

2026

# ELANTRA

## Elantra drivers know what's best.

One look, one drive – and you'll know that the Hyundai Elantra takes style, safety and innovation to the highest levels. How high? The 2025 Hyundai Elantra Hybrid was named a 2025 Best Car for the Money by *U.S. News & World Report!* That's four years in a row.

You'll see Elantra's award-winning recipe in its parametric design, aggressive grille and striking alloy wheels. You'll also see it in the variety of trim levels to suit every taste, including SEL Sport and SEL Sport Premium trims for those who seek an edgier style.

Look behind Elantra's LED headlights, and the recipe expands with a choice of engines. You can go for Elantra's 2.0L gas engine that balances robust power and fuel efficiency. Elantra Hybrid uses a 1.6L engine and adds electric power to deliver up to an EPA-estimated 54 combined MPG.<sup>2</sup> A 1.6L turbo engine backs up Elantra N Line's motorsport-inspired style. Want the full Hyundai N high-performance experience? Check out the turbocharged 276-hp Elantra N with its available N 8-speed Wet Dual Clutch Transmission.

Even before you step inside of your Elantra, smart technologies empower you. The available MyHyundai with Bluelink app lets you unlock the doors and start the engine using your compatible smartphone or smartwatch.<sup>3</sup> And you can easily share your available digital key with family or friends using Apple Wallet,<sup>®</sup> Google Wallet<sup>™</sup> or Samsung Pass<sup>®</sup>.<sup>4</sup>

Once you're in the driver's seat, the Elantra experience gets even better. Apple CarPlay<sup>®</sup> and Android Auto<sup>™</sup> are both standard,<sup>5</sup> while Bluetooth<sup>®</sup> lets you connect two phones simultaneously to the available Bose<sup>®</sup> premium audio system – ideal for streaming your music playlists. Available ambient lighting sets the mood with a palette of 64 colors. And an available 10.25" touchscreen serves up a treasure trove of connected-car features.

Put it all together...and your best bet is always the Hyundai Elantra.

ELANTRA Hybrid Limited in Ecotronic Gray

# Journey more, pump less.

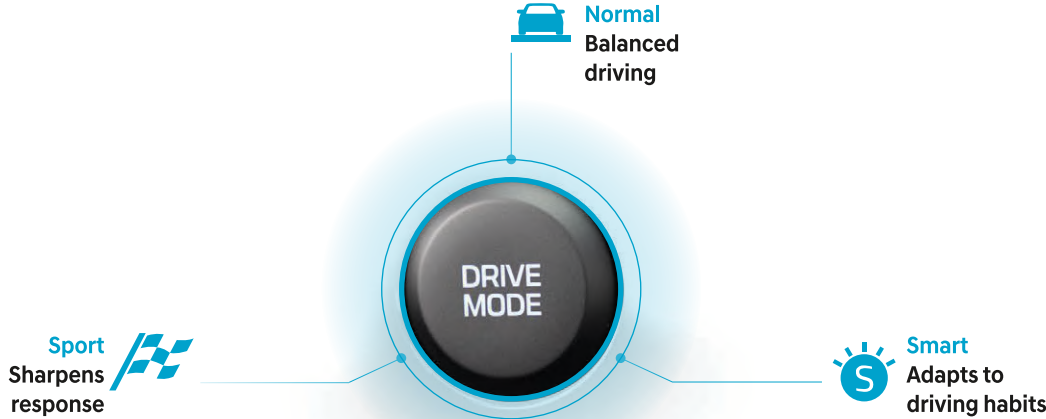

Like every Hyundai, we designed the 2026 Elantra to be the sort of companion you'd want – wherever your journey goes and whichever version you choose. Its intelligent engine and performance technologies help ensure you'll enjoy the sort of reliable, fun and versatile partner that can turn each trip into a rewarding experience.

That starts with Elantra's standard Smartstream 2.0L Atkinson Cycle engine, which is paired with an Intelligent Variable Transmission. Together, these advanced systems deliver smooth, sure power for comfortable cruising and confident passing. It's a highly efficient drivetrain that makes the most of its output while conserving fuel – the 2026 Elantra SE has an EPA-estimated rating of up to 40 MPG on the highway.<sup>6</sup>

Once you grab hold of the steering wheel, you'll feel how fun Elantra is on the road – proving that it's possible to be both easy on gas and a blast to drive. Select Drive with the sporty gear shifter, steer confidently into the next turn – and the Hyundai Elantra will show you how well it can handle itself in a corner. You'll quickly sense the firm bond forged between you, your Elantra and the pavement.

With a feature called Drive Mode Select, you can choose how your Elantra's dynamics match your preferred style of driving. In any mode – Sport, Smart or Normal<sup>7</sup> – Elantra moves with quiet confidence thanks to seals on each door's glass that are extra tight and secure, helping to keep high-frequency noise from disturbing the peace of your passenger cabin. After all, you deal with enough noise out there in the real world, right?

# Elantra N Line and Elantra Hybrid: Define performance your way.

At Hyundai, we know that the word performance can mean different things to different drivers. To some, it evokes the kind of responsive power and handling reflexes that make driving exhilarating. To others, performance means efficiency and augmenting the engine with electric motors to help extend your range. No matter how you define it, the 2026 Elantra lineup offers models to match your desire.

For drivers seeking a boost in power, there's Elantra N Line. It sports a turbocharged 201-hp engine lurking under the hood, matched by dual chrome exhaust tips tucked under the rear bumper. Controlling all of that power is a 7-speed Dual Clutch Transmission with paddle shifters.

With each turn of the steering wheel, you'll feel the firm grip of Elantra N Line's performance tires on unique 18" alloy wheels. As you start to carve corners, you'll sense the stabilizing effects of its sport-tuned suspension.

For those wanting electric power to help boost their miles per gallon, we offer Elantra Hybrid in three trims: Blue, SEL Sport and Limited. Their advanced powertrain features a 1.6L GDI engine, 32 kW electric motor and 6-speed EcoShift Dual Clutch Transmission that combine for 139 hp, 195 lb-ft of torque and segment-leading fuel economy<sup>8</sup> topped by Elantra Hybrid Blue's EPA-estimated rating of up to 54 combined MPG.<sup>2</sup>

Both Elantra N Line and Elantra Hybrid feature a multi-link rear suspension for confident cornering. And both come equipped with braking systems that enhance stopping power, thanks to the N Line's larger front discs and Hybrid's electric brake booster. So whether you press the pedal on the right, or the pedal on the left, the performance is impressive.

# Elantra N: Our sports sedan with the sharpest edge.

'N' is how Hyundai says performance in a single letter. N is for Namyang, our global R&D facility. It's also for Nürburgring, the legendary circuit in Germany where the bar is set for world-class performance. At both sites, an elite corps of Hyundai engineers test technology developed for our global rally and road racing programs, then apply it to dial up street-legal machines like the Elantra N.

Elantra N has a look that grabs attention from the get-go with a bold grille, N-specific red trim and larger air intakes up front. At the back, there's a dual exhaust, an aero-tuned rear diffuser and a rear wing spoiler. The stance is equally aggressive, with forged 19" wheels and MICHELIN® Pilot Sport 4S tires.

Beneath the skin, Elantra N's suspension is stiffer. Its steering ratio is quicker. And its brakes are beefier. A "Flat Power" 2.0L Turbo engine delivers 276 hp and 289 lb-ft of torque. Armed with Launch Control<sup>9</sup> and an available 8-speed Wet Dual Clutch Transmission with N Power Shift, you can sprint from 0-60 mph in about 5 seconds on the racetrack. Press that red button on the steering wheel, and you trigger an N Grin Shift overboost that adds 10 horsepower for 20 seconds.<sup>10</sup> A full-on N performance setting and two custom drive modes are accessed via blue steering wheel buttons.

Cornering precision comes from Elantra N's electronic limited-slip N Corner Carving Differential and an Integrated Drive Axle that helps handle extreme lateral g-forces.<sup>11</sup> A second-generation Electronically Controlled Suspension allows our widest range of suspension settings ever. Tune it for extreme track situations. Or for that next road trip.

# See safety from new angles.

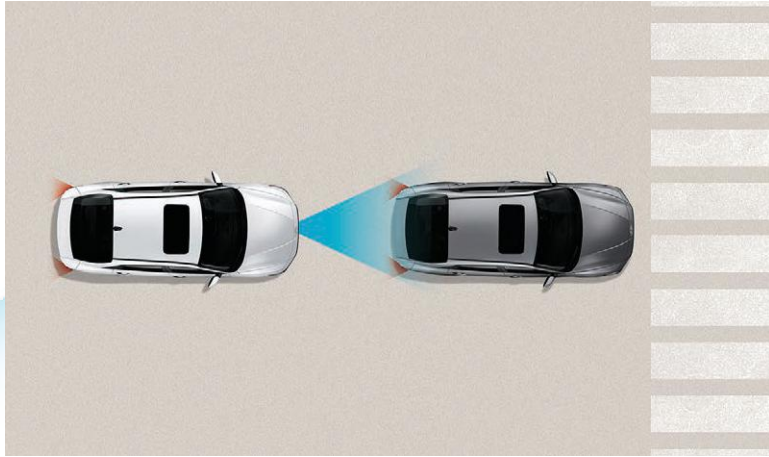

With all of the advanced safety systems it carries on board, your Elantra is on guard every time you get in, fasten your seatbelt and head out on the road. Hyundai SmartSense, our suite of innovative driver alert and assistance technologies, offers 360 degrees of protection – constantly scanning all directions for potential hazards at the front, rear and sides of your car.<sup>12</sup>

Elantra's long list of safety features includes the use of available haptic feedback – an unobtrusive pulsing vibration in the steering wheel<sup>13</sup> – that intuitively alerts the driver whenever standard Lane Keeping Assist,<sup>14</sup> Blind-Spot Collision Warning<sup>15</sup> or Rear Cross-Traffic Collision-Avoidance Assist<sup>16</sup> are triggered. Also standard are rear side airbags on every trim level.

## Hyundai SmartSense Technologies

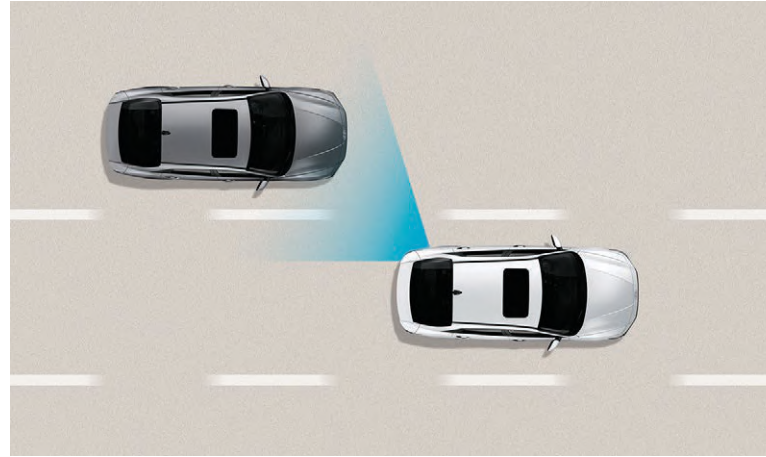

Overall 5-Star Safety Rating  
2025 Hyundai ELANTRA<sup>17</sup>

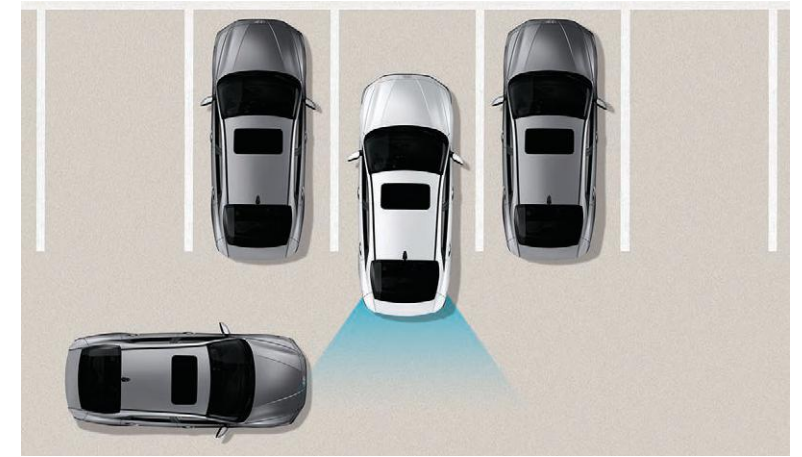

### 1. Forward Collision-Avoidance Assist

When the front-facing camera or available radar detects a vehicle, pedestrian or cyclist in your path, or an oncoming car when turning left in an intersection, your Hyundai warns you of a potential collision. If necessary, the system may automatically apply emergency braking to help avoid a collision.<sup>18</sup>

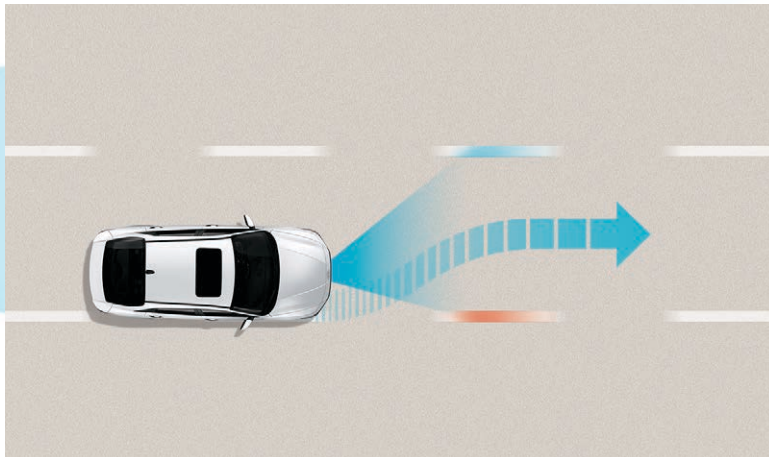

### 2. Blind-Spot Collision Warning

If your Elantra detects a vehicle in your blind spot while the turn signal is on, it issues an alert before you change lanes to help avoid a collision. It also monitors for vehicles approaching from behind to help prevent collisions when you are exiting a parallel parking spot.<sup>15</sup>

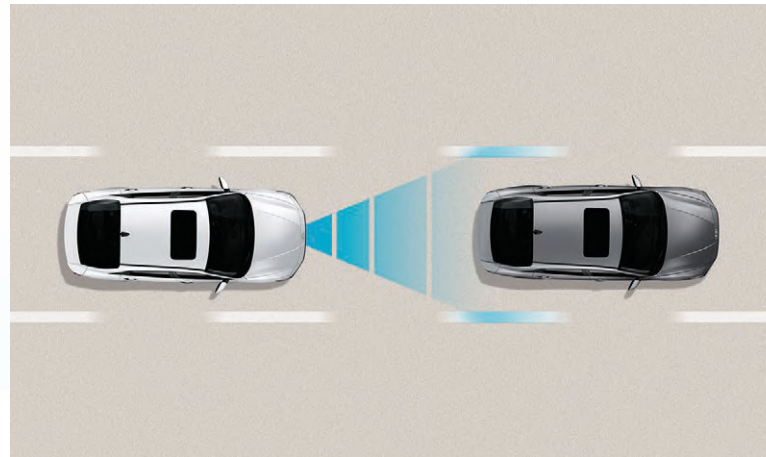

### 3. Rear Cross-Traffic Collision-Avoidance Assist

Backing out of a parking space and wondering whether there is cross traffic coming your way? This feature can warn you of another vehicle approaching from the side. If necessary, your Hyundai may automatically apply braking to help prevent a collision.<sup>16</sup>

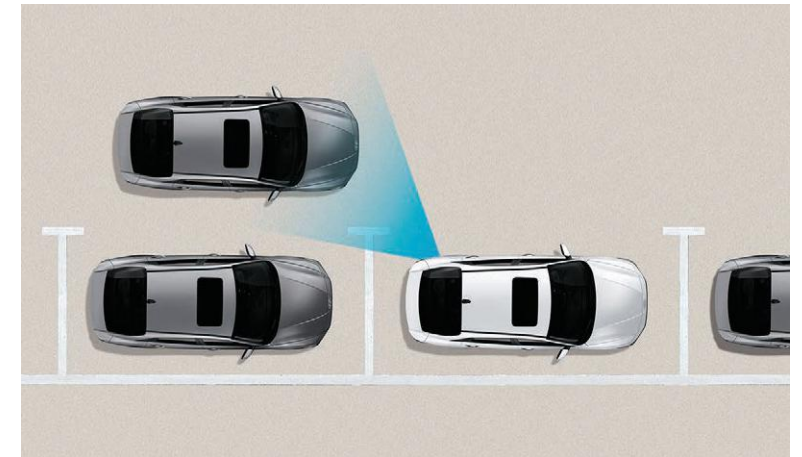

### 4. Lane Following Assist

Using the vehicle's front-facing camera to detect lane markers on the road, this feature assists the driver's steering to help keep you centered in your lane. It even helps determine a virtual path based on the movements of the preceding vehicle, utilizing this additional reference point to help keep your vehicle tracking smoothly in your lane.<sup>19</sup>

### 5. Highway Driving Assist

Acting as your copilot on highways, this feature is available to help keep you centered in your lane while also maintaining a set speed and distance from the vehicle in front. It uses navigation map data to automatically adjust for changing speed limits and can reduce your speed when it detects you're approaching a curve in the road.<sup>20</sup>

### 6. Safe Exit Warning | Rear Occupant Alert

After you park, Safe Exit Warning issues an alert when a vehicle is detected to be approaching from behind, letting the driver know it may not be safe for passengers to open the street-side door.<sup>21</sup> Elantra's Rear Occupant Alert feature can help remind the driver to check the 2nd-row seats for kids or pets after turning off the engine.<sup>22</sup>

# Advancing the art of comfort.

Inside, the 2026 Elantra is full of innovative ideas on design, technology and convenience. The low, wide dash wraps around you like a pilot's cockpit and is available with a fully digital 10.25" LCD instrument cluster and 10.25" navigation/infotainment screen. Integrated under a single cover of glass, the screen tilts toward the driver for improved visibility.

Now check out the back seat. That's best-in-class rear-seat legroom<sup>8</sup> with available 60/40 split-folding rear seats. But true comfort is about more than room. It's about whether what is inside actually makes life easier. With Elantra's available Dynamic Voice Recognition, for example, you simply use your conversational voice to adjust climate controls, select SiriusXM<sup>®</sup> channels and more.<sup>23</sup>

Need to power your devices? Dual front and rear USB ports are standard. Elantra's available next-gen wireless phone charger features a charging light indicator and a separator rail to keep your phone securely in place.<sup>24</sup> There's even a cooling function that helps prevent your phone from overheating while charging.

To keep you and your crew at the right temperature from the moment you get in, you can pre-warm or pre-cool your Elantra's cabin using your MyHyundai with Bluelink app.<sup>25</sup> You can also set the air conditioning's auto mode at any of three levels of airflow to circulate at your preferred intensity.<sup>26</sup> Other available features ready to perform: Wi-Fi hotspot capability,<sup>27</sup> a power sunroof and an 8-speaker Bose<sup>®</sup> premium audio system.

# Experience Bluelink+: No fees. No trial. No worries.

With the introduction of Bluelink+, Hyundai became the first automotive brand to offer its suite of connected car features to new car purchasers without a subscription. Today, Bluelink+ remains complimentary with the purchase of your new 2026 Elantra.<sup>28</sup>

Bluelink features technologies that help keep you safe – from automatic collision notifications and automatic emergency assistance if your airbags deploy to enhanced roadside assistance that sends your exact location to a roadside assistance associate.<sup>29</sup> Bluelink also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary with a 2026 Elantra new vehicle purchase.

Your MyHyundai with Bluelink app turns your compatible smartphone, smartwatch or smart home assistant device into a Bluelink remote control that can unlock your Elantra's doors and start the engine and climate controls before you walk out the door.<sup>25</sup>

And check this out – starting your Elantra remotely, or with the available Digital Key 2 Touch, restores your radio and navigation system presets using your Bluelink personal profile.<sup>3</sup> Apple Wallet,<sup>®</sup> Google Wallet<sup>™</sup> and Samsung Pass<sup>®</sup> let you share your digital key with trusted friends and family members<sup>4</sup> – as the primary driver, you can control when a shared key can be used, and pause or end shared-key access at any time.

## Bluelink

### Automatic Emergency Assistance

Bluelink Connected Care offers 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you're in an accident where your vehicle's airbags deploy.<sup>29</sup>

### On-Demand Diagnostics

Run vehicle diagnostics from your MyHyundai with Bluelink mobile app, report issues at the press of a button and receive maintenance reminders or monthly vehicle health reports by email.

### Remote Vehicle Controls

Your compatible smartphone, smart speaker or wearable device can be used to remotely start the engine, unlock your Elantra's doors, set the cabin's temperature and more.<sup>25</sup>

### Over-the-Air Software Updates

Convenience is taken to the next level with Over-the-Air software updates that keep your infotainment and vehicle software up-to-date without requiring a dealership trip.<sup>30</sup>

### Remote Vehicle Status

Wondering how much fuel is left in your tank? If your Elantra's trunk is closed or doors are unlocked? Your MyHyundai with Bluelink app knows these answers and more.

### Hyundai Pay

Paying for fuel or parking is easy with the Hyundai Pay feature. It lets you find and complete payments for fueling or reserve parking directly from your vehicle touchscreen.<sup>31</sup>

**Owner Assurance**

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we have got your back with Hyundai Owner Assurance, an umbrella of services and benefits that includes America's Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features... and more.

America's Best Warranty claim based on total package of warranty programs. See your Hyundai dealer for LIMITED WARRANTY details and HyundaiUSA.com/Assurance for Owner Assurance details and limitations. While the information contained in this brochure is based on the latest information available at the time of publication, specifications and equipment can change. Feature comparisons based on competitor information available at the time of publication. Although the information in this brochure is believed to be correct, accuracy cannot be guaranteed. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time, without notice, without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer or visit HyundaiUSA.com for current vehicle specifications or details on any of the programs or services listed here.

## Footnotes

<sup>1</sup>View U.S. News Best Cars at cars.usnews.com. <sup>2</sup>2026 Hyundai ELANTRA Hybrid Blue: 51 City/58 Hwy/54 Combined MPG. 2026 ELANTRA Hybrid SEL Sport and 2026 ELANTRA Hybrid Limited: 49 City/52 Hwy/50 Combined MPG. All figures are EPA estimates for comparison purposes only. Actual mileage will vary with options, driving conditions and habits, vehicle's condition and other factors. <sup>3</sup>Digital smartphone key requires a compatible smartphone and an appropriately equipped Hyundai vehicle. Not all smartphones are compatible. Hyundai vehicle must be equipped with a smart key and push button start, wireless device charging, and Audio Video Navigation System 5.0 (or newer) or Display Audio 2.0. Tap to lock/unlock function works on front doors only. Requires MyHyundai with Bluelink app and active Bluelink account. Please visit www.MyHyundai.com for information on compatible devices. Features and specifications subject to change. See your Owner's Manual for additional details and limitations. <sup>4</sup>Apple Wallet® is a registered trademark of Apple Inc. Samsung Pass® is a registered trademark of Samsung Electronics Inc. Google Wallet™ is a trademark of Google LLC. <sup>5</sup>Apple® is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. <sup>6</sup>2026 Hyundai ELANTRA SE: 31 City/40 Hwy/35 Combined MPG. All figures are EPA estimates for comparison purposes only. Actual mileage will vary with options, driving conditions and habits, vehicle's condition and other factors. <sup>7</sup>Drive modes vary by trim level. <sup>8</sup>Class comparison based on primary compact sedan competitors as defined by Hyundai Motor America. Competitors within this class are the 2026 Honda Civic Hybrid, 2026 Toyota Corolla Hybrid, 2026 Nissan Sentra and 2026 Mazda3 Sedan. Claim based on comparison of specifications on manufacturer websites. <sup>9</sup>Only use N Launch Control feature on a closed racetrack and with extreme caution. Never use N Launch Control on public roads. See Owner's Manual for further details and limitations. <sup>10</sup>N Grin Shift feature only available when configured with 8-speed Dual Clutch Transmission. Always use extreme caution when using the N Grin Shift feature. The driver is responsible for being attentive and maintaining control of the vehicle at all times. See Owner's Manual for further details and limitations. <sup>11</sup>Always use extreme caution when using the N Corner Carving Differential (e-LSD) feature. The driver is responsible for being attentive and maintaining control of the vehicle at all times. See Owner's Manual for further details and limitations. <sup>12</sup>Safety features vary by model and trim level. For details, refer to the Features chart in this brochure or visit HyundaiUSA.com. <sup>13</sup>Haptic feedback not equipped on ELANTRA N and N Line. <sup>14</sup>Lane Keeping Assist operates only when the lane markings are clearly visible on the road. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. It uses a camera in the upper windshield area, so it is imperative this area be free of blockage such as stickers, dirt, snow, tinting material, markings and labels. Avoid putting objects on the dashboard that may reflect light or images onto the system camera area. See Owner's Manual for details and limitations. <sup>15</sup>Blind-Spot Collision Warning (BCW) can assist the driver by warning of other cars in the blind spot region. While your turn signal is on, it can alert you visually, by sound and/or by haptic feedback when equipped. It senses the rear side territory of the vehicle when it is traveling over approximately 12 mph. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. Its operation depends on the size, distance, angle and relative speed difference between your car and other cars. BCW may not operate if sensors are obscured in any way. Do not rely exclusively on BCW. BCW is a supplemental system, and the driver must still be attentive and exercise caution when driving. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for further details and limitations. <sup>16</sup>Rear Cross-Traffic Collision-Avoidance Assist (RCCA) can alert the driver of a potential collision by providing an audible warning and/or applying braking. RCCA is active when the vehicle is in reverse and operating at low speeds. Never rely exclusively on RCCA. RCCA cannot prevent all collisions and may not provide alerts or braking in all conditions. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. <sup>17</sup>Overall 5-Star Safety Rating applies to 2025 ELANTRA and ELANTRA Hybrid models. It does not apply to 2025 ELANTRA N models. Government 5-Star Safety ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (nhtsa.gov). <sup>18</sup>Forward Collision-Avoidance Assist with Pedestrian, Cyclist, and Junction Turning Detection is intended to be a supplement to safe driving practices. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians or cyclists under certain conditions. The system's Junction Turning function operates when the vehicle's left turn signal is activated, the vehicle is traveling between approximately 6-19 mph and the oncoming vehicle's speed is between approximately 19-44 mph. The system is a driver assistance system and is not a substitute for safe driving. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for further details and limitations. <sup>19</sup>Lane Following Assist (LFA) helps keep the vehicle centered in its lane when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. <sup>20</sup>Highway Driving Assist (HDA) is for highway use only and can help keep the vehicle centered in its lane while maintaining a safe distance from the vehicle ahead only when the lane markings are clearly visible on the road. It and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the car to avoid a collision. See Owner's Manual for details and limitations. <sup>21</sup>When the vehicle is parked, Safe Exit Warning (SEW) can alert the driver when a vehicle is approaching from behind. SEW does not work in all situations and is not a substitute for driver or passenger attentiveness. Always be aware of your surroundings and attentive of approaching vehicles. See Owner's Manual for details and limitations. <sup>22</sup>Upon turning the engine off, Rear Occupant Alert (ROA) will provide a visual alert on the instrument cluster. ROA is not a substitute for driver attentiveness. Never leave a child or pet unattended in a vehicle. See Owner's Manual for details and limitations. <sup>23</sup>Dynamic Voice Recognition varies by unit. Certain functions such as weather information, stock market quotes and sports scores require an active Bluelink account and an internet connection. Speak in a normal voice and minimize background noise for best results. See Owner's Manual for details and limitations. <sup>24</sup>Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. <sup>25</sup>Not available on ELANTRA SE, SEL Sport (non-hybrid), SEL Sport Premium and ELANTRA Hybrid Blue. Requires active Bluelink Advanced subscription (complimentary for the original owner). Remote climate control available on properly equipped models with fully automatic temperature control. <sup>26</sup>Not available on ELANTRA SE. <sup>27</sup>Requires active data plan from Verizon and acceptance of Hyundai Motor America Connected Services Terms and Conditions. Coverage and service are not available in all areas. Wi-Fi hotspot is intended for passenger use only. Only use Wi-Fi and connected devices when safe to do so. For terms and conditions, see www.verizon.com/plans/connected-car/. <sup>28</sup>Not available on ELANTRA SE, SEL Sport (non-hybrid), SEL Sport Premium and ELANTRA Hybrid Blue. Bluelink+ is available to original purchasers and lessees of new 2024 or newer Bluelink-equipped Hyundai models. Not available on all models and trims. Bluelink+ requires an active Bluelink account subject to the Connected Services Terms and Conditions. Bluelink features vary by model and trim. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Fees apply for map and multimedia Over-the-Air (OTA) updates after an initial three-year period of complimentary updates. Three-year term starts from the new vehicle date of first use. Features, specifications, and fees are subject to change. Bluelink services rely on digital wireless telecommunications technology outside of Hyundai's control. Bluelink is dependent on 4G LTE cellular networks controlled and maintained by third-party wireless carriers. If and when these networks change and/or discontinue service, or the underlying technology required to support Bluelink becomes obsolete, then the connected services will not work and Hyundai will be forced to cancel impacted subscription services. <sup>29</sup>Bluelink agents will contact existing emergency service responders. <sup>30</sup>Map Over-the-Air (OTA) software updates are available and complimentary to original purchasers and lessees of new 2026 ELANTRA Bluelink-equipped Hyundai vehicles ("Eligible Models") for an initial three-year term, after which fees apply. Three-year term starts from new vehicle date of first use. OTA updates require an Eligible Model and an active Bluelink subscription agreement subject to the Connected Services Terms and Conditions. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. <sup>31</sup>Hyundai Pay is available on select 2021-2026 model year Hyundai vehicles equipped with Bluelink and touchscreen navigation. Requires an active Hyundai Bluelink mobile app account, subject to the Connected Services and Hyundai Pay Terms and Conditions. Cellular and GPS coverage is required. Valid Visa, MasterCard or American Express credit card must be linked to Hyundai Pay. Credit card eligibility and terms are determined by the card issuing bank. Hyundai Pay is currently accepted at select gas stations, charging stations and parking facilities (collectively, "Merchants") in the U.S. Participating Merchants may not operate in all states or locations. Additional Merchant terms and fees may apply. Features, specifications, fees and availability are subject to change. Visit Owners.HyundaiUSA.com for more information.

**Hope comes standard on every Hyundai.**

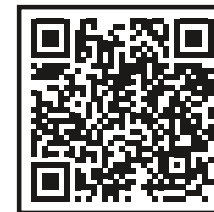

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 27 years, Hyundai Hope On Wheels has donated \$277 million to pediatric cancer research. Hope is our greatest feature. And it comes standard on every Hyundai.
