Installation information

Number of installers (concrete)	At least 2 people
Total installation time (concrete)	45-90 min.
Number of installers (equipment)	At least 2 people
Total installation time (equipment)	20-30 min.
Excavation volume	14,13 ft ³
Concrete volume	14,13 ft ³
Size of the base structure	2pc 19.69 x 19.69 x 31.5 „
Anchoring options	In-ground or surface
In combined structures, the volume of concrete required varies.	

Technical specification

Safety surface area	Around 4.92 ft radius
Net weight	61.73 lbs
Material	S235
Critic fall height	43,31"
Color options	

For more color options, discuss with your sales representative.

Warranty

Structure	25 years
Steel	15 years
Paint	2 years
Plastic	5-10 years
Rubber	1-3 years
Moving parts	2 years
Detailed information in the warranty document	

Material specification

The element is made of high quality S235 steel, which has been cleaned via sandblasting. A corrosion resistant powder coating finish is then applied. Also available with galvanized surface for even greater protection and longevity!

The clamp system allows for easy assembly and extreme stability.

The connecting elements are fastened with vandal-proof stainless steel screws and nuts.

The ends of the bars and posts are sealed with injection-moulded plastic caps.
