Many agents dabble in real estate. The cost is too high to risk your time and money with someone who does not practice real estate for a living.

PREPARING YOUR HOME

A well-presented, meticulously maintained home typically sells faster and commands a higher price than a similar property that appears neglected. Below are key areas you may want to focus on to maximize your home's appeal and value.

THE EXTERIOR

The outside of your home is the first thing buyers see. Make a good first impression. Step back and take an objective look at the exterior of your home. Review these suggestions:

- Keep the lawn cut and the shrubs trimmed.
- Remove dead tree limbs and other yard debris.
- Freshen up your landscape with plants or flowers.
- Arrange outdoor items neatly; put lawn equipment away.
- Check siding, trim and doors for direct and peeling paint; wash or touch up where needed.
- Inspect the condition of your fence and repair if needed.
- Repair or replace loose or damaged roof shingles or flashing.
- Clean and repair broken windows or screens.
- Clean gutters and downspouts.
- Wash the driveway and sidewalk; patch holes.
- Clean and neatly arrange the garage or shed.
- Make sure the gas grill is ready for use, especially in season.
- Make sure that the entry light and doorbell work.

THE INTERIOR

Take a look inside your home. Make every room look as spacious, organized, bright, warm, and homey as possible. The following suggestions may help:

- Wash walls, ceiling, and trim; if possible paint with neutral colors.
- Repair cracks in plaster.
- Tighten loose doorknobs, drawer/cabinet pulls, towelracks, switch plates.
- Fix sticking doors and windows, squeaking doors and loose stair banisters.
- Repair and clean caulking around tubs and sinks.
- Fix leaky faucets; remove water stains.
- Organize the basement and attic so that they appear spacious and as neat as possible. Discard anything you are not taking with you.
- Organize closets, remove clutter.
- Organize kitchen cabinet contents and remove clutter from kitchen countertops.
- Launder draperies and curtains. Clean blinds.
- Shampoo carpets and wax floors.
- Spray for bugs if needed.
- Arrange furniture so that the room appears as spacious as possible.
