About Us

Vertical Green is a team specialising in urban greenery, established since 2009. We are committed to transform spaces that connect people to a greener, healthier, and happier environment to urban communities across Asia.

We provide customised solutions and designs to clients by understanding their needs and infusing nature into their lifestyle and living spaces.

Living Greenery

Natural green foliage

Fresh, vibrant plants that enhance your space with their natural beauty, providing a breath of fresh air and a touch of life.

 HyGro® Wall

 HyGro® Pot

HyGro® Wall

One of the thinnest green wall structure with water storage tank, equipped with automated irrigation & fertigation system for minimal maintenance. Our felt system green wall allows for unrestricted root growth which promotes & supports plants to grow bigger & healthier.

System Type

Direct System

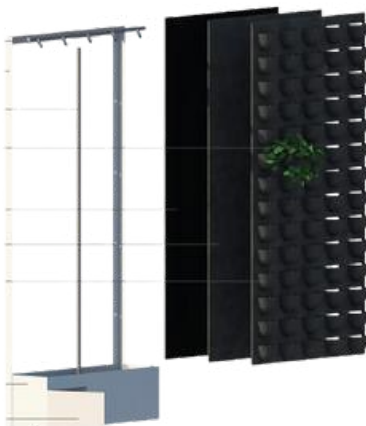

HyGro®Wall is connected to direct water tap and can be customised to fit any wall.

The flexibility of our system allows for design creativity and freedom where it is possible to integrate other materials such as timber, stone and marble tiles. Logo, signage and picture can also be used to showcase a unique vertical greenery experience.

Tank System

HyGro®Wall with reservoir does not require direct water tap connection and drainage point and can be customised to fit any wall.

Standalone System

A free-standing structure with auto-irrigation & fertigation system where no drilling is required.

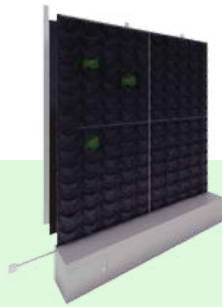

It is available in the standard dimension of 1.0mL x 0.3mW x 2.2mH. The standalone green wall can be free standing and do not require any structural wall or backing for support.

Preserved Greenery

Naturally preserved foliage

An all natural beauty combined with the durability of an inert object. Grown and harvested from greenhouses located all around the world bringing you many types of foliage. It requires no water, no maintenance or additional lighting

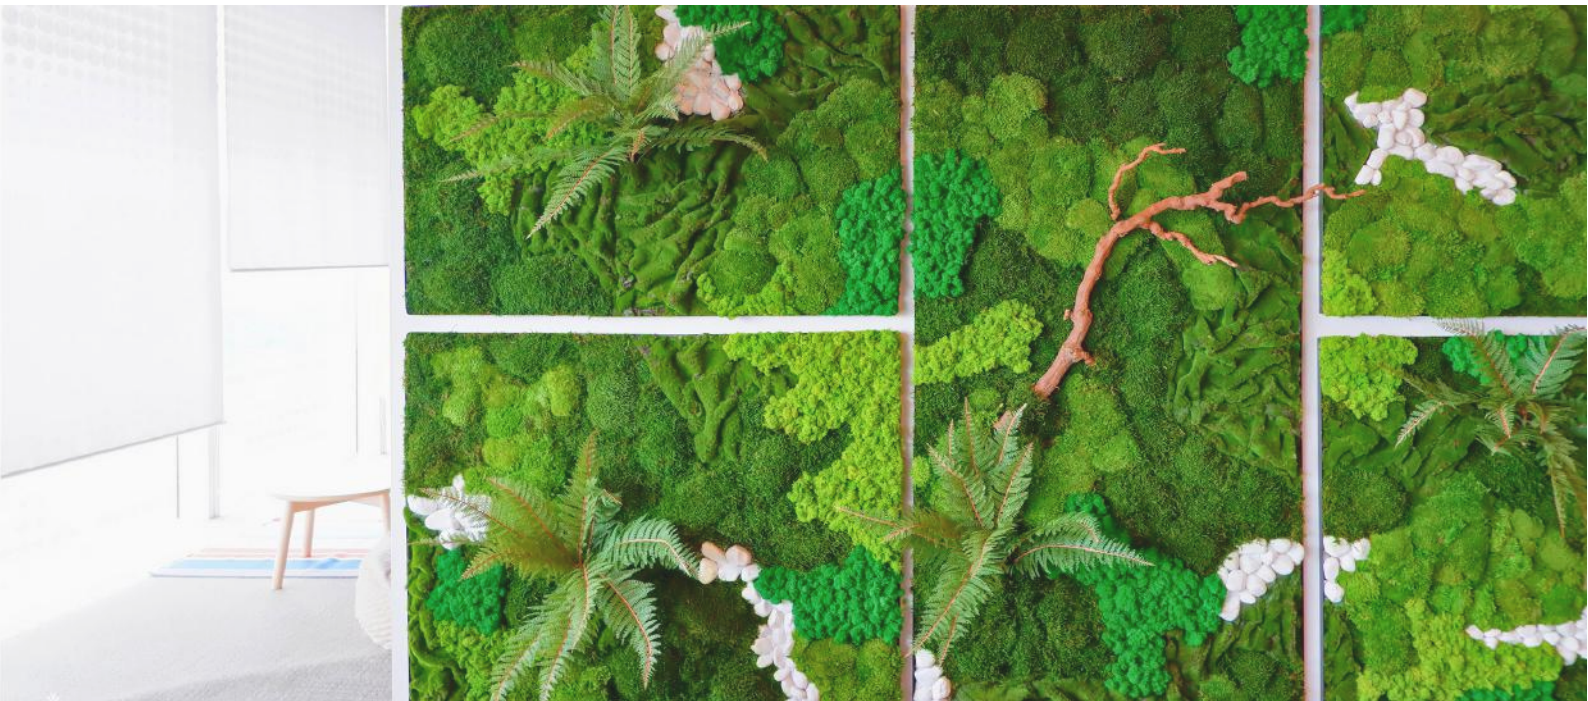

HyGro[®]Moss

HyGro[®] Preserve

HyGro[®] Moss

Our preserved moss collection features a stunning range of vibrant, natural mosses expertly preserved to maintain their lush, green appearance. Perfect for adding texture and eco-friendly elegance to any space, it requires no maintenance, water, or sunlight, offering a hassle-free way to bring nature indoors.

Moss Selection

Preserved Reindeer Moss

A shrubby structured moss that gives a soft aesthetic and dampens sound, making it an excellent acoustic material. Available in a wide variety of colours for you to choose from.

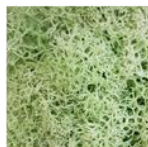

Common Green Selections:

Leaf Green

Lime Green

Mint Green

Turf Green

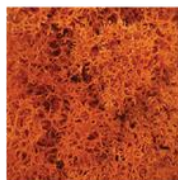

Nature Green
