

2022-23 CATALOG

JOE COOMBS
CLASSICS, INC.

GOD BLESS THE USA

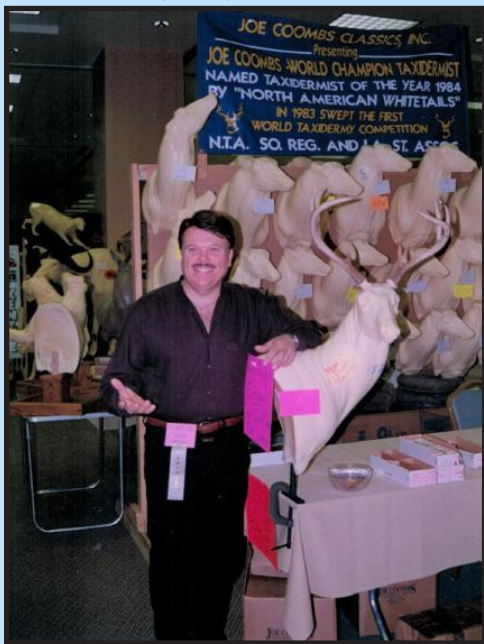

Welcome Loyal and New Customers to the Joe Coombs Classics 2022-2023 Catalog

Getting to know World Champion Joe Coombs...

What started as having a God given talent in art and a love for wildlife, those two came together quickly for Mr. Joe. It started out with mounting a bass for his father's friend. Which would later turn into his career in the taxidermy world as we know it today. After opening a studio and providing his customers with the highest quality of artwork, everybody was elated with the work Mr. Joe did. They urged him to show everybody how talented and blessed he really is in the competition world. In his first year of competing he swept the State, Regional, National, and the World Taxidermy Shows. Mr. Joe won his Award of Excellence at the National Taxidermy Convention with 64 total points in his first year, and no one has topped that record. One of his proudest accomplishments is winning the Carl Akeley Award for Best in the World Whitetail. The next part of his journey is where we are today with Joe Coombs Classics. God provided Mr. Joe with skills and insight to sculpt and make manikins and pass on his abilities to other taxidermists. His goal has always been to provide the very best taxidermy supplies on the market and quality customer service to loyal and new customers. Joe Coombs Classics has been in business now for over 35 years, still learning, listening and growing in order to serve our friends and customers. Mr. Joe thanks each and every one who has made all of this possible for him. Most of all he praises God for gifting him with all the talent and ability to make his life what it is today.

According to North American Whitetail Magazine, the World Taxidermy Championship in Atlanta was the toughest competition ever held. The prestigious "Whitetail Taxidermist of the Year" award, sponsored by North American Whitetail Magazine and the "Best in the World" award for whitetails was won by Mr. Joe.

"Every skill or talent I may possess, every success I am blessed with, everything I have or do is a gift from God. He has blessed me abundantly and i feel compelled to pass along that blessing by sharing my talents, experiences, and whatever expertise I am given, with everybody I come in contact with. If I can help you in some way to be a better taxidermist, that is my blessing for you."

The Carl Akeley Award won for Best in the World Whitetail.

Mr. Joe receiving his President's Award from N.T.A. President Don Holt.

Mr. Joe takes tremendous pride in the magnificent whitetails he has raised. He has studied them for years and will continue to study them everytime he sculpts a new line of Coombs Classics forms. "No matter what I mounted, I studied the live animal. My reference was always nature itself, it doesn't get any better than that. Remember you're trying to duplicate nature, not create your interpretation of what you think it is."

How To Measure

All forms/manikins in this catalog are copy written. Any copying of these forms/manikins is prohibited and violators will be prosecuted. Pivot Pedestal manikins are patented (6,458,434).

Before altering or prepping forms, please check hide's fit on form. Once a form has been altered or prepped there will be NO EXCHANGE OR REFUND GIVEN.

All measurements are made WITHOUT SKIN.

All measurements are taken with a 1/4" metal measuring tape. Using other tape measuring devices may give you measurements that may not match the measurements of Classics Manikins.

Joe Coombs Classics sizing method for manikins may not be the same as other supply companies. Joe Coombs has sculptured his forms to match nature therefore we do not have unnatural swells in the neck to require additional measurements further down.

Primary measurements should be Size A and Size B.

If your size A and size B are accurate, size C is irrelevant. Size C is given for your reference only and should not be the primary measurement when sizing our forms. Using size A and size C as primary measurements can result in a hide not fitting properly.

Size A: Tip of nose to corner of eye as illustrated.

Size B: At beginning of swell from under chin as illustrated.

Approximately 2-3" down from small of neck around the atlas bone.

Size C: At small of neck as illustrated

URNS ARE DETERMINED BY THE ANIMAL'S RIGHT OR LEFT.

Use Size A and Size B measurements for Antelope and Caribou.

AUTO-SET™ ANTLERS- The quick and easy way to attach antlers to a Classics for a perfect fit.

A- Cut half-way between back of eye socket and base of burrs.

B- Cut 1" to 1 1/2" below back of skull.

Following these instructions will assure you a perfect fit on a CLASSICS.

AUTO-SET™ EYES- The eye sockets of these forms are preset at the proper angle forward and tilt downward, according to our study of live whitetails. The marks at the front and back of the eye socket allow you to line up the pupil with these marks and the eye is automatically set.

See **AUTO-SET™** eye instructions page 114

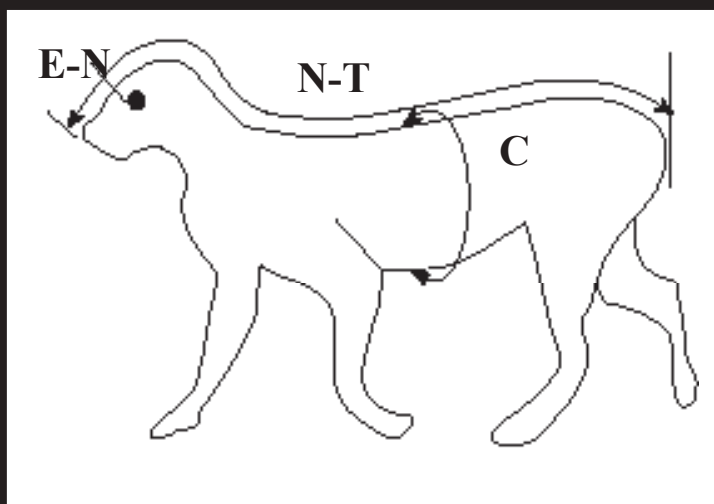

PLEASE NOTE: An Asterisk (*) will be found by the form number and noted at the bottom of a description for **AUTO-SET™** eyes.

Measuring Life sized Mammals

E-N = Eyes to Nose

N-T = Nose to base of the tail

C = Circumference around the largest part of the mid section.

9500 FULL WALL PEDESTAL SEMI SNEAK

A true staple in the Classics lineup. For record book and trophy whitetails, see why more taxidermists and hunters prefer the Classics 9500 Series.

9500 FULL WALL PEDESTAL SEMI SNEAK

The 9500 series by Joe Coombs are a great alternative to traditional wall mounts. Joe expanded on that idea and created the full wall pedestal in the semi sneak position. With the extended back of the 9500 series, customers can now show off more of their trophy whitetails. The side profile also gives viewers a better appreciation of the actual size of the animal to go along with the antler display. Nothing on the market compares to the quality and uniqueness of the Classics 9500.

Must use spacer kit if hanging with CH9400

This new series features a side shoulder block for mounting as a Wall Pedestal and a receptacle inside the manikin for mounting as a Pivot Pedestal. It also has a wood block in the back for connecting it to a mounting stand. A ridged back allows for easy tucking of the hide.

With this manikin, you can completely finish your mounting and then decide on the wall pedestal or pivot pedestal look. Use 8" pipe kit CST38 if mounting as a Pivot Pedestal.

If mounting as a Pivot Pedestal, the circumference of your base must not exceed 6" if you want your mount to turn 360° on the 8" pipe. If your base is larger, you will have to use a longer pipe.

JOE COOMBS CLASSICS EXCLUSIVE PIVOT PEDESTALS

With just a touch your customer can display their trophy at any angle they desire. Our exclusive pipe kit is ready to assemble. Classics pivot pedestal forms allow new and exciting ways for the customer to display their trophies. Each manikin has three support blocks. A head block to support the antlers. A mounting block located at the center of the backside of the manikin that is used to support an attachment to the mounting stand. The backside of each manikin has an easy to follow ridge that allows the hide to be turned back for a smooth professional finish. As always, the pedestal manikins have naturalistic detailing along with Joe's exclusive AUTO-SET EYES™ that take the guess work out of setting eyes. Molded into each manikin is a receptacle to receive the mounting kit.

**Pivot Pedestals are patented by Joe Coombs.

KLEI EXTREME HIDE PASTE

The all new KLEI™ Extreme Hide Paste from Ocello Enterprises is the latest hide paste on the market. KLEI™ (pronounced CLAY) Extreme Hide Paste is an innovative adhesive, with many unique features unlike any other hide paste currently on the market. Comes in powder form in a resealable bag. Long shelf life, easy to mix powder, mix it to the consistency you prefer, cleans up and brushes out of hair really easy. One pound can do an average of 2-3 average sized whitetail.

Item No.	Size	Price
KLEI 1	1 lb.	\$10.25
KLEI 4	4 lbs.	\$35.00
KLEI 10	10 lbs.	\$79.50

Wild Boar By Joe Coombs

The Classics Wild Boar manikins are designed more for the feral variety of boars. Boars that are the result of pure bred boars who over the years have bred with domestic pigs. They display a broader head with a greater distance between the eyes and a shorter muzzle.

Features:

- Auto-Set™ Eyes
- Ear butts with deep canals
- Detachable lower jaw with a wood block and screws
- Classics jaw sets just drop in
- Muzzle lengths coincide with jaw sets
- Veins and nose tendons correctly depicted
- Deep nostrils molded in
- Anatomically accurate shoulder bulge to indicate shield
- Brisket, arm pits, and throat latch are anatomically accurate
- Lip lines are defined and the ear ducts are detailed

Euro Boar By Joe Coombs

The Classic Euro Boar is for those Boars of a purer blood line of European wild boar, Russian boar, or Razor-back boar. These boars display a more narrow head with a shorter distance between the eyes. The muzzle is thinner and more elongated than the more feral variety of boar.

Features:

- Auto-Set™ Eyes
- Ear butts with deep canals
- Detachable lower jaw with wood block and screws
- Classic jaw sets just drop in
- Muzzle lengths coincide with jaw sets
- Deep nostrils molded in
- Anatomically accurate shoulder bulge to indicate shield
- Brisket, arm pits, and throat latch are anatomically accurate
- Lip lines are defined and the tear ducts are detailed

*Classics Attack Bear
by
Joe Coombs*

**Jaw Set Not Included
with Attack Bear**

This is a fearsome looking form even before the skin is put on. This half wall mount is a great alternative to full body mounts. The character and expression of this form will produce a lifelike mount in a terrifying attack pose that is sure to please your customer. No need to saw out a mouth plug here. Joe Coombs sculptured this form with a detachable lower jaw so that the Mohr jaw set fits perfectly.

CLB35

**Jaw Set Not Included
with Leaping Bears**

- Leaping Wall Mounts
- Detachable Lower Jaw
- Modification to Jaw Set is Necessary to Fit Form

Joe Coombs Classics is proud to offer Bobcats by World Champion Brian Harness. These Bobcats are from his Divide & Conquer Series. With this series, all four legs and the head detach from the body. This allows for smaller incisions so that your sewing time is cut in half. Skin slots do not have to be cut into the arm pits because they have been molded into the manikin. These manikins also display exceptional anatomical detail.

Please Note:

- Manikins are sold by themselves. Reproduction noses, tails, and rocks sold separately.
- Only the manikins that are listed with Brian Harness as sculptor are from the Divide & Conquer Series.
- Brian Harness manikins do not come with tail wire. **E-N** = Eye to Nose Measurement

N-T = Nose to base of Tail Measurement

C = Circumference around the largest part of form

Bobcat Pedestals

These pedestals have been meticulously sculptured by Brian Harness. They are produced in state of the art molds which yield exceptional detail, very small seam lines, and a light colored foam that is easy to sand. Put one in your shop and just see how well they sell themselves. Buy the manikin, rock, and base together and save.

****All wire is sold by the bundle, not by the pound****

BIRD HEADS BY RANDY TURNER

Excellent Detail • No Shrinkage to Rebuild • No Pinholes •

Paint before installing, eliminates over-spray on feathers • No neck incision = No sewing of neck incision • Windpipe cutout molded into head • Skulls are accurate size, not "over-sculpted" • Completely bug-proof • Creates a very strong head-to-neck union • Nostril holes open all the way through bill

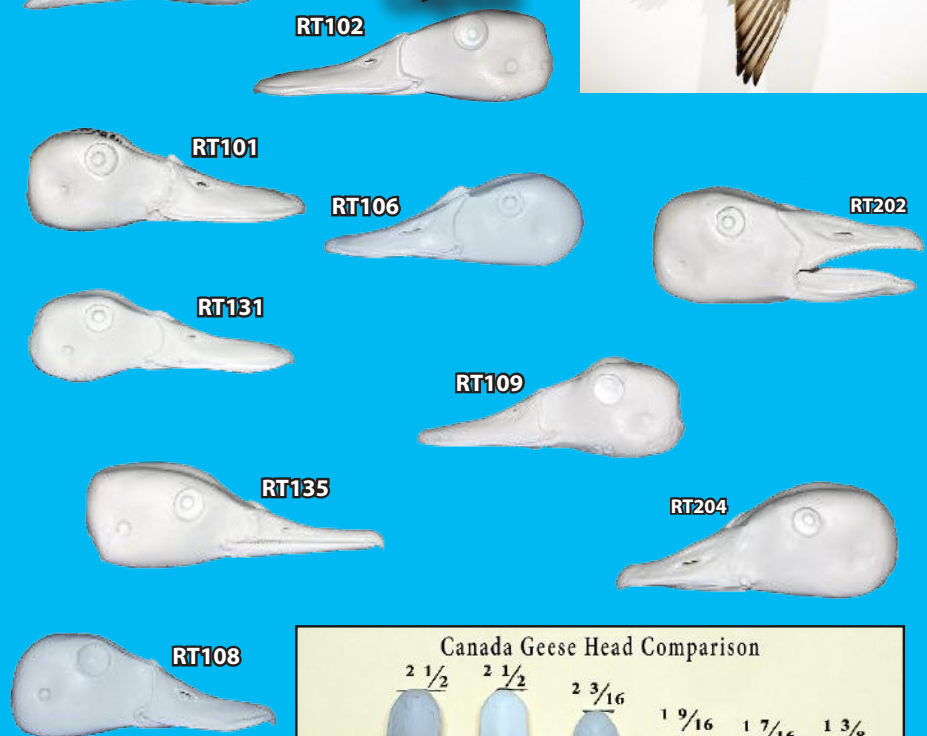

****Always wipe heads down with Acetone, Lacquer Thinner or any surface prepping solution, before painting heads. ****
You can view photos of all the heads listed at JoeCoombs.com

LARGEMOUTH BASS BY MATT THOMPSON

How To Measure

Length: Eye to base of tail.
 Fish 15" or less, the form should not be over 1/2" shorter or 1/4" longer. Fish over 15", the form should not be over 1" shorter or 1/2" longer than actual fish measurement.

Girth: Largest part of belly.
 Fish 15" or less you may use a form up to 3/4" smaller for the girth. Fish 15" or more up to 1" smaller. NEVER exceed girth measurement.

L - LEFT SIDE IS SHOW SIDE

Anthony Eddy's freeze dried chase fish will make a great addition to your fish mounts. They will add another dimension of depth and realism to your finished projects that your customers are sure to appreciate. The eyes are already installed, the fins are backed, and the show side is glossed. The fish are approximately 4-5 inches long.

MOUNTAIN MIKE'S REPRODUCTION SKULLS

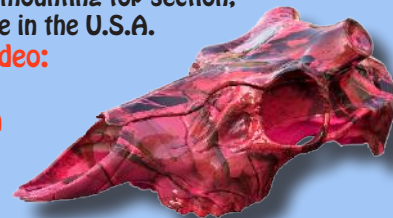

Natural

Put your prized antlers on display with the Skull Master Mounting Kit from Mountain Mike's Reproductions. Ground-breaking digitizing techniques and injection mold-making processes enabled the creation of this universal reproduction deer skull. Now you can remove the antlers from your deer and leave the skull behind, eliminating the need to boil or bleach. Designed to fit harvested and naturally shed whitetail and mule deer antlers, this mounting kit includes a detachable antler mounting top section, and antler mounting screws. Made in the U.S.A.

MMBF1	Black Forest	\$42.00

**MMBF1
Black Forest**
*Includes
medium & large
top sections.*

The Europlaque is a versatile plaque for displaying skull mounts. It can be assembled as a desk plaque or a plaque you hang on the wall. Great for deer, bear, boar, antelope, and other skulls! Can be used for real skulls or with Mountain Mike's reproductions.

Display your whitetail, mule, blacktail, fallow, or other deer's antlers in a few easy steps. Just detach your antlers flush at the pedicles and attach them from the bottom of the included skull plate using the hardware provided. It also works great on shed antlers!

MMRP1	Rack Plaque	\$40.00
MMPM1	Plaque Master	\$22.00

**MMRP1
Rack Plaque**

A tradition re-visited as Mountain Mike's brings to market a patent pending, 2-piece antler cover that's easy to use and looks great on this classic, knotty pine finished panel. This kit works great for antlers connected to their skull plate or detached antlers and sheds mounted on Mountain Mike's Shed Spreader reproduction skull plate. No more cumbersome-to-use red or green velvet plaques! 2 piece cover easily adjusts to any size antler bases. Kit includes Plaque Master with 2 piece cover, brass nameplate, pre-installed hanger, & screws.

A quality alternative to traditional, cumbersome velvet covered antler mounting plaque kits. Materials are extremely high quality and feature a genuine leather, embossed antler cover. Each kit contains all the hardware to get your rack on the wall in no time!

A shed spreader reproduction skull plate is included. The Rack Plaque offers 2 different methods for mounting your buck's antlers. For the best results we recommend using the included Shed Spreader reproduction skull plate. This will be faster and make a much cleaner look. It will work beautifully with your harvested animal's antlers or equally well with shed antlers. However, you can also mount your harvested antlers with its original skull plate intact, if you prefer.

**MMBM1
Beard Master**

*Factory Packaged Items Cannot
Be Returned Once Opened*

TOHICKON GLASS EYES

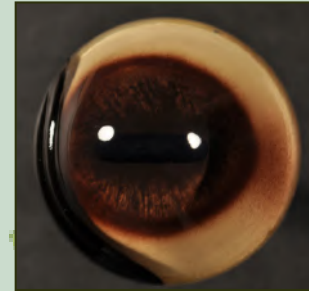

The Joe Coombs Nictitating Membrane Ultimate Whitetail Eye

Save time and add quality to your mount. No more guesswork for the placement and accuracy of the nictitating membrane. The beauty of these eyes with their deep optical quality crystal and subtle hand painted details is enough to please even the most discerning artist. Accurate shape, pupil placement, coloration, and correct height set this eye apart from the rest. Simply the best eye in the world.

**Joe Meder XB Series
Light Deer**

The Original Joe Meder XB Series Deer Eye

With its deep optical quality crystal, carefully painted details, and Tohickon's custom engineered glass colors, these are among the most beautiful glass eyes ever made specifically for North American deer. These eyes are forward looking and have an extra brown area in the front to avoid accidentally showing white on both sides.

Tohickon 250IQ Implant Quality Whitetail

These eyes have a natural corneal bulge, white banding, and red veining in the sclera. First developed as a custom prosthesis for an injured race horse, the IQ was named for its "implant quality" level.

TOHICKON GLASS EYES • PAYER GLASS EYES

Boar Eyes

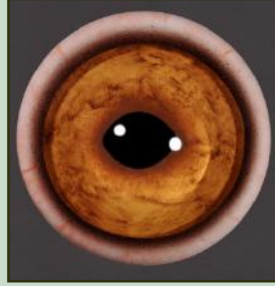

Joe Coombs Boar • Competition Quality

Developed under the direction of Joe Coombs, these are the first boar eyes on the market to have a correctly shaped pupil for boar without any unnatural indentations in the glass, ultra realistic red veins in the sclera, and a compound lens shape based on the expert knowledge and years of research of one of the world's foremost experts on wild boar. Available in three colors to cover the American, Prussian, and mixed breed wild boar found in North America.

TOHICKON GLASS & ACRYLIC EYES

Premium Glass Pheasant Eyes

Take your pheasant mount to the next level with Tohickon's two color and banded pheasant eyes. These two eyes are colored specifically for pheasant and will make a noticeable difference with all of your commercial and competition mounts.

Acrylic Bird Eyes

ALL COLORS 7MM-10MM \$5.75

11MM-12MM \$5.95

This series of bird eyes features a round pupil with life like feathering and single or blended iris color. This series is useful for birds as well as for small sculptures, carvings, decoys, lures, etc. Use common practices of working with acrylic eyes such as non marring tools and non chemical cleanup. Size of eye is the last two digits of the item number.

AE2409 would be a 9 MM.

TOHICKON GLASS FISH EYES

135 Series Aspheric Fish

The 135 series from Tohickon is the original aspheric fish eye and is the industry standard. It's low profile aspheric shape and cylindrical side design make it very easy to use. There is a very slight ridge at the perimeter to aid in the sculpture of your sclerotic capsule.

Eye Sockets
Designed to Accept the 135
Tohickon Fish Eyes

WAYNE COOPER FLEX EYES

It is not necessary to paint these eyes but color can be added to the scleral band. Any over spray can be cleaned from the rubber with a Q - tip and lacquer thinner. Any haze on the eyes will be removed and the shine will return when you glass the fish.

Water fowl eyes and lids are color matched for each species, but the lids can be painted for a two-tone blend. The eyes and lids are specifically fitted and sold as a complete unit.

AUTO-SET™ EYE INSTRUCTIONS

All Classics manikins have an Auto-Set™ eye feature. The eye socket has been preset at the proper angle forward and tilted downward according to our study of live whitetail deer. By aligning the Auto-Set™ marks at the front and back of the eye socket with the pupil, the eye is automatically set.

We will use the 1-2-3 clay method to break down the steps of eye setting to enable you to understand the basic structure of the whitetail eye.

PAY CLOSE ATTENTION TO YOUR REFERENCE MATERIAL WHILE WORKING.

Place a piece of oblong clay about the size of a marble in the center of the eye.

Simply push the eye flush to the back and line up the pupil to the Auto-Set™ marks and the eye is automatically set.

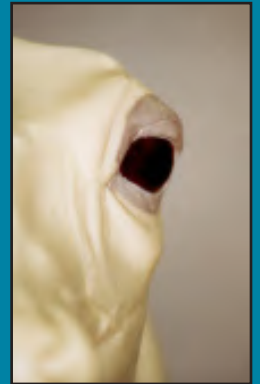

1 - Shape the front part of the eyelid.

2 - Place the top of the eyelid making it a little heavier than normal to allow for shrinkage.

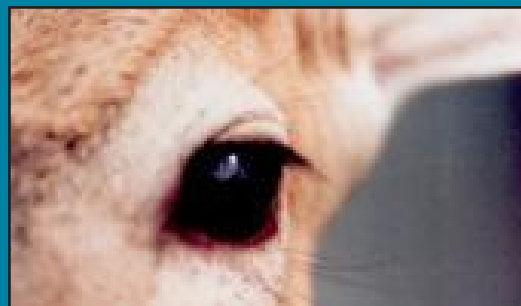

3 - Last comes the lower eyelid. Be careful not to put too much clay and leave room for the nictitating membrane in the front of the eye.

After clay work is done, use a modeling tool to make a slot between the glass eye and clay to tuck the inner eyelid in.

After final clay work is done, use your reference photos to do the final detail work.

AND EARS TO YOU . . .

BONDO EARS THAT IS

By Mary Coombs

I like to use the Fiberglass method instead of plastic earliners. This method gives you a perfect fitting ear liner when done properly. Instead of removing the cartilage from the ears and replacing it with a liner, you simply reinforce the natural cartilage with a resin mixture. Mix Bondo, Fiberglass resin, chopped fiberglass, and the activator until it is one even color. Invert the ear halfway and bring the cartilage forward. It will form a pocket behind the ear cartilage. Place the mixture in the pocket. Be very careful not to trap any air bubbles. A very important area are the tips. Make sure that the mixture is in every part. Reshape the ear using the natural cartilage shape and hair pattern.

Always have good references on hand. With your fingers, squeeze and shape the ears to a thickness that a live deer would have. You may make them slightly thicker because there will be some shrinkage. When the Bondo gets to a rubbery consistency, trim off any excess at the base of the ear. It is a lot easier to do the trimming at this point instead of waiting for it to harden. This gives you a smooth surface for your next step, recreating an ear butt.

1. Invert ear and leave cartilage in during the fleshing process.
2. Tanned cape-brush entire inner ear with steel brush. This makes for better adhesion. Use hair dryer to make sure ear is thoroughly dry before introducing Bondo mixtures.
3. Components used: Bondo, Chopped Fiberglass, Fiberglass resin, activator, and spatula.
4. Bondo, resin, and activator.
5. Bondo, resin, and activator thoroughly mixed.
6. Chopped Fiberglass added and then mixed.
7. Divide into two equal parts.
8. & 9. Insert half into each ear pocket.
- After ear is shaped, trim off excess Bondo showing.
10. Reference photograph showing shape of live deer's ear.

WHITETAIL EAR LINERS AND EAR BUTTS

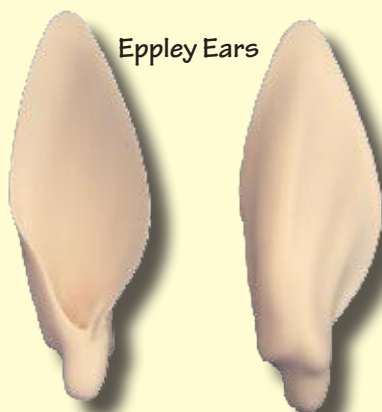

ULTIMATE EAR LINERS

By Cary Cochran

- Made from flexible plastic
- Colored in pink for color bleed through
- Slightly textured matte finish for better adhesion
- Inner ear canal is sculpted with correct anatomy

ADVANCED FORMULA PROFESSIONAL TANNING OIL

"Industry's First Residue Free Brush On Tan"

- Produces snow white leather
- Silky clean, super soft hair, fur, & skin
- Stretches like dry preserved with virtually no shrinkage
- Non-greasy hair & fur...simply rinse
- Synthetic base...will not wash out

Item No.	Size	Price
PC01G	Gallon	\$74.00
PC01Q	Quart	\$25.00

LEATHER TANNING CONCENTRATE

Liquid Tanning Concentrate
Replaces Mineral Tans

- Submersible Tanning or Auto Tanning agent
- 1 fl oz per pound of skin
- Pickle then tan & oil in the same bath at the same time!
- No more dissolving powdered tans in warm water
- Synthetic base...will not wash out

Item No.	Size	Price
PC02G	Gallon	\$74.00
PC02Q	Quart	\$25.00

LIQUASAFE ACID

Replaces All Other Acids

- 1/2 fl oz per gallon of water
- Odorless and biodegradable
- No burns or evaporation
- Produces plump skins for easy shaving

Item No.	Size	Price
PC03G	Gallon	\$54.00
PC03Q	Quart	\$20.00

TANLIQUOR

Fatliquor oil for tanning solutions or swab on application.

- Submersible, wet drum, auto tanner - "oil in the tan" or swab on
- Excellent with Leather Tanning Concentrate
- Non-greasy, rich feel & superior softening
- 2 fl oz / lb of skin when fat liquoring

Item No.	Size	Price
PC08G	Gallon	\$54.00
PC08Q	Quart	\$22.00

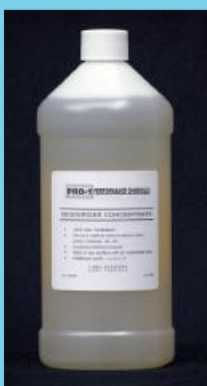

DEODORIZER CONCENTRATE

The Best Odor Eliminator on the Market

- 100 % odor neutralizer
- Use on goats, sheep, elk, antelope, etc.
- 1 fl oz per gallon solution
- Neutral pH
- Wildflower scent

Item No.	Size	Price
PC05Q	Quart	\$24.00

DEGREASER / RELAXER

Initial degreasing is done right in the pickle

- Degreaser, heavy duty cleaner, & relaxer in one
- 2-5 fl oz per 5 gallon solution
- Solvent-based concentrate- biodegradable
- Neutral pH

Item No.	Size	Price
PC04G	Gallon	\$69.00
PC04Q	Quart	\$24.00

PRO-1 HIDE PASTE

- Holds like nails
- Thick 1 part adhesive
- Dries slowly
- Incompatible w/ dry preservative
- Water clean up or brush out

The all new Advanced Tanning Solutions chemicals by Dale Knobloch is new and improved from the old Knoblochs chemicals!

WASHING DEODORIZER CONCENTRATE

A concentrated aqueous deodorizer/cleaner that can be used in the pickle, tan or rehydration bath. Kills and masks foul odors. Leaves a pleasant smell on the hide and skin.

Item No.	Size	Price
CATS16	Quart	\$31.50
CATS16 G	Gallon	\$79.95

PICKLE X POWDER

The newest concept in pickling skins and hides. Works at a higher pH.

Item No.	Size	Price
CATS17 10	10lbs.	\$48.50
CATS17 25	25lbs	\$102.50

PICKLE-TAN A-21

Pickle-Tan A-21 is a non-toxic aluminum based powder tan with excellent pickling ability. Speeds up the tanning process by combining the pickle and tanning baths.

Item No.	Size	Price
CATS18 10	10lbs.	\$52.50
CATS18 25	25lbs	\$105.50

BLOOD & STAIN REMOVER

A concentrated cleaner that targets blood, bodily fluids, and organic stains in the hair, hide and feathers. Excellent for cleaning hides prior to pickling, keeping the pickle solution cleaner.

Item No.	Size	Price
CATS19	2lbs.	\$17.50

TANNING & CHEMICALS

TANNING INSTRUCTIONS

By Joe Coombs

Step 1: Skin out the head. Turn lips, nose, eyes and ears - remove any excess flesh from skin.

Step 2: Salt hide and drain overnight.

Step 3: Put in Pre - Tan solution overnight (as directed on label).

Advantages of the Pre - Tan:

- A. Puffs up skin.
- B. Makes shaving easier.
- C. Next day shaving can be done.
- D. Pickles in 24 hours.

Do not soak cape more than 24 hrs. in solution

Step 4: Beam or flesh cape.

Step 5: Put cape in Washing Oil solution for 15 minutes (as directed on label.)

Step 6: Towel dry or tumble with saw dust *

Step 7: Apply Liqua - Tan to hide, hang to dry for four to six days. (Mr. Coombs uses a fan in room where capes are drying.)

Step 8: To relax cape use 4 gallons of water and 2 capfuls of Kemal 4. Use Protex Pre - Soak (as directed on label.)

Step 9: Soak cape in Kemal solution for 1 ½ to 2 hours. The cape should be completely relaxed.

Step 10: Remove hide from solution of Kemal and place in a plastic bag or damp towel to sweat overnight in refrigerator.

Step 11: Hide should now have a stretch and is ready for mounting

* After step six, you may mount cape right away by doing the following steps:

- A. Use Protex Pre - Soak (as directed on label).
- B. Apply Liqua - Tan.
- C. Roll up cape, put in refrigerator.
- D. Mount the next day.

†Mr. Coombs prefers to dry cape completely.

PRE TAN #110

Pre Tan #110 is used in the salt brine solution to help set hair, retards bacteria growth, and pre tans the skin. This product helps make shaving easier and produces better and softer leather. It does not require neutralizing and will not reduce stretch.

Item No.	Size	Price
CK01QT	Quart	\$31.15
CK01G	Gallon	\$83.75

WASHING OIL

Washing Oil preps the skin for tanning, degreases and oils at the same time, relaxes, cleans, washes out salt residue, and helps to make softer leather. This product also makes shaving the skin easier.

Can also be used in the fur drum.

Item No.	Size	Price
CK02QT	Quart	\$21.20
CK02G	Gallon	\$61.20

LIQUA TAN

Liqua Tan is a complete and permanent tan. It is fast drying and compatible with all hide paste. It has excellent stretch and sets hair with no oily mess. It reduces shrinkage to almost zero. It is used by many of the leading taxidermists because of its ease of use. The skin can be mounted the same day or dried and handled as a tanned skin.

Item No.	Size	Price
CK03QT	Quart	\$25.70
CK03G	Gallon	\$71.60

Instructions are on the Bottles

KEMAL-4

Kemal - 4 is a relaxer, skin prep, detergent degreaser, and cleaner all in one. Concentrated and safe to use, it can be used in all soak solutions. Prepares the skin to accept tanning. Relaxes the skin for easier shaving. Softens such skins as African and grease burned skins. Will not cause hair slippage like ordinary soaps because of its low ph is about ten times stronger than most dish detergent.

Item No.	Size	Price
CK04QT	Quart	\$21.25
CK04G	Gallon	\$57.25

KEMSOL DEGREASER

Kemsol Degreaser acts as a solvent. Mixes with up to 20 parts water. No odor and safe to use. Can be used over again. Works well on mammals, birds, and fish. Can be used in conjunction with Kemal - 4. Compatible with tanning agents.

Item No.	Size	Price
CK05QT	Quart	\$18.25

DEODORIZER WASH

Deodorizer Wash is a concentrated wash that removes and masks unpleasant odors in skins such as bear, antelope, domestic sheep, fox, coyotes, goats, etc.

Item No.	Size	Price
CK06QT	Quart	\$30.50

STOP SLIP

Stop Slip will permanently set hair that is loose or starting to slip. Also works excellently for setting the velvet on horns. Spray from an atomizer or sponge on.

Item No.	Size	Price
CK08QT	Quart	\$11.05

ANTLER IN VELVET TAN

Antler in Velvet Tan is a fast acting permanent tanning solution specifically designed to set and tan velvet on antlers. It will not wash out.

Item No.	Size	Price
CK09QT	Quart	\$17.35

LIQUA SOFT

Liqua Soft is a special tanning oil designed to be used with Liqua Tan when skins are to be used as flat skins or rugs. Helps produce a soft, supple skin and has special softening agents.

Item No.	Size	Price
CK10QT	Quart	\$25.55

SOFT FINISH

Soft Finish will soften leather considerably whether old or newly tanned. It contains no water and leaves no oily feel. It is brushed on and / or used in the fur drum. It helps soften hard spots.

Item No.	Size	Price
CK11QT	Quart	\$18.75

Enough to Tan Two Average Deer Hides or a Small Elk Hide

Item No.	Description	Price
KIT3	Complete Home Tanning Kit	\$74.95

The Complete Tanning Kit will give you the tools and knowledge necessary to finish a hide with a beautiful hair-on or leather tan. Eight years in the making, this Home Tanning Kit was developed by a professional tanner with 27 years of experience. The kit utilizes a simple salt-alum process that is widely used. What makes this kit unique is our specially formulated oil. Alum tanning alone can leave you with a hard and crusty hide when improperly finished. This unfortunate state is prevented by using our specially formulated oil.

It is a water soluble oil that will make the hide soft and supple without leaving the hide greasy or oily feeling.

This kit is designed so that the process can be completed in a small area over several days. (Some steps take 24-48 hours to finish. If you live in a very humid area, it may take longer.) There is very little mess and there are no harsh chemicals to worry about. The book contains formulas for tanning Deer, Elk*, Moose*, Antelope, Cow Calves, Goats, Sheep, Coyotes, Foxes, and Raccoons.

*Elk and Moose will require more tanning oil and tanning crystals than provided in the kits.

SKULL BLEACHING KIT FROM THE TANNERY, INC.

- Bleach Two Deer Skulls or One Elk Skull
- No Harsh Chemicals
- Non-Toxic Degreaser Accelerates Process
- Only Boil for about an Hour
- Bleaching Paste Works Overnight
- Finish a Skull in a Day Instead of Weeks

The real magic of this kit is the highly concentrated degreaser that eliminates much of the work from the process. You don't need brass brushes or scraping tools to get the skull clean. Our exclusive degreasing solution breaks down the fats and oils during the boiling process allowing all the matter to release much more easily. Also, because there is no bleaching agent in the water, you don't have to worry about the antlers getting discolored. Just boil the skull for about an hour and then wash it with a pressure nozzled hose to clean anything that remains. Once the skull is clean, it needs to be bleached. Mix the bleaching powder with household hydrogen peroxide to make a paste and spread it on the skull.

Let it set overnight, brush off the powder that remains and you are all done. Do not use this for cleaning large skulls that may be record book Pope & Young or Boone & Crocket. The boiling could cause the zygomatic arch to swell, invalidating any measurements. Recommendations for the use of this material are based on tests and evaluations believed to be reliable. However, there is no expressed or implied warranty as to the results obtained.

The Skull Bleaching Kit

Includes: Step-By-Step Instructions, 1 bottle of 3S Degreaser, and 1 Bag of Bleaching Powder

Additional Equipment Needed:

A Pot Large Enough for the Skull

A Bottle of Household Hydrogen Peroxide (3%)

A Sharp Knife

Item No.	Description	Price
KIT4	Skull Bleaching Kit	\$34.99

CHEMICALS • KROWTANN

HAIR SHEEN

Hair Sheen gives hair and fur a clean shine. Can be applied directly to the hair or mixed with sawdust in the fur drum. Will also remove grease and grime from hair, giving it a clean smell. Works well on horns.

Item No.	Size	Price
CK12QT	Quart	\$20.10

FINISHING DEODORIZER

Finishing Deodorizer is used for deodorizing tanned skins or finished mounts and rugs.

Item No.	Size	Price
CK13QT	Quart	\$26.50

LIQUA CURE

Liqua Cure is for fish and birds. It preserves (tans), degreases, cleans, and removes odor. Liqua Cure also reduces shrinkage. This is a concentrate that is mixed one part Liqua Cure to ten parts water. This product can be reused.

Item No.	Size	Price
CK16QT	Quart	\$26.40

REPTILE TAN

Reptile Tan is used for tanning snakes and other reptiles, leaving them soft and pliable. Easy to use.

Item No.	Size	Price
CK18QT	Quart	\$24.20

SKIN PREP-BASACRYL NBU

Basacryl NBU is safe to use, biodegradable, odorless, and colorless. Highly recommended for problems which are associated with hair slippage. Use only oz. per gallon of solution.

Item No.	Size	Price
CK19QT	Quart	\$21.95

PROTEX MOUNT CARE

Protex Mount Care is used for protection of hair, fur, and feathers from damage. Safe and easy to use. Will not wash out. This product is used for new mounts or existing mounts. Protex Mount Care is wiped into the hair or added to the saw dust in the fur drum. This product is not water soluble.

Item No.	Size	Price
CK20QT	Quart	\$34.25

PROTEX PRE SOAK

Protex PreSoak is a water soluble compound for protection of hair, fur, and feathers from damage. It also cleans and conditions hair. This product is used in the last rinse of the tanning process and in the rehydration bath prior to mounting. Concentrated. Use 1 oz. per gallon of water.

Item No.	Size	Price
CK21QT	Quart	\$54.60

KROWTANN 2000		
Enough for 4 Deer Capes or 8 Lifesize Bobcat Capes		
Item No.	Size	Price
K2000	32 oz	\$29.25
KROWTANN WHITETAIL		
Enough for 4 Deer Capes		
Item No.	Size	Price
K2000W	32 oz	\$29.25

*Krowtann Whitetail formula contains an additional softening agent which makes the skin more pliable.

Instructions For 1 Deer Cape

1. Rough flesh the skin, turn the lips, nose, ears, and eyes.
2. Shake up the Krowtann and add 8 oz of Krowtann to 2.5 gallons of water and 64 oz of salt. If the cape is an extra large cape, increase the mixture by 50% and use a larger plastic container. Always keep a lid on the mixture.
3. Leave the skin in the tan, flesh side out for 1-4 days until the skin turns white. Each day lift the skin out of the tan and stretch it out, and return it to the tan in a new position to insure that the tan is reaching all parts of the skin. Keep the skin submerged with a water filled milk jug.
4. Pull the skin out of the tan and wash the skin in clear water.
5. Neutralize the skin in 2 gallons of water and 10-12 oz of sodium bicarbonate for 15 minutes. Agitate the skin every 5 minutes during the process.
6. Wash the skin, hair side out, in Liquid Tide and rinse well in clear water.
7. Do your final fleshing at this time.
8. (optional) Shampoo your skin at this time.
9. The skin is now ready to mount or can be frozen to mount at a later date.
10. Slowly add sodium bicarbonate to the tanning mixture until ph of 7 is obtained before disposing of it.

This is a very good oil that works very well in conjunction with Krowtann 2000. If you are wanting to do rug or flat tanning with Krowtann 2000, we highly recommend using Krow Oil. Good results can be obtained without any breaking for your rugs or wall hangings. Krow Oil can also be applied to a cape or skin to give even more stretch and to make the skin even more soft.

KROW-OIL		
Item No.	Size	Price
K3000	32 oz	\$20.95

KROW-SOAP		
Item No.	Size	Price
K4000	32 oz	\$19.15

This is the finest shampoo for your mounts that you can get. This will leave your small mammal mounts with full and extra soft hair. Once you have shampooed a mount with Krow Soap and see the difference that it makes, we don't believe you will ever mount another small mammal without it.

SPRAY TANNING • PREMIXED CLAY

CLASSICS SPRAY TAN

Time saving preservation for capes and game. Provides excellent stretch for easier mounting. Preserves the natural color around eyes and nose.

Makes finishing work easy.
Instructions on bottle.

Item No.	Size	Price
CTAN QT	Quart	\$13.60
CTAN HG	½ Gallon	\$20.25
CTAN G	Gallon	\$34.95

CLASSICS PREMIXED EAR BASE

No mixing means no mess. Can be used in place of other fillers. The best ear base to hit the market in recent years. Formula made to Joe's specifications.

Item No.	Size	Price
CSD17 30	30 lbs.	\$41.10

Instructions:

1. Turn the ears, split the lips and around the eyes. Remove large chunks of fat and meat.
2. Apply a moderate amount of Sodium Sulfate to skin side of the cape.
3. Soak for 30 minutes in 3 gallons of water mixed with 2 capfuls of Washing Oil, 1 capful of Kemal-4, and 1 capful of Skin Prep. After 30 minutes, rinse well in clear cool water.
4. Squeeze out excess water and towel dry or tumble cape in saw dust for easier fleshing and completely flush cape.
5. Spray on a moderate coat of Classics Spray Tan on skin side of cape. Roll up cape and let it set for 10 minutes. The cape is now ready to mount or freeze for mounting later. The cape may be left in a refrigerator for next day mounting.
6. After mounting, apply a small amount of Liqua Tan to the nose and around the eyes to eliminate shrinkage and the loss of natural color.

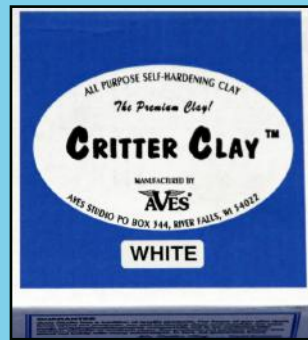

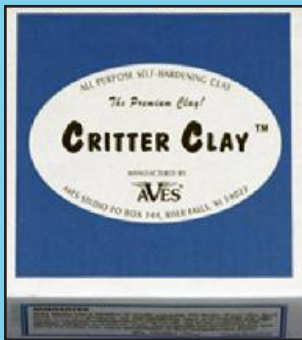

CLASSICS CLAY

Quality clay, low shrinkage at an affordable price.

Item No.	Size	Price
CSD45 05	5 lbs.	\$9.70
CSD45 30	30 lbs.	\$34.10

CRITTER CLAY

Critter Clay™ is the choice of taxidermists & professionals worldwide because of its great detail, fine texture and low shrinkage rate. Critter Clay™ dries to a hard finish. It is a lightweight, extra strong, ready to use, moist, water-based modeling clay. Safe, non-shrinking, non-cracking and non-hazardous. Accepts all paints.

BRACKETS & HANGERS

Wall Pedestal Bracket

Perfect for all of our 9400 & 9500 series Wall Pedestal manikins. Instantly add a new dimension to your mounts that your customers will love. The swivel action of the bracket allows anyone to change the view of the mount with a simple push. The mount can lay flat against the wall or pulled out to give the appearance that it is floating in mid air. This bracket is also perfect for mounts to be placed in the corner of a room. This is a heavy duty bracket that comes completely finished and ready to go.

REPRODUCTION ROCKS & BASES

These realistic rocks are constructed of solid foam. There is a 1/2 backboard molded into the rocks for easy hanging or screwing into a base. Each rock is individually painted so some color variations will occur. These rocks are sure to save you hours of time in base work.

ROCK1 is used with all the small game pedestals except the coyote. By turning it horizontal and hanging it on the wall, you can use it as a perch for ducks and game birds.

Item No.	Width	Height	Depth	Price
ROCK1	6	6	7	\$25.45

ROCK2 is used with the coyote pedestals and mink forms MK6110 & 6122. It can also be used in all your habitat work with other small mammals and birds.

Item No.	Width	Height	Depth	Price
ROCK2	9	6	10	\$31.80

ROCK3 fits the raccoon RC4110 as seen on page 70 but can be used with many other small mammals, birds, or fish.

Item No.	Width	Height	Depth	Price
ROCK3	22	14	11	\$83.40

ROCK4 fits gray fox GF3110 and turned upside down it fits the bobcat BC1233. All sides of this rock are formed and it has no back board. ROCK4FB has a flat back with a back board.

Item No.	Width	Height	Depth	Price
ROCK4	23	11	12	\$83.40
ROCK4FB	23	11	12	\$83.40

ROCK5 is the classic base to depict an animal climbing up or down. ROCK5 is shown with several mammals throughout the catalog.

Item No.	Width	Height	Depth	Price
ROCK5	28	18	13	\$98.50

ROCK6 is ideal for turkeys, small mammals and pairs of ducks and pheasants. It features a 3/4" recessed bottom to accommodate the leg wires.

Item No.	Width	Height	Depth	Price
ROCK6	20	4	12	\$53.50

ROCK7 fits fisher FR7110 and also works well with fish or birds because of its ledges and overhangs.

Item No.	Width	Height	Depth	Price
ROCK7	14	19	9	\$70.35

ROCK8 works well with the Brian Harness walking forms. Fits Bobcats BC1422-1455 & BC1622-1633, Red Fox RF2644, & Coyote CY6477. It can also be used for a large array of other small mammals and birds.

Item No.	Width	Height	Depth	Price
ROCK8	28 1/2	8 3/4	17 1/4	\$107.00

ROCK9 WITH BC1333R

ROCK9 is our latest rock base, it includes a piece of driftwood coming out of one side, as shown above. This rock works best with Brian Harness forms BC1322 right turn and BC 1333 right turn. It can also be used for fish, birds, and other small mammals.

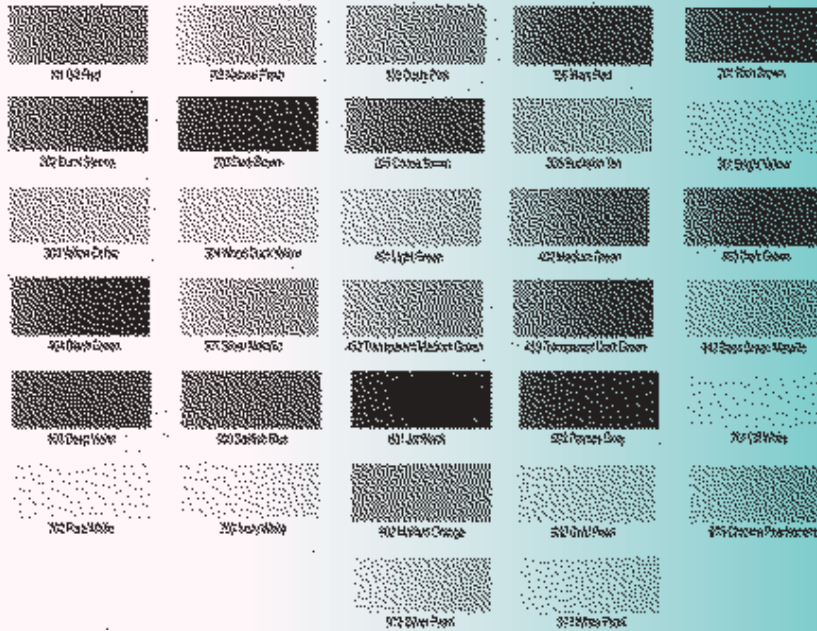

Item No.	Width	Height	Depth	Price
ROCK9	25	14	14 1/2	\$99.40

This painted artificial tree knot is great looking base for small game. A piece of wood is installed so that it can be used as a table top base or hung on the wall. Approximate dimensions when flat on a table: Length: 13" Width: 11" Height: 6 1/4" Circumference: 38 1/2"

Item No.	Price
TK1	\$44.10

LIFETONE® and HYDRO-MIST®

This card is intended to display the individual colors in relationship to one another. It is not a color standard. Every attempt has been made to provide illustrations as close to our color standards as possible, however variations will exist due to the printing process. Colors obtained from actual paint will be cleaner and brighter in most instances.

JOE COOMBS CLASSICS COMPANY POLICIES

ORDERING

ORDERS BY PHONE 1-800-722-2327

Orders are taken from 8 AM to 5 PM (Central Time) Monday-Friday. Voice mail orders are accepted after hours and on holidays. When placing an order by phone, customer accounts are retrieved by their first and last name. We do not use business names, as many taxidermy shops use the same names. Please inform us of any address or telephone number changes at the time of the order. Please have all item numbers of the products you wish to order at the time you call. Joe Coombs Classics representatives adhere to the strict policy of repeating all orders back to customers. Orders are keyed into the computer directly from the phone. The items that are read back and agreed upon are the exact items that print out on the customer invoice. It is strongly advised that customers are prepared with complete item numbers and pay close attention to the items that are read back to you. Our representatives will patiently review your order as many times as necessary to ensure accuracy.

FAX ORDERS 1-985-542-1083

Be sure to include payment method & accurate ship to address

ONLINE ORDERS WWW.JOECOOMBS.COM

Safe and secure online ordering is available 24 hours a day. Orders placed after business hours will be processed and shipped the next day. Email orders will also be accepted but it is strongly advised that you do not send credit card information via e-mail. Email: INFO@JOECOOMBS.COM

PICKUP ORDERS

Pickup orders are highly recommended and welcomed, especially if you are within reasonable driving distance to us. It saves on shipping and allows us to meet and get to know our great customers personally. We suggest all pick up orders be called in, in advance before pickup. Just to insure we have everything ready to go when you arrive. If we must ship you an item we do not have readily available at the time of pickup, we can ship that item, however the customer will be responsible for the shipping charges. We can have most pickup orders ready in an hour or two.

PAYMENT TYPES

CREDIT CARDS

We except Visa, Mastercard, American Express, and Discover cards.

CHECK BY PHONE

Save on COD charges. Provide us with checking info and the funds are drafted out of your account. No extra charges.

Telecheck® processes our checks. What they require is all the numbers at the bottom of a check and a driver license number. If you are not on good terms with Telecheck®, your transaction will be declined. Funds need to be available the same day the order is placed.

COD

Currently the cost of a COD is \$17.50 plus shipping. All COD shipments will be sent by UPS only.

CHECKS

Pay to: Joe Coombs Classics, Inc.
NSF checks will have a \$50.00 service charge
Customers with NSF checks will be subject to paying for future orders with credit card or money order only.

DISCOUNTS

5% Discount \$500.00-\$999.99
10% Discount \$1000.00-\$4999.00
12% Discount \$5000.00 +

BACK ORDERS

Every effort is made by Joe Coombs Classics to carry an extensive inventory on all of our items to avoid back orders. If an item is out of stock that Joe Coombs Classics does not produce on site, an attempt to contact the customer will be made. If that attempt is unsuccessful by the end of the business day, items will be removed from the order. If a customer would like something put on backorder, they must pay for all additional shipping charges.

SHIPPING

DOMESTIC

Joe Coombs Classics offers the services of UPS & FED EX for all of our domestic ground and freight shipments. For oversize boxes, the freight is calculated according to the size of the box rather than the actual weight. This process is known as dimensional weight. Further information regarding dimensional weight or rates can be obtained by visiting UPS or Fed Ex websites. Every attempt is made by warehouse personnel to cut down box sizes and save the customer on shipping. Forms that are not routinely cut can be cut only at the request of the customer. Small items may be sent through USPS at the request of the customer. USPS shipments may be delayed because of pick up time. There is a minimum shipping charge of \$8.00 for all USPS Priority shipments. Shipping quotes are available upon request.

INTERNATIONAL

Joe Coombs Classics only uses USPS Priority Mail for international shipping. Rates can be viewed at the USPS website.

DAMAGES

Be sure to check for damages upon receipt of your package. Damage claims will not be accepted beyond 10 days of the ship date.

RETURNS

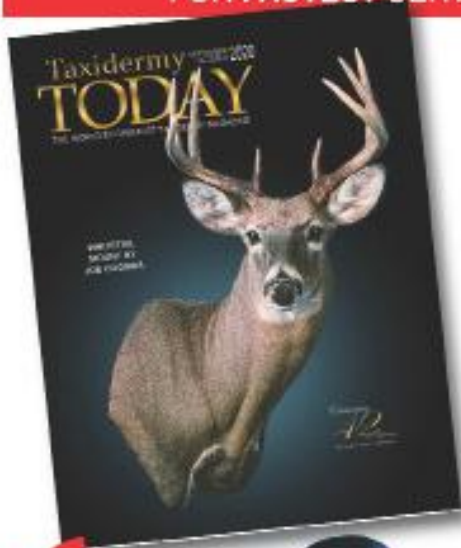

All returns must be made within 30 calendar days of the order date on the invoice. Absolutely no refunds will be given for products returned after 30 days. Customer is responsible for return shipping charges. All products returned must be in salable condition and unaltered. This includes no drill holes, no markings, no glue residue, no sanding, or any other alterations. No returns on special request forms. Include a brief note with your return explaining the action that you want taken. Shipping charges are non refundable.

CLASSICS MANIKINS & FORMS

Every manikin & form listed is copy written. Pivot Pedestals are patented (6,458,434). Unauthorized copying of these forms will prosecuted to the fullest extent.

PRICING

Every effort is made to keep pricing up to date in our printed catalog. Due to increases in manufacturing costs, shipping, and global conditions beyond our control, it is often times necessary to increase pricing without notice. Representatives will gladly price any item for you at the time of ordering. Our website WWW.JOECOOMBS.COM will always provide the most up to date pricing on our products.

THE CHOICE OF MASTERS AND PROFESSIONALS

Joe Coombs Classics wants to give a big congratulations to Dustin Carney on his trophy whitetail! Dustin got this awesome buck on a hunt with Blessed Trinity Outdoors Disabled Adventures. Also, a big thanks to loyal and longtime customer Gary Landeche for mounting this buck and sharing it with us. This is what it's all about.

Congrats Dustin!

One final note from everyone here at Joe Coombs Classics. . .

Looking back at the last couple of years we would like to thank each and everyone of our customers. You all are why we do what we do. We strive to sell the best taxidermy supplies on the planet and to have the absolute best customer service in the industry. As always we would like to thank the men and women who have fought and/or are still fighting and defending the freedom for this country. It is because their bravery that we can do what we love each and every day.

Remember to always give all praise and glory to God himself, for without him none of this would be possible.
